Mr. and Mrs. George E. Dunstan's Basilica on Saturday, September 3, at 10:30 a.m. Miss Doucette is a graduate of the Central School of Nursing, Charlottetown and Mr. Rupert is a graduate of St. Mary's University, Halifax.

Crayons Pleasant To Use And Are Very Versatile

By JOCELYN M. RAYMOND
In co-operation with the staff of the Institute of Child Study, University of Toronto.

Crayons are neat, cheap and quiet. They don't splash or drip and their colors are satisfyingly brilliant. But because they are so convenient we tend to ignore most of their possibilities and to make coloring books their inevitable accompaniment. Certainly there are times when these make a satisfactory combination, particularly when a child needs a rest from more stimulating activities. However, working only at filling outlines cramps a child's imagination. Crayons and a book of blank pages allow more freedom.

Crayons, of course, should not be used to the exclusion of other creative materials, but they are so versatile that they are a must for rainy days and quiet moments in city, camp or cottage. They will help pass the time on car trips, too. If a large sheet of plywood can be provided for a lap board.

The youngest children will need only a few thick crayons and large sheets of newsprint or wrapping paper. A great variety of colors will prompt them only to make tentative dabs of each color, while the thin crayons that come in huge assorted packages will bend and break in a young child's grip. Choose black and clear primary colors as a start, and if two or more children are to work with the crayons, have duplicates.

Make sure that the surface beneath the paper won't be harmed by marks that may go over the edge. Encourage the youngest ones to use bold strokes and don't insist that they color only in one direction.

When children seem ready for more stimulation, extra colors, varied papers and a few suggestions can be added. Shirt cartons, construction paper, paper bags, boxes, corrugated and other textured papers give further variety. Don't forget huge sheets of brown paper for murals which several children can work on together.

Show the children how the points of crayons are useful for sharp lines and details, the blunt ends for broad lines and the sides, stripped of paper, for bold strokes and large surfaces. An old crayon with notches cut along one side makes interesting variations for borders and letters. When the ends and sides of crayons are used, pad the table-top with newspaper so the children can press hard enough to get a bright color. To demonstrate how tints can be blended on the paper it's fun to fill a

page with one color and try different colors on top of it. If a design is drawn with light colors applied heavily and dark ones added on top, the highlights can be scraped off with a toothpick or bobby pin to produce an etched effect. As wax crayons repel water the children will also enjoy touching up the background of a crayon drawing with poster paint or water colors.

Washed cotton material, such as an old sheet, can be turned into colorful doll's bedding, playhouse curtains or costumes with the help of crayons and a little adult assistance. Hold the cloth in place with thumbtacks and draw a design on the cloth, then lay the fabric, design-side-down on newspaper, cover with a wet cloth and press with a hot iron to set the color.

To decorate wood, choose a smooth piece, sketch the design on it and fill the outline with color in the same direction as the grain. Smooth the design with the tip of a finger and shellac.

When the children find an interesting leaf they can make a print of it by placing it vein-side-up on newspaper, securing a sheet of paper on top and coloring over the entire surface with a soft crayon, making all the strokes in one direction.

MURRAY HARBOR

On Tuesday evening a miscellaneous shower was given in honor of Mr. and Mrs. Terry Reynolds at the home of Mrs. Reynolds' parents, Mr. and Mrs. Robert MacFarlane, White Sands. The gifts were opened by Mrs. William Keenan and Marguerite MacFarlane and the verses were read by Mrs. Leon Buell. Lunch was served by the ladies and a social evening enjoyed.

Mrs. Ralph Billard, Murray Harbor, left recently for Newfoundland where she will visit with her relatives. She was accompanied by her sister who resides in Ontario.

Mrs. Audrey Bateman, Cottage City, Maryland, U.S.A. is spending her vacation at her summer home in Murray Harbor.

ETHELENE MACEACHERN GETS DEGREE

Ethelene Sadie Eleanor MacEachern, youngest daughter of Colin MacEachern, Charlottetown, and the late Margaret (Campbell) MacEachern, received her Bachelor of Arts degree at the graduation exercises of Gallaudet College in June.

She received her early education at New Argyle Public School and later attended Prince of Wales College, where she was awarded the John A. MacDonald prize. While in D.C. she also studied at George Washington University.

Deaf from childhood, she was the recipient of the following scholarships due to her honor standing: Vocational Rehabilitation scholarship, Canadian Deaf scholarship, Given Foundation scholarship, and the Delta Epsilon scholarship.

