

TO THE EDITOR OF THE HERALD.
SIR.—Would you please enquire through your independent columns, why have not the Fire Relief Fund Committee of this City given a Report of their Receipts and Expenditure?
Those who contributed towards the relief of the sufferers have a right to know how their monies have been expended, and upon whom their donations have been bestowed.
Yours, &c.,
A CONTRIBUTOR.
Charlottetown, March 19, 1867.

Though the cry of the Emperor of the French is ever "Peace, Peace," he appears to be busy in increasing the number and efficiency of his ships-of-war. One vessel called the *Taureau*, recently finished, and in success is pronounced perfect. The *Belligere*, built after a new plan, and which is to carry the Admiral's flag in the Pacific, has been so successful that it is resolved by the naval authorities "to put others like her on the stocks immediately." Instructions have been received at Rochefort to lay down the keel of a new coast-guard armor plated vessel, which is to be called the *Tigre*. Three other vessels of the same kind, the *Belier*, the *Boule-Douge* and the *Cerber*, are to be built respectively at Cherbourg, at Lorient and at Brest. Besides these the *Volta*, a despatch boat, is to be ready in August; the *Jeanne d'Arc*, an iron-cased frigate, is to be ready in September, and the *Estrees*, another despatch boat, which was launched a few weeks ago, is to be ready for sea in June. The government building yards, one and all, present scenes of busy activity. Taking these things into account, as the plans for the reorganization of the army, now under consideration, it is manifest that the Emperor means to "hold the French flag high."

CONGRESS AND ITS MISDEEDS.
A FAITHFUL PICTURE OF CONGRESSIONAL LEGISLATION.

[From the New York Citizen.]
The people look to their representatives and momentary rulers at Washington with dread. Anticipating nothing but injury, they await events breathlessly, not knowing on whom the next blow may fall. Forced to elect men on one issue alone, and one that they consider vital to the safety of the country, they submit peacefully, but sorrowfully, to the necessary evils that their chosen delegates inflict in pursuance of crude theories or stupid ignorance. Tariffs are changed, increased or diminished without rule or reason; currency is issued or contracted on whims or fancies; gold is raised or lowered; business is interfered with, duties are altered and removed from one article to be levied on another. No business man feels safe; a ruinous duty may be levied suddenly on his entire stock of goods, or special taxes laid upon his trade that will drive him out of employment. Importers may be ruined that manufacturers may thrive, or manufacturers may be destroyed that producers may be benefited. There is certainty in nothing. There is certainty in nothing. The increase in currency will inflate prices; its diminution will reduce them. Industrial pursuit may be taxed out of existence or encouraged to the injury of other interests.

Under this influence we have become a nation of speculators. If any lucky individual can ascertain the future action of Congress, he has a certain fortune. If additional money is to be manufactured—rags ground out by the Government mills and called a circulating medium—he has only to buy stocks. If the tariff duty is to be increased on certain merchandise, he has only to buy a large quantity of it, and his profits are proportionate. The poor fellow who follows his legitimate occupation will probably be ruined; the unfortunate mercantile gambler who happens to be behind the scenes may make money without labor. Since the war began, prices of all commodities have increased; men have bought turpentine at ten dollars a barrel, and sold it at one hundred and twenty; they have purchased whiskey at fifty cents a gallon and sold it after an excise of two dollars per gallon had been laid at nearly the amount of the excise. So long as similar changes can be made, similar profits will accrue; and the chance of such results is too alluring to be resisted. The commonplace, plodding, laborious pursuits which, by the assistance of economy, insure a final competency, have been, and will be, neglected for such promising chances. Speculations. Moreover, on the other hand, many kinds of business have been destroyed; imports of foreign goods are driven out of the market, and legitimate trade in many ways affected. The evasion of taxes is infinitely more profitable than honest business; as, for instance, with distilling whiskey, which was long openly sold for less than the Government tax.

