ALLIED FORCES LAUNCH GENERAL OFFENSIVE IN KOREA

Government Exposes Communist Plot In Britain

Federal Government's Full Title To Proposed Ch'town Building Site Unquestioned

OTTAWA, Sept. 15 (Special)—Public Works officials told The Guardian this afternoon that Works Minister Fournier was absolutely correct in his statement to the House of Commons on Thursday that the Federal Government owned the site of the proposed federal building at Charlottetown. "Moreover, they said the ownership is firm and legal whether or not the former owners of the properties had been paid. "Whether in Charlottetown, Ottawa, or anywhere else in Canada," a ranking Public Works official said, "the Government owns the property from the moment the ex-

Coming Events

- *Dance, Clyde River Hall, Sept. 1st.
- *Mail your films to Garnham Photo Studio, Charlottetown.
- *Provincial Plowing and Horse Show, September 27th and 28th.

Disruption Of British Industry Being Aimed At

LONDON, Sept. 15 (CP)—Britain's top legal experts were working tonight on a plan to fight a Communist plot to disrupt British industry, revealed in Parliament today by Labor Minister George Isaacs.

Ownership Question Settled

When an owner of property takes exception to the offer made for it by the Federal Government after expropriation notice has been filed, and demands a higher figure the official added, this opens the way to negotiation. If negotiations end in deadlock, the amount is finally settled by the Courts. The negotiations and the dispute however, are over, the amount to be paid for the property, not the ownership. The Public Works Department is presently engaged in the settlement of payments for scores of acres of property in Ottawa, the official explained, which have been expropriated for use by the Federal Government for the new national capital plan. Many of these claims have not been settled, nor will they be settled perhaps for months to come. But ownership is vested in the Crown, and no consideration whatever will be given to payment for any alteration made to the property after expropriation notices have been filed.

Prime Minister's Residence

Best-known example of Government expropriation of a property for its own purposes here in Ottawa was that of the lands and building for an official residence for the Prime Minister. The property consisting of four acres of ground, a large home, a gate-house, a coach-house and a garage, owned by the late Gordon Edwards, former M.P., was expropriated in 1945. The federal Government offered \$125,000 for the property. The owner claimed it was worth \$260,000. All negotiations broke down and the issue was carried to the Exchequer Court of Canada which fixed the value of the property at \$140,000.

Canada's Population Estimated 13,871,000

OTTAWA, Sept. 15 (CP)—The Bureau of Statistics estimated today that Canada's population reached 13,871,000 on July 1 for a gain of 143,000 over the Jan. 1 total of 13,728,000. At July 1 last year, it was 13,579,000. The increase in the previous half-year was 149,000, making an estimated gain of 292,000 in the 12 months ended June 30. In 1941, when the last official census was taken, the population was 11,507,000. Entry of Newfoundland into confederation last year accounts for 348,000 of the 10-year gain.

Spy Search Held In U. S. Zone Of Germany

HEIDELBERG, Germany, Sept. 15 (Reuters)—The Allied war games area in Western Germany has been swept by a bona fide spy search, with an American tourist held for five hours today on suspicion of being a Communist spy. The United States army declined to give the name of the man, released after questioning. He had been loitering near "top secret" radio equipment used in the big autumn military manoeuvres in the American zone of Germany. Intelligence agents said the man was a 32-year-old former U.S. army major with a substantial private income. He was described as a member of a "number of Communist front organizations" in the United States. He recently visited several Communist countries. He was released, intelligence officials said, because it could not be established that the tourist actually was working for a foreign government. Earlier today it was disclosed the U.S. army intelligence agents had made a round-up of alleged Russian and Czech spies shortly before the start of the war games. Seventeen persons were arrested—14 of them in the Nuernberg area, where American troop strength is concentrated. Eight of those arrested have already been tried and given terms from five to eight years. An unidentified foreigner arrested by American agents in Heidelberg escaped last night, but was flushed out of the Neckar River by German fishermen and turned over to police. Police said he was not a German, but refused further information. A high U.S. intelligence officer said that Russia and her satellites were "saturating" Western Germany with spies, many of them posing as refugees.

