## WITH PEARY IN THE ICE

The Steamer Hope Arrives at St. John's, Nfld.

St. John's, Nfld., August 31.—The steamer Hope arrived here last night from Greenland, having left the Peary expedition at Foulke Fiord. After leaving Sydney, C.B., their first landing was at Cape York, where natives were expected to be found. The party was disappointed however, all the natives having left. Without any delay the expedition then sailed for Snow Pocket Bay, but here again they were disappointed. They then proceeded to Saunder's Island, finding the natives there in poor condition, they having had an exceptionally bad winter, snowfalls which lasted for weeks forcing them to quit their old haunts in quest of food. The natives were delighted to see Lieut. Peary and swarmed all over the ship.

The Hope took on board a number of Esquimaux and sailed for Whale Sound, but owing to the heavy ice pack was unable to get in. She came out all right, though she received some bad scrapes. The party then decided to return to Saunder's Island and spent a fortnight there, during which time sixty walrus and a quantity of seals were obtained.

Then the Hope proceeded to Foulke Fiord. She met the Windward on her way. The latter is a poor ship for this work, being unable to steam to any advantage, the Hope leaving her far behind on every occasion when they left port together. At Foulke Fiord the Hope parted with Lieut. Peary and sailed south on the 13th inst., the Windward leaving at the same time for Sheard Osborne Fiord, where Peary will make his headquarters during the winter.

Besides sixty walrus, sixty dogs and ten Esquimaux men and women were taken north. Capt. Bartlett reports all well.

BACK FROM THE I-LAND.—The Sussex correspondent of the St. John Sun says: Rev C W Hamilton returned yesterday by the C P E train from a brief trip to P E Island. During his absence he visited Summerside, Charlottetown, Kensington and Margate. Many friends of former years were met by Mr H., and pleasant memories revived. He reports crops of unprecedented abundance on the Island, but the wheat, of which more was sown than in any former year, is in many cases a total failure because of rust. He says the temperance people are actively engaged in preparations for the approaching plebiscite. The interest in this matter was very much enhanced by addresses recently delivered by Mr. Buchanan. Mr. H. did not intend to do any public work on this trip, but his friends would not allow him to be silent, and they succeeded in persuading him to preach twice on Sunday—in Grace Church (Methodist), Charlottetown, in the morning, and in Heariz's hall in the afternoon. He participated also in the solemn services connected with an old friend in Summerside, and in the joyous occasion of the marriage of two other friends of his, citizens of Summerside, but married at Kensington. The trip was much enjoyed by Mr Hamilton, and also by his brother-in-law, Mr McCullough of Boston, who accompanied him.