At Gallaudet, Ethelene was a member of the Delta Epsilon Sorority (corresponding secretary), Chi Alpha Bible Club (vice-president), Gallaudet College Medical Club, Ambassador Bible Club and the Womens Gov-

Silver Wedding Anniversary Of Clinton Couple

Peonies and roses decorated the home of Mr. and Mrs. George Paynter, Clinton, recently when family and friends assembled to celebrate with the popular couple their silver wedding anniversary.

Their daughter Anna and their daughter-in-law, Mrs. James Paynter, received the guests. Edson Rayner was master of ceremonies for the presentation of gifts, and the couple were attended by their son LAC Myron Paynter and his wife Kaye who had recently returned after living for the past three years in the Yukon Territories.

On behalf of the family a card conveying congratulations and good wishes was read by their daughter Anna, and a gift was presented by their son James and daughter-in-law Laura. Gifts on behalf of the Hickey family were presented by Mrs. Gordon Bryanton and Junior Hickey, and on behalf of the Paynter family by Mrs. Donald Bernard and John Paynter.

A presentation on behalf of the choir and Adult Fellowship of Kensington Presbyterian Church was made by Mrs. Charles Kennedy and Mrs. Fred Semple. Individual gifts were presented by Mrs. James MacKay and Mrs. Don Taylor and the gift cards were read by Mrs. Sheldon Neill.

The chairman welcomed as special guests, James Hickey of Darnley, father of the bride of twenty-five years, and Mrs. Mildred Glydon of Windhorst.

Mr. and Mrs. Harry Hooper, having arrived from Boston, on their annual vacation. They arrived in time last week to attend the Barry Crane wedding. It's a long time since Harry Hooper gave up the old Bristol Mills and moved to Boston to reside along with his wife, the former Agnes Flynn, of this vic-

Engagement Announced

MR. AND MRS. FRED TURNER 50th Wedding Anniversary Celebrated At S. Winsloe

The family of Mr. and Mrs. Fred Turner of South Winsloe arranged a surprise party for their parents on the occasion of their golden wedding anniversary at the Towers Restaurant, with members of the family, including 17 grandchildren present.

Special guests included Rev. and Mrs. T.R. Goudge and Mr. and Mrs. George MacKay. A three tiered wedding cake graced the table.

Mrs. Turner is the former Hannah Roberts and the couple were married June 14, 1916 by Rev. Henry Crowe. Witnesses were Herbert Horne and Mrs. Ira Auld. They had four children: Ivan, Orville and Freddie of Winsloe and one daughter, Verma (Mrs. Gideon MacLauchlan), West Covehead.

On their return home, friends and neighbors surprised them and called to wish them many happy returns.

The celebrants received many gifts and good wishes from their friends.

A presentation was made from

Colorado potato beetle larvae and other foliage insects retard plant growth and development, help spread disease. One low-cost Endrin application controls all major pests for up to two weeks.

POTATO GROWERS:

Powerful Shell ENDRIN cuts spray costs two ways: (1) controls all foliage insects; (2) lasts longer than other insecticides.

You need no longer switch from one costly insecticide to another for control of major potato insects. Remarkable Shell Endrin 20 emulsible concentrate controls them all—effectively and economically. One application lasts up to two weeks. As fewer sprays are required, you save both time and money. Read how Shell Endrin can boost your crop income.

MORE AND MORE Maritime potato growers are using Shell Endrin to control foliage insects. Reason: powerful Endrin controls flea beetles, leaf-hoppers, aphids, Colorado potato beetles and all other major destructive pests. And Endrin does the job economically.

Prolonged killing power—Endrin not only controls more insects than other insecticides—it also protects longer. A single Endrin application protects plants from profit-robbing insects for 7 to 10 days—sometimes

longer. Foliage growth is more vigorous. Plants are healthier. You get potatoes of the highest grade—and the biggest crop yield possible.

You save money two ways—Two major features make Endrin more economical than other recommended potato insecticides:

1. You make fewer applications. Since Endrin protects longer than other insecticides, you don't have to make as many applications. Result: you save time and labour—as well as the cost of extra insecticide.

Only one pint of Shell Endrin concentrate per acre will help yield you bigger crops, higher-grade potatoes and more profits.

2. Low per-acre dosages do the job. Shell Endrin is so powerful you need

as little as one pint of concentrate per acre. Application after application, Endrin costs less than most other potato insecticides.

Shell Endrin comes as an emulsible concentrate, containing two pounds of active material per gallon.

For dependable, neighbourly service and a complete line of modern Shell farm products, see your Shell or White Rose farm dealer.

CAUTION: When using any insecticide, always read and follow label instructions carefully.
