FARM FOR SALE NOW OFF MARKET

Not being successful in selling my farm at Bedeque I am now taking it off the market. It is not for sale after this date, Jan. 9, 1956.

JACK WATSON
Bedeque, P. E. I.

Mr. Home Owner:

Are you enjoying the new chore imposed on you by the weatherman? That water in your cellar comes from a never ending source it would appear, that is until you get an electric pump to do the work for you.

For only $49.50 you can purchase one of these pumps.

Capacity 600 gallons per hour with a maximum suction lift of 25 feet and a maximum discharge of 25 feet.

After four days of being water boy you might like to have Reddy Kilowatt take over and complete the job. He'll only charge you two cents an hour.

Phone Chappell & Company, phone 8325 for further information on these pumps.

YOUNG MEN WANTED FOR MERCHANDISING

We require young men under 25 years of age to be trained as Assistant Managers in our rapidly expanding Edmonton, Alberta Department Store.

We are interested in UNIVERSITY GRADUATES, with or without previous retailing experience, or High School graduates with a minimum of one year's retail experience in a DEPARTMENT STORE, SPECIALTY SHOP, or VARIETY STORE.

Selected applicants will be taken to Edmonton at Company expense and will be enrolled in a sixteen week induction training programme. Successful candidates will then be placed in specific departments for further responsibility and development. An excellent course in the fundamentals of merchandising is also offered.

A representative will visit this City in the near future to interview interested applicants. Applications should be submitted in person or in writing to the National Employment Service, Executive and Professional Division, Order number 3,1890.

EXCHANGE ENVOYS

BONN (Reuters) — Valerian Zorin Saturday handed in his letters of credence as Russia's first ambassador to West Germany, and at once announced that Russia accepted Wilhelm Haas as Bonn's ambassador to Moscow. West Germany had not sent its advance party to Moscow earlier to prepare for establishment of its first embassy there because the Kremlin had not said it would agree to Haas' appointment.

Markets and Finance

'By THE CANADIAN PRESS

Toronto: Stocks higher; mines featured in trading.

New York: Stocks higher; motors lead advance.

Montreal: Mines firmer; trading moderately active.

Montreal Stocks

MONTREAL (CP) — Industrial prices continued to move forward on the Montreal and Canadian stock exchanges Thursday, almost all classifications showing improvement at the close. Trading moved at a moderately active pace. The mining-western oil group displayed a majority of narrow gains, with speculative issues providing the bulk of heavy volume.

The miscellaneous and pulp and paper sections lined up behind plus signs almost without exception. Winners included Bathurst B, up 1½ points, Ford and Foundation, each up a point, and General Motors, up 1¼.

Utilities, base metals and beverages were strong. One-point gains were chalked up by Seagrams and Aluminium.

Bank of Commerce featured a strong bank section, advancing 1¼ points.

Bouzan was the heavy trader in the mines, firming 6 cents. Also active and a few cents stronger were Betarice, New Jaculet, Consolidated Quebec Yellowknife and Tache. New Vinray and Empire Oil eased slightly.

Industrial volume was 73,300 shares and mines 1,476,000. Of the 265 issues traded, 102 were up, 62 down and 101 unchanged, with 11 new highs and 1 new low established for the year.

The stock exchange's closing averages show banks up 0.05 at 50.75, utilities up 0.6 at 137.5, industrials off 0.6 at 292.4, combined off 0.2 at 240.8, papers up 7.50 at 1379.73 and golds up 1.46 at 78.51.

BATH, England (CP) —Police constable Holt had to hitch-hike to his headquarters in this Somerset city. Someone stole his bicycle from outside his house.

N. Y. Stocks

NEW YORK (AP) — The stock market extended its recovery movement Thursday with gains of around two points marked up by some shares.

The upswing, which started Wednesday lost some of its momentum in the afternoon, however, and selling in the final hour reduced the size of most advances.

