

Town Puts Final Touches For World Championships

TAMPERE, Finland (AP)—Citizens of Tampere are putting on the final touches for this week's world hockey championships—the greatest sports event in the history of this hockey-crazy city.

The tournament is to open Thursday and last 11 days. Russia will be defending its world title against seven of the world's crack teams, including a Canadian team built around Winnipeg Maroons.

Tampere has spent \$2,000,000 on a new arena. It beat Helsinki, the capital, for the honor of staging the championships in Finland for the first time.

Hockey plays a big part in the life of Tampere, an industrial city of modern apartment blocks set amidst tall, tapering pine trees.

Its three main hockey teams—Tappara, Ilves and TKV—have won the Finnish national title 13 times in the last 16 years.

Even Tampere's children are hockey-minded, knocking pucks about in the snow of every playground and vacant lot.

At the arena, hundreds of kids press their noses to the windows to see the scene where the championships will be fought out.

The city council started building the new arena last June. It can hold 10,200 people, banked steeply round the sides of the rink.

RINK SOLD OUT

All seats have been sold for every game in the tournament. Officials predict that standing room will be sold out too.

Tampere's university and schools are being closed during the championships. That is partly because the university hostel is needed to accommodate visitors, and also because too many children would stay away from school anyway to go and see the hockey.

The city council has also built new bungalows for the teams to live in. It resembles a little Olympic village near the arena. The players will live in rooms with kitchens, refrigerators and bathrooms.

This is all part of Tampere's municipal welfare program. When the tournament is finished the bungalows will be turned into homes for old people.

The teams hoping to dethrone the Russians are Canada, Czechoslovakia, East Germany, Finland, Sweden, the United States and one other—