Parliament Adjourns

OTTAWA, Sept. 15 (CP)—Parliament brought its emergency session quietly to a close today. It meets again Feb. 14 next, unless the critical international situation dictates an earlier call. In contrast to the bitter debates which frequently ruffled the 18-day special sitting, a note of harmonious agreement marked the final ceremonies as commoners and senators prepared to scatter to their home constituencies. Behind them they leave a notable record of parliamentary achievement—swift legislative steps to end Canada's paralyzing nine-day railway strike and equally fast enactment of bills to step up the pace of the country's defence program.

Bread, Cream Prices Advance In N. B.

SAINT JOHN, N.B., Sept. 15 (CP)—On the heels of a two-cent boost raising the milk price here to 20 cents a quart, a four-cent increase in the price of cream today hiked it to 30 cents a half pint—the rate effective until two months ago. The price of sliced bread per loaf went up one cent here yesterday to 18. The unsliced, 24-ounce loaf remained unchanged at 17 cents. The milk price increase resulted in a higher charge of milk shakes at many soda fountains. Formerly 15 or 17 cents, they now cost 20 at most fountains here.

\$1,250,000 PEI Bond Issue Sold To Montreal Syndicate

Decision to accept the offer of a Montreal firm for an issue of \$1,250,000 Province of Prince Edward Island three per cent debentures maturing in 15 years was reached at this week's meeting of the Provincial Executive Council. The issue is for capital expenditures including highway improvements during the current year. Premier J. Walter Jones announced that, due to the favourable credit standing of Prince Edward Island, the issue was sold at a cost to the Province of only 3.08 per cent. The debenture issue was purchased by a syndicate composed of Bell, Gouinlock and Company, Limited, McLeod, Young, Weir and Company, Limited, and Mills, Spence and Company, Limited.

Disastrous Barn Fire At Milo Yesterday

A disastrous fire breaking out about 10:15 Friday morning completely destroyed a large barn, measuring 60 by 30 feet, belonging to Mr. William MacDonald of Milo. Two calves were destroyed and over 25 tons of hay, but the other stock were saved. The building was constructed twenty five years ago. Also destroyed were a sheep house and a woodshed. The house, granary, and garage all caught fire but were saved due to the efforts of a large number of men from Milo, O'Leary and other districts who quickly gathered and fought the blaze. Isaacs appealed to British workers not to be misled by attempts to create confusion. "They cannot succeed if the workers refuse to be catspaws," he said. Leaders known. Isaacs declared the leaders of the plan to "disorganize our essential services" are known to the Government. Most of them, he said, have been prominent in previous unofficial strikes. Anthony Eden, Deputy Conservative Leader said Isaacs' statement was "one of the gravest made in the House in recent years in time of peace."

Parliament Adjourns

OTTAWA, Sept. 15 (CP)—Parliament brought its emergency session quietly to a close today. It meets again Feb. 14 next, unless the critical international situation dictates an earlier call. In contrast to the bitter debates which frequently ruffled the 18-day special sitting, a note of harmonious agreement marked the final ceremonies as commoners and senators prepared to scatter to their home constituencies. Behind them they leave a notable record of parliamentary achievement—swift legislative steps to end Canada's paralyzing nine-day railway strike and equally fast enactment of bills to step up the pace of the country's defence program.

Conference On Taxation Planned

OTTAWA, Sept. 15 (CP)—Trade Minister Howe said today in the Commons the Government intends to hold a Federal-Provincial conference on taxation agreements, old-age security and other matters before Christmas. The date had not been fixed.

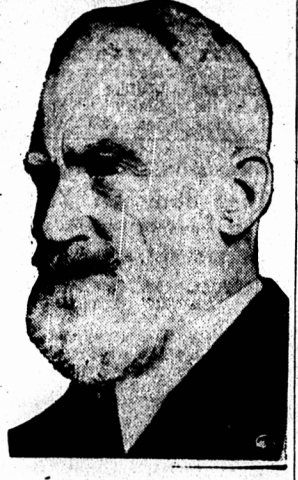

Beer Prices Up At Montreal

MONTREAL, Sept. 15 (P)—Price increases in quart, pint and barrel beer wholesale prices were announced today by National Breweries Ltd. of Montreal, effective Sept. 18. The price boosts were 30 cents a case for a dozen quarts, 25 cents for two dozen pints and 35.50 for a 25-gallon barrel. They were made to meet rising production costs and the new Government tax on barley malt.

