TAX CASES HEARD — Judgment was awarded the Plaintiff in the case of the Trustees of School Unit No. 1 vs. Defaulting Ratepayers heard yesterday before Judge C. St. Clair Trainor in Queens County Court. About 40 ratepayers were involved in the suit. Mr. A. Walthen Gaudet represented the Plaintiff.

SAD NEWS RECEIVED — Mrs. Daniel N. Taylor, Nine Mile Creek, received the sad news of the sudden passing on March 20th, of Mrs. John E. Jones of Hyde Park, Mass. Mrs. Jones was formerly Elizabeth Corbett of Nine Mile Creek. She was a cousin of the late Daniel N. Taylor, with whom she visited each summer.

TO CHANGE NAME — The name of Falconwood Hospital will be a thing of the past if a bill, given first reading in the House by Hon. M.L. Bonnell, is passed. The Bill entitled "The Hillsboro Mental Hospital Act" will, it is understood, have to do with the changing of the name of the present institution. Another Act entitled "The Hillsboro General Hospital Act" will have reference to the Active Treatment Centre.

APPOINTMENT — The appointment of J.G. Timmins as an assistant manager of a Toronto-Dominion Bank in Toronto is announced. Mr. Timmins was accountant at the Toronto main office for 3 1/2 years. He started his bank career in Mount Stewart with the Royal Bank under Mr. J. Harold Shaw. He worked in Hunter River Branch, and took retraining course in Charlottetown after serving with the R.C.A.F. He later joined the Toronto Dominion Bank in that City.

MISSING — Gordon David MacDonald of Cherry Valley is missing and believed to be suffering from amnesia. He is 40 years of age, six foot one inch, 145-150 pounds, slight build, his dark hair being crew cut. When last seen he was wearing a grey felt hat, suburban suit of charcoal colour with wooden buttons. He was seen at Borden several days ago and left his truck there but may have been given a drive to Charlottetown. Anyone knowing his whereabouts is requested to get in touch with the R.C.M.P. or city police.

POLICE COURT — Two drunk and incapable appeared before Magistrate K.M. Martin in City Police Court yesterday morning. One was fined twenty dollars and costs or five days and the other ten dollars and costs or five days. A drunk and disorderly previously remanded was further remanded for one week and a second person charged with a similar offence was remanded until Friday. A motorist charged with splashing mud on another person was also remanded until Friday. Evidence presented disclosed that the accused had driven past the complainant, who was seated in a parked vehicle with the window down, and had caused mud and dirty water to splash into the parked vehicle.

QUESTIONS — In the Legislature yesterday Mr. F.A. Large, Liberal, First Questions, asked the Minister of Highways whether something could be done with the road from Hunter River, west to

NATIONAL KINSMEN WEEK KINSMEN CELEBRATE SECOND

The Association of Kinsmen Clubs of Canada has announced the second annual National Kinsmen Week will be observed from March 31 to April 6 of this year. Special ceremonies and activities in every club from coast to coast will mark this special event. Kin was started in Hamilton in February of 1920. The association now has 309 clubs with a total membership well in excess of 10,000. Kinsmen Clubs are to be found in every Province from coast to coast.

The organization was started to promote and direct fellowship among young business and professional men, between the ages of 21 and 40, and also to serve the community in which each club exists. The record of the Charlotte-town Kinsmen club consists of: FRONT Tony Gallant, secretary; George Hood, treasurer; Joe Shelton, president; Clive Stewart, first vice-president; BACK Jack Johnston, director; Clive Cudmore, 2nd vice-president; Jack Gay, director; Ian Rankin, bulletin editor; Missing from the picture is Sam Robinson, past president.

ROBERTSON MEMORIAL LECTURE

Scientific Research in Modern World Reviewed

"Much in the increase in research effort, which has been so beneficial to Canadian industry since the war, has been directly stimulated by contact with military research and development," asserted Dr. O.M. Solandt, O.B.E., F.R.S.C., who delivered the Samuel N. Robertson Memorial Lecture at Prince of Wales College last night. Dr. Solandt is assistant Vice-President in charge of research and development for the Canadian National Railways. One of Canada's top scientists he is a former president of the Defence Research Board.

