Births, Deaths Marriages

BIRTHS

MacDONALD — At the Charlottetown Hospital, Wednesday, July 18th, 1962, to Mr. and Mrs. Francis MacDonald (nee Ethel Doyle), a daughter. Weight 7 lbs., 6½ ozs.

AITKEN — At the P.E.I. Hospital on Tuesday, July 10th, 1962, to Mr. and Mrs. Albert M. Aitken (nee Margaret Hardy, R.N.), a son Alan Albert.

HOLMES — At the P.E.I. Hospital, July 16th, 1962, to Mr. and Mrs. Calvin Holmes, Kingston, a daughter. Weight 7 lbs., 10 oz.

DOUCETTE — At the Chelsea Memorial Hospital, Mass., on Wednesday, June 6th, 1962, to Mr. and Mrs. Alfred Doucette (nee Joan Aylward), a son. Michael Joseph. Weight 7 lbs. 3 ozs.

ENGAGEMENTS

MACCALLUM — HOUSE —Mr. and Mrs. Kenneth Edward MacCallum announce the engagement of their elder daughter, Mary Lottie Elizabeth to Mr. Donald House, son of Mr. and Mrs. William House, Dundas, Ont. Marriage to take place on August 11, 1962 at the St. Peter's Bay United Church, St. Peter's Bay, P.E.I.

IN MEMORIAM

DOCHERTY — In loving memory of Sgt. John Reginald (Hum) Docherty, New Haven who passed away July 20 1946.

What would we give to clasp your hand,
Your happy face to see.
To hear your voice and see your smile
That meant the world to us.

Ever remembered by Mother and Sisters.

STEVENSON — In loving memory of Lorne Leigh Stevenson who passed away July 20. 1959.

"God knows how much we miss him,
Never shall his memory fade,
Loving thoughts shall ever wander,
To the spot where he is laid."

Sadly missed by his Mother, Father, Sister and Brothers.

DOIRON — In loving memory of a dear wife and mother Mrs. Henry Doiron who departed this life July 20th, 1951.

The happy hours we once enjoyed
How sweet their memory still,
But death has left a loneliness
The world can never fill.

Always remembered by husband and daughter Marge and son-in-law Eugene Richard and grandson Blaine.

MacFADYEN — In loving memory of my dear mother, Mrs. Elizabeth MacFadyen, who passed away July 20, 1943.

Nineteen years ago today
With good-bye left unspoken.
You gently passed away
You couldn't say good-bye to me,
Perhaps it was just as well
I never could have said good-bye
To the one I loved so well.
Not a day do I forget you.
In my heart you're always near,
God alone knows how I miss you
Bringing many a silent tear.

Lovingly remembered by her daughter, Mrs. Duncan MacKinnon, Riverdale.

MacGREGOR — In loving memory of my dear brother Frank MacGregor, passed away July 18th, 1961.

The months may change from year to year,
And friends from day to day,
But the memory of a dear one,
Will never fade away.

Lovingly remembered by his sister Mrs. Charlie Boisner.

PM PRAISES GRANT

OTTAWA (CP) — A $500,000 Ford Foundation grant to the newly-formed Canadian Council on Urban and Regional Research was praised Thursday by Prime Minister Diefenbaker. At the same time, the government announced it is granting the council $78,000 to cover its operating costs for the next 15 months. The council, formed in April, will promote planning at the community and regional level.

FEDERATION OF AGRIC. NEWSLETTER

Cattle Producers Await Important Beef Meeting

The stage is set for the long anticipated puulic meeting of beef and cattle producers.

The committee which was set up on April 19 has worked with a great deal of diligence and its report is now practically completed.

The report will contain over a dozen specific recommendations with explanations of the thinking behind each of the recommendations.

The decision will rest with the meeting as to what action or any may be taken on the report. It may either be accepted in whole or part or rejected completely, but the people concerned will make the decision. Prince of Wales College hall will be the place of meeting, on Tuesday, July 31 at 8.30 p.m. (fast time).