This state of affairs cannot last. The country in a few years of such rule would be brought to bankruptcy, and not only to bankruptcy, but to such disorder and demoralization that a decade of good and sensible government could not reinstate it in its former flourishing attitude. To change this shortsighted policy—to give us common sense in political government and ordinary financial skill in commercial affairs—we must get rid of the radicals and extremists who are riding their hobby-horses rough-shod over a prostrate people. We have sacrificed much for the Union; we must save something to make the Union worth having. To do so there must be an organization *de novo* of political parties. The Republicans must be resolved into their component elements; the Democrats must throw off their copper-head associates. We must combine loyalty to the country with intelligence to its government. We must have men in office with liberal minds and enlarged views.—No mere narrow-minded sectarians, fighting for the selfish interests of their own localities to the disregard of the nation at large, will be equal to the necessities of these times of debt and trouble. The sooner a fundamental change is effected the sooner will we escape from the financial and political slough of Despond in which we are now wallowing. The change should originate here, as the financial centre, and be effected by the Democratic Union as an organization of liberal-minded loyal men.

The St. John, N. B., *Globe*, speaking of the "Kingdom of Canada," says:—"That we are to enter upon a course of extravagance in the new kingdom, is pretty certain. The President of the United States who governs about 40,000,000, has a salary of only \$25,000, and greenbacks at that. The Governor General of our little kingdom of 4,000,000 people is to have a salary of \$50,000 in gold."

We have received from Mr. F. H. Coffin, a lengthy report of the Teacher's Convention, which was held in the Normal School on Friday the 15th instant, but too late for this week's paper. We shall have much pleasure in publishing it next week.

In the House of Commons in London, on the 6th of February, Mr. Kavanagh, the new member for Westford County, Ireland, having neither hands nor feet, was brought to the table in a wheeled chair to be sworn.—The honorable member, after taking the oath, signed the Parliamentary roll by placing the pen between the ends of his arms. He appeared to write with great fluency. After signing his name, he was bowed, and then introduced to the Speaker, he was in the usual form, introduced by placing his arms in brass sockets and turning screws which operated upon the wheels of his chair, screws which operated upon the wheels of his chair, screws which operated upon the wheels of his chair, screws which operated upon the wheels of his chair.

Some observation, says the London Athenæum, has been excited by Archdeacon Dennison's approval of cricket as a game to be played on Sundays. This, however, is no modern liberality of spirit. It has been for many years the law of the land, that cricket may be played on Sunday in England, provided the players be all of the parish; in which the game is played. This allowed recreation but prohibited the excitement of matches.

Medical Notices.

Holloway's Pills.—Enfeebled Existence.—This medicine embraces every attribute required in a general and domestic remedy; it overturns the foundations of disease laid by defective food and impure air. In obstructions or congestions of the liver, lungs, bowels, or any other organ, these Pills are especially serviceable and eminently successful. They should be kept in readiness in every family, as they are a medicine without a fault for young persons, and those of feeble constitutions. They never cause pain nor irritate the most sensitive nerves or most tender bowels. Holloway's Pills are the best purifiers of the blood and the best promoters of absorption and secretion which remove all poisonous and obnoxious particles from both solids and fluids.

To Mothers.—Mrs. Winslow's Soothing Syrup, for children, is an old and well-tried remedy. It has stood the test of many years, and never known to fail. It not only relieves the child from pain, but invigorates the stomach and bowels, cures wind colic and gives rest and health to the child, and comfort to the mother.

Sudden Changes of Weather are productive of Throat Diseases, Coughs, Colds &c. There is no more effectual relief for these diseases to be found, than *Brown's Bronchial Troches*. They possess real merit, and have proved their efficacy by a test of many years, having received testimonials from eminent men who have used them.

THE PEOPLE'S FRIEND.

Perry Davis' Vegetable Pain Killer
Possesses virtue, which not alone remove pain instantly, but regulates the stomach, gives strength, tone and vigor to the system. It is one of the medicines that is worth more than gold.

Don't experiment in testing new remedies, when you can buy the genuine Pain Killer, which everybody knows to be good.

