JOHN INGS.

**Treasurer's Office,**

31st Jan., 1866.

**W**ARRANTS from No. 1368, of the date of  
16th Aug., 1864, to No. 1881, of the date of  
the 3d Dec., 1864, (both inclusive,) will be paid  
at the Treasury on demand, together with the in-  
terest due thereon.

GEORGE WRIGHT, Treasurer.

*Holloway's Pills*—The Law of Life—The present  
is a fitting opportunity for drawing attention to  
the few points on which health hinges. All  
impurities must be expelled from the system im-  
mediately their presence is discovered. Wear and  
tear must be compensated by suitable food, which,  
when thoroughly digested, must enrich the blood  
with its nutritive elements. The alterative  
virtues exerted by Holloway's purifying Pills  
exactly meet these requirements, and they further  
exercise distinctive and peculiar powers in  
strengthening the nerves and regulating the circula-  
tion whereby secretion and excretion are accu-  
rately adjusted. These excellent Pills keep all  
the natural functions so fairly balanced that they  
prevent or speedily subdue, headache, nausea,  
diarrhœa, fevers, and similar maladies.

**SAFETY.**

One hundred lives are at once destroyed  
by a terrible explosion. Every eye turns to  
the scene. In the dark winding passages  
of the mine, an enemy has lurked, whose  
spring has been instant destruction. Accu-  
mulated horrors shock the sense.

Instinctively we dread the hidden danger,  
more than an open foe, yet with strange  
perversity, we arm to meet the one, and re-  
fuse to guard against the other. The miner  
stands in jaws of death, and despises secur-  
ity. The inevitable catastrophe comes, and  
horror is testified by the reflection that the  
needless misery might have been averted by  
the use of one of the simplest little instru-  
ments in the world—the safety lamp.

The explosion of fire-damp illustrates,  
with the clearness of chemical demonstra-  
tion, the sudden combination of certain gases,  
and with precisely the same lucidity may be  
pointed out the slower but no less ruinous  
of pernicious and poisonous particles with  
the blood and bodily tissues, by which de-  
leterious change fevers, inflammations, ner-  
vous disorders, gout, rheumatism, skin com-  
plaints, &c., &c., are generated, the consti-  
tution is undermined, and death itself is  
threatened.

Holloway's famous remedies are a safe-  
guard far more effective than the safety-lamp,  
for their field of operation is immeasurably  
more extensive. Skillfully contrived for  
neutralizing all harmful or poisonous atoms  
existing either in the blood or system, they  
constitute the traveller's best friend. Hol-  
loway's Pills are the finest medicine ever  
known in those hot and insalubrious cli-  
mates, where colonists and natives alike live  
in dread of their enfeebled strength succum-  
bing to the insidious attacks of the death-  
dealing miasmata.

From the tropics to the poles no antidote  
can be found to compare with these Pills.  
In the East or West Indies, Australia, A. ne-  
rica, or the marshy countries of Europe,  
Holloway's unequalled remedies afford the  
greatest security for health and life.

It should be bore in mind, too, that, like  
gases in the mine, disease, where left unat-  
tended, increases or intensifies in the body; more  
especially in a variable climate, where out-  
ward conditions are ever changing, is there  
the greatest need of constant care and an effi-  
cient regulator.

The virulence of contagious maladies may  
be defeated by giving purity to the blood and  
free action to every organ of the body.

A giant in armour, capable of resisting or  
subduing infection, Holloway's medicine, by  
universal testimony, fully accomplishes this  
end by strengthening the stomach, cleansing  
the liver, stimulating the kidneys, evacuat-  
ing the bowels, and by determining to the  
skin and equalizing the temperature of the  
frame. It is notable that Holloway's treat-  
ment includes that most important condition  
—time. The proper time and best concert-  
ed means for removing all ailments are dis-  
tinctly indicated in the "instructions" is-  
sued with his remedies, and their practical  
utility has been established by the patronage  
and applause of the world.—*Milwaukee Star.*