In introducing the guest speaker, Dr. Frank MacKinnon referred to Dr. Solandt's eminent achievements in the field of medical and scientific research which has contributed much to Canadian advancement in this field. The speaker was thanked on behalf of all concerned by Dr. Lemuel E. Prowse, president of the P.E.I. Medical Society, who affirmed that the present had been entrusted with the guest speaker's "masterly presentation" of his subject. He declared that Dr. Solandt's lecture had "stirred, startled, and stimulated us, while it warned, encouraged, and challenged us."

Presenting the Dr. Solandt was His Honor Lt. Governor T.W.L. Prowse with his aides, Captain J.J. Connolly, V.R.D., E.D., Lt.-Col. A.W. Rogers, E.D., and W.C. Alan Macmillan; Hon. A.W. Matheson, Premier of the Province; A. Walthen, Gaudet, Deputy Mayor of Charlottetown. Most of the official party were accompanied by their wives.

Following the lecture a reception for Dr. and Mrs. Solandt was held in the College library. The guests were presented by Dr. and Mrs. Frank MacKinnon. Poursers included Mrs. W.J. Duchemin, Mrs. Fulton Coffin, Miss Ruth Ross, Miss L.H. Seaman. Assisting in serving were lady members of the staff and wives of the staff members. The reception was convened by Miss Mary Donahoe and Miss Catherine Bethune.

"The discovery of the means for releasing and controlling nuclear energy... by far the most significant scientific discovery of the first half of the twentieth century... was not a chance discovery," Dr. Solandt declared. "It was just one of the major discoveries resulting from a vast and almost wide stimulation of research which seems to have been brought about mainly by recurrent wars."

"Following the war, politicians in the United States mistakenly assumed that they had a monopoly of the secrets of how to make an atomic bomb. Later events have shown how seriously they misunderstood the nature of these secrets. The one great secret of the atomic bomb was the fact that it could be made to work. The explosions of Hiroshima and Nagasaki made this known to the whole world, and the British soon demonstrated that, even with the limited resources of their strained post-war economy, they had no difficulty in producing atomic weapons."

The learned lecturer outlined the growth of scientific research in Canada from the few college professors engaged in "pure academic" research in the early years of the present century to the present day National Research Council, Atomic Energy of Canada Limited and the Defence Research Board, which employ in all over 1,500 scientists and have a total strength of 7,400 persons engaged in various phases of this work, adding that the Dominion Government's expenditure on research increased from less than \$5 million in 1938 (one-tenth of one per cent of the gross national product) to \$164 million in 1956 (more than one-half of one per cent of the gross national product).

"The world will indeed be fortunate if we do not before long see a demonstration of the fact that very much smaller nations, with far less scientific and engineering talent, can duplicate this feat. The world has also learned that Russia still has great scientists and that its engineering and industrial capacity is rapidly overtaking that of the free nations."

"The tremendous research effort that produced the atomic bomb was continued after the war and has led to the perfection of the hydrogen bomb and of techniques to deliver a hydrogen bomb within a few minutes to any part of the world. The power of these new hydrogen bombs is measured in terms of megatons of T.N.T. Bombs that will each release energy equivalent to ten million tons of T.N.T. will soon be considered a part of the normal armament of a major nation."

"The explosion of one of these bombs would damage ordinary houses beyond repair to a radius of eight to ten miles, and if it were detonated close to the ground the radioactive fallout from its explosion would seriously contaminate an area of several thousand square miles. There is every reason to believe that such weapons exist, or soon will be considered sufficient number that if all that are available were used in a single all-out war, most of the human race would perish and much of the world would become temporarily uninhabitable."

