POTATO GROWERS and
OPERATORS OF POTATO
MACHINERY
All potato growers and operators of potato
machinery are reminded of the amendment to the
"Plant Disease Eradication Act" which has refer-
ence to the disinfecting of potato machinery and
the registering annually of operators of such
such machines.
Under the provisions of the above-mentioned
Act, all potato Planters, Set Cutters, and other
equipment used in the handling of potatoes on
more than one farm or for custom work, must be
thoroughly disinfected before being used on an-
other farm and in the presence of the farmer or
person who requires its use on such farm.
The steam cleaning and disinfecting service will
again be available this year to the operators of
potato machinery.
All farmers, or others, who operate Potato
Planters, Set Cutter, and other equipment used
in the handling of potatoes on more than their own
farms, must apply immediately to the Provincial
Department of Agriculture, Box 2000, Charlot-
tewtown, for a license and enclose the license fee of
fifty cents (.50c). When application for a license
is received, a record book will be forwarded to the
operator and the receipt of the record book will
be evidence that the operator has registered.

FORE CUTTING. THIS WILL ASSIST IN

PORT ELIZABETH (AP) —
Thousands of Negroes lying off
the land in the South Africa's
Ciskei Region between here and
East London, 200 miles to the
east, are threatened with star-
vation. Drought has reduced
their fields to parched waste-
land. Some people say it
already is too late for rain to
help.