We think this meeting is one that merits good attendance as the matters involved are ones of considerable importance. Plan now to keep the evening of July 31 open.

It is noted with approval that the provincial secretary plans a campaign to eliminate used car bodies from the landscape. We must heartily endorse the proposed program and wish it every success in the world.

In our newsletter on May 4 we referred to the problem of car bodies and suggested a tax on them. We are inclined to accept the government's proposal of converting the wrecks into scrap as being the best initial approach In any event matters can be greatly improved by removing these wrecks from the country side.

MEETINGS

Last Friday and Monday the Kings County Federation of Agriculture held meetings at Murray River and St. Peters. Attendance at Murray River where the topics was related to beef matters was very good, and the various speakers provided information of value and interest. Present were Hon. A. B. MacRae, George MacDonald, president of the federation, L. W. Roper, Dave MacLean, and chairing the meeting Albert Acorn, county president.

The St. Peters meeting fell on one of our infrequent fine evenings and the attendance wasn't good. Here the main topic was the production and marketing of freezing crops. Speakers were George MacDonald and Smith MacFarlane president and vice-president of the provincial federation, George Wright from the Sherwood plant and William Sterns from the department of agriculture. Generally it doesn't appear to be easy to get good attendance at summer meetings even though the matters to be dealt with are of importance.

WEATHER RECORD

There may possibly have been in the past, two week periods in July with more rain, but we doubt if there was ever a cooler period or one with less sunlight. When fires are required in July to make houses comfortable it must be a record. The net result of all the moisture has been a marked increase in the hay crop, a good foundation laid for pastures, grain making very lush growth, potatoes making good progress with perhaps the sourest note coming from the strawberry people who have had real problems with their product.

Some interesting side effects are reported, for instance the veterinarians are reporting an unusual number of milk fever cases in dairy cattle at a time of the year when this disorder is quite infrequent.

Dry weather is now required to prevent the grain from becoming so heavy that it will be a burden to itself.

FARM FORUM CHANGE

After over 20 years of Farm Forum meetings at 8.30 a change will take place this season with the broadcasts being aired at 9 o'clock.

Very likely the later hour will make it easier for many people to arrive on time, but later time of closing will certainly have some draw backs. Only the reaction of forum members will decide whether the change will make any real difference.

BRITISH POTATOES

The very late spring this year has aggravated the already serious potato shortage in Britain. Old crop Majestic potatoes are selling wholesale at about $170 to $180 per short ton and first earlies from Cornwall and Pembrokeshire at up to $260 ($18 per 100 lb.) wholesale.

Because of the unseasonable weather the potato crop is about three weeks later than usual and frosts at the end of May have damaged early and main crop potatoes in Lincolnshire from where much of the supplies come.

Last year new potatoes were fetching $95 per ton at this time after reaching a peak price of $200 in mid-May.

POTATO LEVIES

The efforts of the potato industry in this province to provide funds for promotion and development once again appear to have foundered on legal and judicial rocks.

For over 10 years attempts have been made to develop a system of collecting money that the potato industry could use on its own behalf. The effort has been an exercise in frustration. Usual attempts in this direction have been foiled by the resistance of tthe collectors and the apparent inability of sucessive boards to set up a water tight plan.

To some extent the future of the industry has been impaired by these failures and the present situation represents a really critical one. Many of the clouds surrounding the potato industry are far from rosy and no time should be lost in the industry finding an answer to the problem of obtaining funds to use on its own behalf.

Liberal Leader Says Province In 'Bad Mess'

By FRANK WEEKS
Alberton Bureau Staff Writer

"The affairs of this province are in just as bad a mess as federal affairs are at Ottawa," provincial Liberal party leader A.W. Matheson told the West Prince Liberal Association at its annual meeting in O'Leary Wednesday.

"Although receiving six million dollars more from Ottawa, two millions from the sales tax, and one million from liquor, the Shaw government had a deficit last year of $650,000, and the provincial debt is now over $45 million," Mr. Matheson stated.