"Great Britain and possibly Germany might have produced a bomb in 1957, Mrs. Alfonso Bryenton of Brackley in her 78th year. Remains resting at the Cutcliffe Funeral Home from where the funeral will be held Friday afternoon, service commencing at 2:30. Interment Sherwood Cemetery.

"These are clearly weapons with a destructive power heretofore undreamed of. It is obvious that no nation would think of using them except when in mortal peril, and even then, the use of them would shrink from using them if there was any possibility of retaliation in kind."

BIRTHS — At the P.E.I. Hospital March 22, 1957, to Mr. and Mrs. Albert Ross, a son, Robert Bruce, weight 8 lbs. 7 oz.

"There is slight comfort in the thought that it is always possible to try to intercept the carrier before it reaches its target. Unfortunately, the outlook for the near future is not bright. Vast scientific effort on both sides of the Iron Curtain is going into the task of perfecting intercontinental ballistic missiles capable of carrying their nuclear payloads to any part of the world. These missiles will travel high in the stratosphere at colossal speeds, and will be extremely difficult to intercept. There is every prospect that we will go through a period when even missiles for delivery have been perfected and there is no effective defence against them. Should the Communists get these weapons first and feel that the free world is without an effective defence they might be tempted to use them in a desperate gamble to gain world domination. It is to avoid this possibility that the free world is devoting so much effort to research in this field."

GILLIS — At P.E.I. Hospital on March 10, 1957, to Mr. and Mrs. Ralph Gillis, Lower Newtown, a son, Kenneth Russell, 7 lbs. 1 oz.

"Great Britain and possibly Germany might have produced a bomb in 1957, Mrs. Alfonso Bryenton of Brackley in her 78th year. Remains resting at the Cutcliffe Funeral Home from where the funeral will be held Friday afternoon, service commencing at 2:30. Interment Sherwood Cemetery.

BURDETT — At P.E.I. Hospital March 27, 1957, to Mr. and Mrs. Ralph Burdett (nee Christine King) Cavendish, a daughter, Laurie Jean, weight 8 lbs. 12 oz.

"Great Britain and possibly Germany might have produced a bomb in 1957, Mrs. Alfonso Bryenton of Brackley in her 78th year. Remains resting at the Cutcliffe Funeral Home from where the funeral will be held Friday afternoon, service commencing at 2:30. Interment Sherwood Cemetery.

JACKSON — At the P.E.I. Hospital on March 28, 1957, to Mr. and Mrs. Colin Jackson (nee Eileen Sanderson) a son, Roger Maynard, 8 lbs 13 oz.

"Great Britain and possibly Germany might have produced a bomb in 1957, Mrs. Alfonso Bryenton of Brackley in her 78th year. Remains resting at the Cutcliffe Funeral Home from where the funeral will be held Friday afternoon, service commencing at 2:30. Interment Sherwood Cemetery.

MACTAVISH — At the Prince Edward Island Hospital on Wednesday, March 27th to Mr. and Mrs. Sinclair Mactavish, Newtown Cross, a son, Malcolm Duncan.

"Great Britain and possibly Germany might have produced a bomb in 1957, Mrs. Alfonso Bryenton of Brackley in her 78th year. Remains resting at the Cutcliffe Funeral Home from where the funeral will be held Friday afternoon, service commencing at 2:30. Interment Sherwood Cemetery.

BOWLAN — At the Charlottetown Hospital on Tuesday, March 26th to Mr. and Mrs. Walter Bowlan, (nee Barbara Pasher) a daughter, 7 lbs 2 ozs.

"Great Britain and possibly Germany might have produced a bomb in 1957, Mrs. Alfonso Bryenton of Brackley in her 78th year. Remains resting at the Cutcliffe Funeral Home from where the funeral will be held Friday afternoon, service commencing at 2:30. Interment Sherwood Cemetery.

DEATHS — At Montague on March 28th, 1957, Mr. (Captain) George Allen in her 84th year. The remains are resting at the home of her daughter, Mrs. Archie Hume. The funeral will be held on Saturday afternoon at 2:30 p.m. from Trinity United Church, Montague, Interment in Montague Cemetery.