The Associated Press 60-stock average closed with a gain of $1.10 at $178.30. Industrials were up $2.20 rails 60 cents and utilities 20 cents.

Highs for 1955-56 numbered 15 and lows six. Volume totalled 2,330,000 shares, up 20,000 from Wednesday.

Higher Canadian stocks included McIntyre, up ½ and International Nickel, up ⅜. Lower were Canadian Pacific and Hiram Walker, both down ¼.

Currencies

MONTREAL (CP)—The U. S. dollar closed Thursday at a discount of ⅛ per cent in terms of Canadian funds, up 1-32. It took 99⅞ cents Canadian to buy $1 American. Pound sterling $2.80 up ⅛.

Power Crisis Receives Notice

That the crisis in Prince County is receiving some widespread publicity throughout Canada is indicated in three communications received by Premier A. W. Matheson yesterday.

A telegram from Premier Douglas Campbll expressed sympathy to the stricken families and contained an offer of relief in whatever form his Government could assist.

From the Northern Wood Preservers of Ontario came an offer to supply poles and from a private citizen, Jean Rosse of New Waterford came a letter with a small donation. The writer makes reference to Bruce Hutcheson's recent article in MacLean's Magazine at the same time making personal reference to "The Beautiful Island" which is held high in the esteem of the correspondent.

Newsprint Control Bill Introduced

QUEBEC (CP)—A bill to place control of production, distribution and sale of newsprint in Quebec Province under a four-man board was tabled in the legislature Thursday.

Main provisions are:

1. Freezing of the price of newsprint until March 1, 1957, at the Sept. 1, 1955, level in the province.
2. No producer may increase the price of newsprint from that level without authorization of the four-man newsprint control board.
3. No newsprint consumer in Quebec, agreements notwithstanding, shall be bound to pay to any newsprint supplier a higher price than fixed by the law or fixed by the board.
4. Every Quebec province newspaper will be legally entitled to "at least" the same quantty of newsprint monthly as it received in the month of September, 1955.

NO AUTHORITY

IDE, England (CP) — For 50 years municipal officials of this Devonshire village have paid for the parish clock to be wound and serviced. Now the district accountant says the payments are illegal.

Mortgage Sale

MORTGAGE SALE

There will be sold by public auction in front of the Town Hall in Souris in King's County in Prince Edward Island, on Saturday, the Fourth day of February, A. D. 1956 at the hour of Eleven o'clock in the forenoon, ALL THAT TRACT piece or parcel of land situate lying and being at Chepstow on Lot or Township Number 46 in King's County in Prince Edward Island, bounded and described as follows, that is to say:— COMMENCING at the Northwest corner of land in the possession of Septimus MacPhee; and thence along the Western boundary of land owned by Walter MacDonald to the Main Post Road leading from Souris to East Point; thence Northwardly along the Eastern boundary of land in the possession of the said Walter MacDonald to land of Patrick Hennessey thence Eastwardly FIVE CHAINS to the Western boundary of land in possession of Michael Foley; thence Southwardly to land of the said Septimus MacPhee and thence Westwardly along the said Septimus MacPhee's land to the place of commencement and containing THIRTY ACRES of land a little more or less.

This sale is made under and by virtue of and pursuant to a Power of Sale contained in an Indenture of Mortgage bearing date the 12th day of July A.D. 1947 and made between William B. MacDonald of Chepstow in King's County, Farmer, and Marguerite MacDonald his wife of the one part and Matthew and McLean Limited of Souris in King's County in Prince Edward Island of the other part and because of default having been made in payment of the principal and interest secured thereby.

For further particulars appliy to Melvin J. McQuaid, Solicitor, Souris.

Dated this 31st day of December, A.D. 1955.

MATTHEW AND McLEAN LIMITED

Toronto Stocks

TORONTO (CP) — The stock market advanced Thursday on the largest volume in four months. Lively dealings in mining issues boosted the volume to 7,208,000 shares compared with 5,516,000 Wednesday and less than 4,500,000 the day before.