The Woodstock (C. W.) Sentinel says: "It is a generally admitted fact, that the medicine manufactured by Messrs Perry Davis & Son has been instrumental in alleviating much pain, and giving relief to millions of suffering humanity. The medical faculty almost everywhere recommend the Pain Killer, and its reputation is now established as the most beneficial family medicine now in use, and may be taken internally and externally to expel pain."

Prepare for Lent!

FOR Sale at the Kent Street Book Store: THE OFFICE OF THE HOLY WEEK, according to the Roman Missal and Breviary, in Latin and English. "The week before Easter has been called by several names, from the great mysteries and various ceremonies celebrated and performed in it. The Greeks and Latins anciently called it the *Great Week*, the *Holy Week*; sometimes the *Painful Week*, that is, the week of sufferings; also, the *Week of Sorrows*, the days of the *Cross* or of *sufferings*. "We call it the *Great Week*," says S. Chrysostom, on Ps. 145, "not that it consists of a greater number of days, or that the days in it are longer; but on account of the great things which God has wrought in it: for on these days was the tyranny of the devil overthrown, death disarmed, sin and its curse taken away; heaven opened and made accessible, and men made fellows with the angels."

The chief object of the Church in this week, is to celebrate the memory of the passion and death of her Redeemer; every part of the sacred liturgy is directed to this end; the Church's offices, more solemn and more multiplied in this week than in any other during the whole year, are most especially adapted to excite in the hearts of the Faithful those various sentiments of love and gratitude, of compassion for the sufferings of our Lord, of sorrow and detestation for sin, &c., which every Christian ought to cherish in this holy time. It is with the sincere desire of exciting pious sentiments in the hearts of the faithful, that the whole liturgy of the Church for the *Lily Week* has been collected in this volume; and is presented to the public, both in the Latin and English languages. Thus, while the pious Christian unites his voice with that of the Priest and of the choir, he may also penetrate the sense of the divine office, and sanction by the fervor of his heart what he pronounces with his tongue. For this reason, the editor flatters himself that this book will not fail to please all those who still entertain a due sense of piety and religion; and may profit even those who, through a want of instruction, seldom or never reflect on the great mysteries which the Church commemorates during the Holy Week. The very reading of this most pious and affecting part of the Church's liturgy is capable of exciting in their hearts a true and solid devotion.

Ayer's Sarsaparilla.

Is a concentrated extract of the choice root, so combined with other substances of still greater alternative power as to afford an effectual antidote for diseases Sarsaparilla is reputed to cure. Such a remedy is surely wanted by those who suffer from Strumous complaints, and that one which will accomplish their cure must prove, as this has proved, of immense service to this large class of our afflicted fellow-citizens. How completely this compound will do it, has been proven by experiment on many of the worst cases to be found in the following complaints:—
Scorfula, Scrophulous Swellings and Sores, Skin Diseases, Pimples, Pastules, Blotches, Eruptions, St. Anthony's Fire, Rose or Erysipelas, Tetter or Salt Rheum, Scald Head, Ringworm, &c.
Syphilis or Venereal Disease is expelled from the system by the prolonged use of this SARSAPARILLA, and the patient is left in comparative health.
Female Diseases are caused by Scorfula in the blood, and are often soon cured by this EXTRACT OF SARSAPARILLA.
Do not reject this invaluable medicine, because you have been imposed upon by something pretending to be Sarsaparilla, while it was not. When you have used AYER'S—then, and not till then, will you know the virtue of Sarsaparilla. For minute particulars of the diseases it cures, we refer you to Ayer's American Almanac, which the agent below named will furnish gratis to all who call for it.
AYER'S CATHARTIC PILLS, for the cure of Costiveness, Jaundice, Dyspepsia, Indigestion, Dysentery, Foul Stomach, Pain or Morbid Inaction of the Bowels, Flatulency, Neuralgia, and as a Dinner Pill, are unequalled.
They are sugar coated, so that the most sensitive can take them with pleasure, and they are the best Aperient in the world for all the purposes of a family physic.
Prepared by Dr. J. C. AYER & Co., Lowell, Mass., and sold by all Druggists and dealers in medicine everywhere.