"Great Britain and possibly Germany might have produced a bomb in 1957, Mrs. Alfonso Bryenton of Brackley in her 78th year. Remains resting at the Cutcliffe Funeral Home from where the funeral will be held Friday afternoon, service commencing at 2:30. Interment Sherwood Cemetery.

MACINNIS — At the P.E.I. Island Hospital on March 27th, 1957, Miss Elizabeth Jane Macinnis of St. Grafton Street, in her 78th year, formerly of Glasgow Road. The remains are resting at the Cutcliffe Funeral Home where funeral service will be held Saturday afternoon, service starting at 1:30. Interment in Brookfield Cemetery.

"Great Britain and possibly Germany might have produced a bomb in 1957, Mrs. Alfonso Bryenton of Brackley in her 78th year. Remains resting at the Cutcliffe Funeral Home from where the funeral will be held Friday afternoon, service commencing at 2:30. Interment Sherwood Cemetery.

MARRIAGES — At the home of the bride on March 27, 1957, Rev. W. B. MacPhail, B.D., E-the Lillian Frost of Springfield to Russell Nelson Ellis of Northam.

"Great Britain and possibly Germany might have produced a bomb in 1957, Mrs. Alfonso Bryenton of Brackley in her 78th year. Remains resting at the Cutcliffe Funeral Home from where the funeral will be held Friday afternoon, service commencing at 2:30. Interment Sherwood Cemetery.

Impressive Ceremony of Citizenship Yesterday

Friday, March 29, 1957 Page 2 The Guardian WEATHER

Having been adjudged "fit and proper persons to receive the privileges of Canadian Citizenship," three New Canadians were accorded full status as citizens of this great Dominion at an impressive ceremony conducted yesterday morning in Queens County Court, Judge C. St. Clair Trainor presiding.

Presented with Certificates of Citizenship each accompanied by a congratulatory letter from the Minister of Citizenship and Immigration, Mr. Pickersgill, were Dr. and Mrs. Todor Gencheff, and Mr. Lee Taylor.

The three applications were submitted to the Court by the Clerk, Mr. Albert Dennis, following which the oath of allegiance was administered to the group by Judge Trainor, who, addressing them on the occasion, reminded the new citizens that it was the "everyday efforts of the everyday citizen" that built a nation.

The new citizens were presented with mementos of the occasion by ladies representing the I.O.D.E. and the C.W.L. Ladies taking part included: from the I.O.D.E., Mrs. Putnam, Royal Edward Chapter; Mrs. J.R. Burnett, Earl of Hillsboro Chapter; Mrs. A. Andrew, Lucy Maud Montgomery Chapter; from the C.W.L., Mrs. W.J.P. MacMillan, provincial executive; Mrs. J.M. Lee and Mrs. J. Beatoh, Basilica sub-division; Mrs. Leonard MacDonald, Holy Redeemer sub-division; Mrs. Percy MacDonald and Mrs. Eugene Daley, St. Paul's sub-division.

The Bibles on which they swore allegiance to the Queen were presented to the new citizens by Mr. Harry Millar on behalf of the British and Foreign Bible Society.

Dr. W.J.P. MacMillan, O.B.E., expressed "personal testimony of the great work in the field of orthopedic surgery" performed by Dr. Gencheff since his arrival in this Province.

Discuss City Hall Fire Precautions

A special meeting of the Charlottetown City Council was held yesterday morning for the purpose of discussing the settlement of the appraisal for the recent fire damage which occurred at City Hall Wednesday morning. After some discussion a resolution accepting the settlement of \$1,708.50 made by Mr. H.B. Armstrong of Armstrong Insurance Claims was passed.

The Chief of Police with the idea of drawing up arrangements for the periodical patrolling of the building during the night hours.

During the discussions the matter of adequate safekeeping of the current ledgers and other books came up for consideration. In this regard City Clerk James Fullerton informed the Council that the present vault located at the rear of Mayor's office is filled to capacity and does not provide for sufficient space for storage of the current books.

