Coroner's Jury Gives Verdict In Montreal Deaths

MONTREAL, (CP)—A coroner's court jury today held Henri Lalonde, 30, criminally responsible for the rifle slaying of his wife's parents in their suburban Lachine home Saturday.

Lalonde was arested shortly after the victims—Laurent Roy, 75, and his 62-year-old wife—were shot to death with a .30-.30 calibre rifle. He likely will be arraigned and formally charged in court later today.

Dr. Jean Marie Roussel, provincial medico-legal expert, testified the elderly couple died as a result of the shooting.

Police said the shooting followed a quarrel between the Roy couple and Lalonde over an increase in the rent. Lalonde lived with his wife at her parents home.

Gerard Lefexbre, 31, testified he saw Lalonde enter by the rear door of the home with a rifle. As he was leaving after delivering milk to Roy's home, Lefevbre said he heard a rifle shot. A second shot rang out as he crossed the street to his truck.

"I saw Mr. Roy collapse on the veranda then I called police," he said.

Rene Simard, 16, testified he also saw Lalonde entering the house with a rifle as he was riding by on his bicycle.

Neighbors disarmed Lalonde and held him until police arrived after he had threatened the gathering crowd.

Says Provinces Should Probe Stock Rackets

OTTAWA, (CP) —Justice Minister Garson said Tuesday the provinces are responsible for any investigations of stock racketeering under their provincial securities laws.

He informed the Commons, however, that his department would be involved if the United States wants to extradite any American salesmen of phony stocks operating from Canada.

Hazen Argu (CCF—Assiniboia) questioned Mr. Garson and Health Minister Martin—acting external affairs minister—about a Washington report that a U. S. Senate committee investigation is planned into stock racketeering in the U.S. by salesmen working by telephone from Canada.

Mr. Martin said it would not be helpful to comment at present because the Canadian government has had no official indication that such an investigation is planned.

He confirmed, however, that Senator Alexander Wiley, Wisconsin Republican member of the U.S. Senate foreign relations committee, wrote April 16 asking for the Canadian government's opinion on how the two countries could work together to protect stock investors.

MONTREAL, (CP)— Ernest Augustus Macnutt, 78, former vice-president of the Sun Life Assurance Company of Canada, died Tuesday following a brief illness. A native of London, Eng., he came to Canada in 1899.

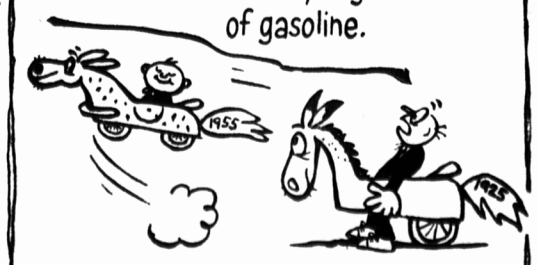
HOW MANY MINUTES PER GALLON?

Of course, you **don't** have to make gasoline yourself. But you **do** have to work at your job to make the money to buy gasoline. And today you don't have to work nearly as long as you did in 1939, or even 1946.

Back in 1939, the average Canadian had to work **33 minutes** to earn enough to buy a gallon of gasoline.

Seven years later, in 1946, the same Canadian had to work **29 minutes** to earn enough to buy a gallon of gasoline.

Today he has to work only **17 minutes** - about half as long as in 1939 - to buy a gallon of gasoline.



(It's much **better** gasoline, too. Two gallons of today's gasoline does the work of three gallons made in the 20's.)
