Bombs or Bibles?

Someone has said that, "Men discovered how to blow the world to pieces at the very time when they needed to learn how to hold it together." Is it not ironic that the very scientists who have cooperated to produce death-dealing bombs and missiles stand in dread of their own achievements in penetrating the secrets of nuclear energy, missile warfare and the mysteries of outer space? They know that, under the shifting sands of the civilizations other civilizations lie buried; that no civilization is self-perpetuating; that human governments perish and human systems die. It is not strange then, that thinking men and women today are eagerly groping for means of survival, security and peace — and the solution is so simple that it is overlooked. It is to be found in the word of God in such passage as we read in the second chapter of St. Luke: "TO GIVE LIGHT TO THEM THAT SIT IN DARKNESS AND IN THE SHADOW OF DEATH, TO GUIDE OUR FEET INTO THE WAY OF PEACE."

Realizing the world's need of the truths of the Bible, a group of Christian men formed the Great British and Foreign Bible Society, a century-and-a-half ago and dedicated it to the task of giving the Scriptures to every man in his own tongue.

We share in this mission as we contribute to the Society and we also help when we make a purchase at The Bible House, the profits of which are used to help maintain and develop the work. (At this time at the Charlottetown store will be found appropriate gift items significant of the Easter season.)