Labrador led the senior mines ahead with a $1.50 advance to a high of $20.50. Hollinger gained ⅞. Steep Rock added ½.

Uraniums were sluggish as traders turned their attention to coppers and other base metals, but Consolidated Northland advanced 15 cents to $1.89 and Dyno 17 to $1.29.

Perrill Pete and Canadian Collieries notched 75-cent advances to head advancing western oils. Dome Exploration West climbed 50 cents to $6.80 and Triad and National Pete each added 35 cents. Fargo took a 15-cent loss at $2.10.

For years men have dreamed of harnessing the tides of the Bay of Fundy to produce power. The United States government made a start on it in 1935 but dropped it a year later. Now the project may be revived. This map shows how it would work. A series of dams and locks would keep Passamaquoddy bay at or near-high-tide level by means of sa gates opening inward as the Fundy tide neared full height and closing when it started to recede. The lower pool would be kept at or near the low-tide mark by sea gates opening outward on the ebbing tide, and closing as the tide turned. The difference in water level between the two basins would average 19 feet and power would be generated by turbines in another dam near Eastport, Me., between these two basins. The enormous flow of water would be constant and unfailing. (CP Photo).

U.S. Decision On Funday Tides Survey In February

By DON HOYT
Canadian Press Staff Writer

EASTPORT, Me. (CP) — The rules committee of the U.S. House of Representatives will decide—probably in February—whether it's worth spending $3,900,000,000 to learn if the mighty tides of the Bay of Fundy can be harnessed economically for low-cost electric power.

The long-awaited survey to determine the economic feasibility of making a gigantic powerhouse of tiny Passamaquoddy bay on New Brunswick's southwest coast has already been approved by the U.S Senate.

The final decision however rests in theory with the powerful House rules committee which decrees whether the bill goes before the House for debate or winds up in the wastepaper basket.

STRONG SUPPORTERS

In this little resort town in Maine's southern corner are Quoddy's strongest supporters. Many have been lobbying for action on the project since it was conceived by an American enginer almost 30 years ago.

Eastport is the heart of the 'Quoddy country, or, as one derisive oponent termed it, "a nest of dreamers."

jThose who advocate the harnessing of Fundy tides—which reach an average height of 19 feet in the area—envision themselves as citizens of a compact industrial empire, sharing benefits equally with New Brunswick and to a lesser degree with New England and Nova Scotia.

Critics scoff at predictions that Fundy waters flowing into Passamaquoddy and nearby—Cobscook bay can generate 1,000,000 horsepower.

Regardless of these views, businessmen and legislators are keenly watching each development as there seems for the first time a hope of definite action on the longstalled project.

MANY QUESTIONS

A survey of the waters has nevr been undertaken and Quoddy supporters are the first to admit their optimism is based on connecture—and faith.

They want the enigma of Passamaquoddy solved by a team of enginers. The questions they want answered are these:

How much will the damming of Passamaquoddy and Cobscook bays cost

What price will consumers pay for power

What effect will the dams have on fishing, the regional economy, transportation and existing industry

What markets will be available for 'Quoddy power

Lorne Groom, Progressive Concervative member of th New Brunswick legislature for southern Charlotte county, ses "the makings of this area" if the big development is undertaken.

"I do think the survey should be made," he says emphatically. "Then we'll know where we're going. Everyone in the Atlantic provinces should put up a hue and cry until it's done."

Eastport real estate broker F. C. Emery is a former state senator and onetime newspaper publisher who understands the impact of 'Quoddy on power-hungry Maine.

"God help Maine politicians if they aren't in favor of it," he says vigorously.

"All we're asking for now is a fact-finding survey. No one should be afraid of it unless they're afraid of the truth. We want this thing settled once and for all."

Republican state Senator Oscar H. Brown, operator of a confectionery store here, says "we've been fighting for this thing for 30 years. If 'Quoddy was built it would bring the heavy industry we need.

