### FENNEL & CHANDLER

### BINDERS, MOWER AND RAKES

MAXWELL BINDER is recognized to be the best implement on the market. It is true only right hand cut, and also the simplest and surest knotting machine, never breaking twine.

MOER.—The lightest cutting and strongest machine in heavy or light hay. Has all the best improvements—foot lifting spring, raising finger bar clear of all obstructions, stumps, roots, etc.

RAKES.—Tiger and Stihed. These Rakes are fitted with the new steel wheel, having 26 teeth and solid steel axle. Also, angle steel bar to hold teeth. The teeth are set to rake, not to harrow the ground. They are the most perfect Rake made to-day. Inspection of those machines invited, or write us for prices.

#### HELPLESS FOR A YEAR.

Bowed Down With Rheumatism and Sciatica.

From the Post, Sackville, N. B.

Records like the following carry conviction with them, and in a practical sense it might be said that this is still the age of miracles. Mr. Edward Downey, of McCann, N.B., says: "I have been a resident of Cumberland Co. some years. I have been a great sufferer for upwards of ten years with sciatic rheumatism. I was tortured with severe pains which at times would become almost unbearable, and I think I suffered almost everything a man can suffer and live. I was so crippled that I could not work and part of the time was not able to even move about. I became so weak, and my system so run down that I despaired of ever getting better. My case was an almost hopeless one, and as I had abandoned work I was almost helpless for over a year. I heard of Dr. Williams' Pink Pills and I was induced to at least give them a trial. In a short time I began to recover, and the agonizing pains left my back and limbs, so that I was enabled to walk out of doors. Before I had used more than half a dozen boxes I was almost entirely well and could do a hard day's work. I had a good appetite and began to gain flesh and feel like a new man. I am free from aches and pains and have Dr. Williams' Pink Pills to thank for it all." The reporter could not help feeling that Mr. Downey's case was a striking one as he now presents a stout well built figure, straight-limbed and as smart in his movements as a young man of twenty.

#### MESSAGE TO MEN

Proving that True Honesty and True Philosophy Still Exist

If any man who is weak, nervous and debilitated, or who is suffering from any of the various troubles resulting from youthful folly, excesses or overwork, will take heart and write to me, I will send him confidentially and free of charge the plan pursued by which I was completely restored to perfect health and manhood, after years of suffering from Nervous Debility, loss of Vigor and Organic Weakness.

I have nothing to sell, and therefore want no money, but as I know through my own experience how to sympathize with such sufferers, I am glad to be able to assist any fellow-beings to a cure. I am well aware of the prevalence of quackery, for I myself was deceived and imposed upon until I nearly lost faith in mankind but I rejoice to say that I am now perfectly well and happy once more and am desirous therefore to make this certain means of cure known to all. If you will write to me you can rely upon being cured and the proud satisfaction of having been of great service to one in need will be sufficient reward for my trouble. Absolute secrecy assured. Send 5c silver to cover postage and address Mr. G. Strong, North Rockwood, Mich. 135 p&w.

#### FROGS IN ICELAND.

A Lot of Them Sent to Save the People From Mosquitoes.

There is a country which until recently was without frost, and consequently the inhabitants suffered from mosquitoes more than those of New Jersey.

Dr. Ehlers, whom the Danish Government sent out in the summer of 1895, along with an English, a French and a German colleague, to study the causes of leprosy in Iceland, has written a series of very interesting articles about Iceland in one of the Danish papers, says the New York Journal. He says that in some parts of Iceland, especially round the larger lakes, Thingvallvatn, Myvatn and Svinavatn, the mosquitoes and flies have become so much of a plague that people living round Myvatn (Mosquito Water) are obliged, while working in the fields, to protect their hands and faces by gloves, veils or masks. Iceland has neither reptiles nor toads to destroy these small tormentors. The English physician, therefore, devised a very clever plan, and his German colleague and Dr. Ehlers carried it out, to import frogs to Iceland. The German took along with him a hundred vigorous frogs from Kopenick, and Dr. Ehlers took a supply of forty frogs, which he had captured with great difficulty at Charlottenlund, the summer residence of the Crown Prince of Denmark. While the frogs from Germany—in a packing case riddled with holes and lined with rushes, and drenched with fresh water several times a day—endured the long voyage capitally, thirty-eight of the Danish frogs died the very first night they spent on board of a contagious disease, the nature and cause of which baffled the understanding of the learned doctors, though it was pronounced by the first mate to be homesickness.

At any rate, the frogs were let loose on July 19, 1895, in a bog north of the hot springs by Reikiavik, the capital of Iceland, the doctors hoping that kind folks would introduce them later on to the mosquitoes and flies at Thingvallvatn. Croaking merrily the 102 frogs disappeared in the bog.

### Just a Minute

You may be busy; so are we, and have been all the Spring. So busy that we did not have time to advertise and tell you all the fine things we have for this season and the low prices we are selling for, but the people find us out, for it takes over forty people to keep the orders we get made up, so it keeps us moving to keep everything going right. But for those who do not know, we might say that we keep all the old reliable cloths such as Bellwarp Coating and Serges, Tyke and Blenheim Serges, Fashionable Trouserings to no end. Come and see us and see our stock and the fine clothes we make.