CROP INSURANCE

"The Shaw government hired a retired banker at $3,600 a year to administer their crop insurance plan, which has a total income this year of only $1,900 and this man likely has a stenographer, as they have hired 130 new girls. Their crop insurance plan is useless," he observed.

"The Premier of this province drew two sets of travelling expenses," Mr. Matheson said, "and other ministers have huge travelling expenses. The minister of industry. who lost $45,000 in a mink ranch, and gave a fisherman $14,000 without a mortgage, has been given control of $2,000,000.

"In education, conditions are unbelievable. A complete lack of policy. The minister of education has no back bone," the opposition leader declared, while predicting greatly increased school taxes.

EXTENDS WELCOME

J. Watson MacNaught extended a welcome to the delegation from Lennox Island, a new poll in the second district. "This is the most critical time in the history of Canada," he said. 'Although two-thirds of the people of Canada voted against the Diefenbaker government, I am not too optimistic about another federal election," Mr. MacNaught stated. "Diefenbaker wants to be prime minister, and he will hang on to power no matter what happens the country,' he concluded. He predicted a provincial election would come first.

J. George MacKay also congratulated the new poll on Lennox Island for their strong Liberal vote on June 18, and expressed appreciation to those who worked on his behalf.

Other speakers were Prosper A. Arsenault, Harris Rogers, Raynall MacNeill. Seated on the platform were Robert Campbell, Andrew Wells and Edwin Lewis

In the election of officers, Clinton Morrison of Conway was re-elected president, with Kenneth Matheson as co-president. Members of the executive are: First District, Hector Russell Stewart, Clifford Ellis and John Mulligan; Second District, Earl Colwill, Oswald Murphy, Alvin Yeo, and Bradford MacKay.

PRESIDENT REPORTS

In his annual report, the president presented figures showing large Liberal gains in the June 18 election, and predicted two elections within the next year. A new poll on Lennox Island voted 49 for the Liberals and 10 for the Conservatives, Mr. Morrison stated.

A nomination convention for the First District of Prince will be held in Alberton on July 31 and for the Second District in Ellerslie on August 3.

The usual resolutions of allegiance to the Queen and confidence in provincial and national leaders were approved. A resolution suggesting a separate organization for the First and Second Districts was discussed and left for the provincial executive.

BETTER TEACHER

(Continued from page 1)
partment of labor at Ottawa told teachers at a morning session.

He said the present emphasis on technical and vocational training is world-wide and is a product of this age. The current training program will have a great effect upon Canada's future and will contribute to the country's growth and prosperity.

The federal government is interested in those matters affecting the occupational and technical competence of the country's man-power, rather than technical education as such, he stated. The problem of providing such training is national in its scope.

Three broad areas in vocational education are the post high school level, the technical high school program, and the adult education program, devices toward developing the potential of particular groups.

The adult vocational training program was named by the speaker as a most important area of education. All teachers participating in any technical educational program must be occupationally competent and professionally trained. There is no substitute for occupational competence however, he noted.

Many persons giving instructions will have an entirely different pattern of preparation "from that which most of you have followed" he told the teachers. "Can you put the objectives of the program in first place and arbitrary academic and professional qualifications in perspective?"

Looking toward the future he saw education and training becoming in reality a program extending from adolescence to retirement.

If the technical and vocational training program at secondary school level allows standards to become inferior as they have in the past decade, he warned, however, the technical and vocational program will be withdrawn from these schools and will pass to an adult or post school program.

18 Successful In S'side Tests

SUMMERSIDE — Eighteen successful candidates out of a class of 33 received their swimming awards in various classes last week in the Summerside Y's Men's swimming classes held at Linkletter Beach.

The classes, sponsored by the Y's Men's, who pay for all expenses, are in the final course which ends July 27. Tests for beginners will be held July 26, and all other classes will be tested July 27 in thes course.

The 350 children taking part are from Slemon Park, Summerside, Miscouche, St. Eleanors, and Hillcrest. The Y's Men's club bears all costs of the instructions, so that the children have free classes and transportation.

Instructors for the various classes are Dave Miller, Gerald Hopkirk, Dianne Bell, and Marilyn MacLean.