"The power would probably cost four mills. And anything under six mills is damn cheap power."

Other sources have placed the cost at between 10 and 17 mills.

"WASTE OF MONEY"

The arguments against 'Quoddy are strong and the opposition has an influential leader in Liberal Senator A. Neil McLean of Black's Harbor, N.B.

Senator McLean, a director of the British Commonwealth's largest fish plant, situated on the south coast of New Brunswick, condemns both the survey and construction of 'Quoddy power stations as a waster of the taxpayers' money.

"The thing's fantastic," says Senator McLean. "I think its a political football. Maine's always been Republican and the federal government probably wants to do something for the senators and congressmen who are howling for it."

Senator McLean says Maine would wind up with the industries and New Brunswick would become little more than a storage basin.

"The big plants would go to the American side. They can get free of tariffs. It isn't reasonable that people would build plants on our side. It's an export proposition."

POWER FROM TIDES

The engineering theory generally accepted as soundest for development of tidal power involves a continuous flow of water from Passamaquoddy to Cobscook with the Bay of Fundy as a gigantic reservoir.

Dams would stretch from Maine to New Brunswick's Deer island and from there to the Canadian mainland, effectively blocking Passamaquoddy, the 100 square miles of which are mostly on the Canadian side of the international boundary.

Gates closing off the 50 square miles of Cobscook would be entirely on the Maine side.

The 'Quoddy gates would open as Fundy tides climbed to their 19-foot height and would remain open until the bays levlled.

The water in 'Quoddy would pass through a generating dam near Eastport and into Cobscook whose gates would open as Bay of Fundy tides receded to maintain a 19-foot head between the two basins.

Platinum-Plated Feast For Leading Republicans

By GEORGE KITCHEN
Canadian Press Staff Writer

WASHINGTON (CP) — How would you like to sit down to a dinner that is going to cost you $100?

That's what 60,000 Americans are going to do next week, all in the interests of goodfellowship and support for the party—the Republican party. This platinum-plated (figuratively speaking) love feast will take place the night of Jan. 20 when the Republicans kick off their money-raising campaign for this year's congressional elections.

Apart from the monetary aspects of the thing, they'll be known as "salute to Eisenhower" dinners, to mark the third anniversary of Dwight D. Eisenhower's inauguration as the first Republican president in 20 years. There will be 54 of them, in cities from coast to coast and from the Canadian to the Mexican border.

Strictly speaking, all 60,000 diners won't be paying $100 apiece. While $100-a-plate affairs will be in the majority, there will be a number of $50 shin-digs and others going at a mere $25 a platter for those who get political indigestion at the thought of laying out the equivalent of a month's rent for a single meal.

EARLY ADVANTAGE

No estimate has been made public as to the amount of money expected to flow into the Republican war chest but, with 60,000 expected to break bread, observers figure the sum ought to run into several million dollars.

This will give the Republicans an early financial advantage over the Democrats, who only last year managed to wipe out the $800,000 deficit left over from their unsuccessful 1952 campaign.

The Democrats, who originated the idea of the $100-a-plate political dinner back in the high tide of the Rooseveltian new deal in 1936, haven't yet laid plans for their fund-raising banquets. Theirs will take place in the next month or two.

For a time, the Republicans shied away from the $100 bite and went in for extreme austerity in an attempt to discredit such extravagance. Beginning in 1950, they put on an annual Lincoln Day rally here and charged $1 for a box lunch, distributed by Republican ladies who were careful not to wear mink. The box-lunch affairs were described, in the party vernacular, as "homespun."

Out in Kansas City, incidentally, the cost of living and the flattened post - Christmas bankroll have caught up with the party and tickets are being put on an instalment basis. They are being sold at $25 down and $25 a month.

And in Chicago the party chieftains have let it be known that those who can't afford $100 a plate can enjoy the festivities from a balcony snack bar at a slight charge of $12.50 apiece.
