Salvation Army Brownies

Hallow'en parties seem to be the rule and the 14th Pack was no exception. The Hall was decorated with skeletons, lanterns and streamers and many of the Brownies were in costume. Shirley Hutcheson caused much merriment with her rubber face. A lovely new Shiny Tootsool had been presented to the Pack by the Army Corps and was much admired by the Brownies and a very special Fairy Ring was danced around it. Mrs. Jenkins the F. S. taught some new games but the Brownies did not work as it was a real party. However Brown Owl Norma Birt and Tawny Owl Gertrude Johnstone said that they had five girls ready to pass the Golden Bar test and this was to be arranged very soon so that the Brownies may receive their Golden Bars. For the Brownie Corners, signs with Pixie Fairies etc had been printed by Major Hutcheson and really made sure that we were in Brownieland. Those ready to pass the G. Bar are, Ruth Burke, Shirley Hutcheson, Oalula Good, Gail Henderson and Betty Lou Birt. Brown Owl said that they were looking forward to a visit from the Sal. Army Divisional Commander Capt. Maddox and we can feel assured that the encouragement to the Brownies and Guides will spur them to further efforts. Leader of the 14th Guides Betty Carr reports that there are 13 guides in the Company this year with interest focussing on First Class work, a visit from the Field Sec. will be arranged as soon as possible.

Headquarters.

Mrs. Jenkins regrets that it is not always possible to comply with immediate requests to visit but the weeks get booked up considerably ahead. We have so many Guides and Brownies now that to get around to all of them when requested is not possible. However all requests are dealt with in rotation so phone or write early if you require a visit, but please do not feel neglected if you have to wait a little while.

Make Hunting A Safer Sport

At least 95 per cent of all hunting accidents each fall can be avoided if every hunter acquaints himself with the fundamentals of safe gun handling and constantly practices them. These fundamentals are simple and serve a dual purpose: they help keep hunting a safe sport and make for better marksmanship.

There is no excuse for carelessness in gun handling, whether the weapon is loaded or not. The cardinal rule of gun safety is "treat every gun with the respect due a loaded gun." Always remember—never point a gun at anything you do not want to shoot. Never leave your gun unattended unless you unload first. Never climb a tree or a fence with a loaded gun. Carry only empty guns—taken down or with the action open—into your automobile, camp or home. Whenever you pick up a gun, indoors or outdoors, always first point the muzzle in a safe direction and examine the piece carefully to make sure whether or not it is loaded.

Pointing a loaded gun towards a companion is the unpardonable sin of shooting ethics. Do it just once and you have lost the respect and comradeship of your friend, and branded yourself a thoughtless novice or a careless, dangerous shooter with whom it is unsafe to go afield. It is a compliment to be invited to go hunting with an experienced gunner. It means he believes you will observe all safety rules and practice good sportsmanship. Don't let him down by taking chances and you'll help make hunting a safer sport. It's just as easy to be careful as to be careless.

WASHINGTON, Nov. 2 — (AP) — President Truman today paid tribute to the late George Bernard Shaw in a public statement praising him as a "pre-eminent figure" in the literary world.