All councillors with the exception of Councillor McCormack were present for the meeting, which was presided over by Deputy Mayor A. Walthen Gaudet.

REPORTER LAYS CHARGE

MILTON, Ont. (CP)—Fed Hollett, a reporter-photographer for the Toronto Telegram, Tuesday laid a charge of common assault against David T. Green, an official of the Milton Brick Company. Mr. Hollett said he was punched in the face last Friday while he was covering a strike at the brick company plant in town 17 miles north of Hamilton.

Use our Lay-away plan. A deposit will hold any garment until needed.

As a result of the recent fire the majority of the country's experts had the opinion that the fire prevention precautions throughout city hall were inadequate, particularly the matter of patrols. Councillor Gormley was asked to meet with the rest of the Police Committee

Boys' white dress Shirts with bow tie, 3 to 6x. 1.95

Children's denim Jeans, sizes 2 to 14. Priced 1.95 & 2.95

the more fortunate results of this "tremendous research effort": the development of practical power plants using energy from nuclear fission, which will "ensure the continued expansion of our energy hungry industry"; the discovery of radar with its important effect on the field of air and sea navigation; and the development of computers and data processing systems for use in commerce and industry.

The GRENDAL Co. Ltd.

Besides the "tremendous upsurge" in the field of scientific and engineering research, the distinguished Canadian scientist noted in the past generation, "the features of the world today" — the growing materialism of our Western society and the tense ideological conflict backed by a colossal and scientific arms race between the East and the West.

LADIES' STORE 150 GT. GEO. ST.

"While I am not one who believes that the world is going rapidly to the dogs," he said, "and who years for the good old days, nevertheless, I do feel that there has been a decline in the standard of values of the Canadian citizen in the past generation. There is no doubt that we tend to rate success in terms of dollars, and progress in terms of television sets and Cadillacs."

BASIC KNOWLEDGE — In the field of education the speaker described himself as "something of a reactionary". In his opinion children should be worked hard in their early days at school in order to get a thorough grounding in the "3 R's" in their early youth, and have much more time later for broadening their education. Dr. Solandt advised against early specialization, while recommending early training in the "basic knowledge of science".

SPREAD OF MATERIALISM — Here in Prince Edward Island you have always retained far more of the ancient Scottish respect for education and for real character and culture. You are to be congratulated on this, but I am sure that you have not been immune to the general increase in materialism in our society. I personally cannot believe that scientific research is responsible for this materialism. True scientific research merely gives man new knowledge of his environment and it is not the fault of the scientist if this knowledge is applied to selfish or destructive ends. However, I would not like to plead

SWEATERS SKIRTS MATCH-MATES

by—leon de Paris and Nat Gordon

"The speaker described himself as 'something of a reactionary'. In his opinion children should be worked hard in their early days at school in order to get a thorough grounding in the '3 R's' in their early youth, and have much more time later for broadening their education. Dr. Solandt advised against early specialization, while recommending early training in the 'basic knowledge of science'."

Here you will find a wonderful selection of new Spring styles and colors—styled as you would want them from the finest materials. SWEATERS - PULLOVERS - CARDIGANS of 100% high bulk orlon—large variety of colors and styles, for only \$14.95 to \$9.95.

Dr. Solandt emphasized that the pressing need in Canada today was for "the evolution of leaders". He foresaw many of these national figures coming from the ranks of our scientists and engineers. "But," he said, "we must not allow our concentration on science and engineering to starve out the study of the social sciences, history, the classics, and the arts in our colleges and universities. We must seek to produce new leaders with diverse backgrounds, but in seeking new avenues to wisdom we must not abandon the old and well tried ones."

MATCH - MATES the new sensational dyed to match sweater and skirt sets by leon de Paris—exclusive with Island Furriers Ltd.—here you have the perfectly matched sportswear outfit—sizes 8 to 20 smartest styling and newest shades—\$22.90 to \$29.90.