Special Brigade May Be Trained On Okinawa

OTTAWA, Sept. 15 (CP)—Canada's special brigade probably will get final training on some Pacific island—most likely Okinawa—before it goes into action as a United Nations anti-aggression force in Korea or elsewhere. This was learned today at the army disclosed that the force now has recruited about 9,000 men and still can use a number of specialists such as medical assistants and tradesmen. It probably will recruit up to 10,000 all told including ancillary troops and reinforcements. The army was mum about where the force would take final training after it leaves Canada about mid-November. But it was learned that Okinawa, the China Sea island wrested from the Japanese by U.S. troops in one of the bloodiest battles of the Pacific war, is definitely in the final training plans at the moment. It lies between Japan and For-

Receives Setback

LUTON, England, Sept. 15 (CP)—George Bernard Shaw's recovery from a fractured thigh bone suffered a setback today. The 94-year-old playwright lost ground when complications developed in the form of a kidney ailment that frequently causes trouble after operations on older people. Three specialists who examined him at the Luton and Dunstable Hospital expressed anxiety after their visit.

Rural Queen's Teachers Meet In Fall Convention

Almost 140 teachers from rural schools in Queens County gathered at the Prince of Wales College auditorium yesterday morning for their annual fall convention. Miss Betty King, President, was in the chair, and minutes of the last convention were read and approved. The following committees were appointed: Nominations: Joyce Nicholson, Patricia MacDonald, Jeannette Ladner. Resolutions: Winnifred Hayter, Linda MacDonald, Mary Sigsworth. Press: Evelyn Underhay, Nelda Richards. Question Box: Christine MacLeod, Mary Morrison. The local President extended a very cordial welcome to all present. She expressed the wish that the teachers would return to their respective schools with renewed ambitions.

New U.S. Liner To Be Used As Troop Transport

WASHINGTON, Sept. 15 (AP)—The United States Government announced today that the 48,000-ton super passenger liner it is helping to build will be finished as a troop transport. Three 3,000-ton combination passenger-cargo ships also under construction will be converted into troop ships along with the big liner, the Federal Maritime Board and Maritime Administration announced. The changeover is being made at the request of the Defence Department "on recommendation of the joint chiefs of staff," the Maritime Agencies said. The 48,000-tonner now scheduled for conversion will carry upwards of 12,000 troops while the three smaller ships will carry 2,500 to 3,000 troops each. The superliner, under construction at Newport News, Va., was to have been the largest and most luxurious vessel ever built in the U. S.

Heavy Fog Stalls Search For Vessel

HALIFAX, Sept. 15 (CP)—Heavy fog off Southwestern Nova Scotia stalled the search today for a small swordfishing boat and her six crew members, missing since being caught in Tuesday's roaring Atlantic hurricane. An R. C. A. F. Canoe from the Search and Rescue base at Greenwood, N. S., made a sweep over the area without spotting a trace of the 50-foot Sir Echo, out of Wood's Harbor, N. S. The air and sea search will continue tomorrow.

News In Brief

OTTAWA, Sept. 15 (CP)—A budgetary surplus of \$292,700,000 was reported today by Finance Minister Abbott from Governmental operations in the five months ended Aug. 31. This compared with a surplus of \$294,800,000 at the same point in the preceding year. MONTREAL, Sept. 15 (CP)—The super-streamlined, jet-propelled F-86 Sabre now being built for the R. C. A. F. by Canadair here is the world's fastest plane. Canadian officials claimed today. The Sabre holds the official speed record of 670 miles an hour with its full load of guns and ammunition. QUEBEC, Sept. 15 (CP)—Premier Duplessis said today his Government has been informed that trucks are being used to distribute Communist literature in the Province. He intends to put a stop to it. LONDON, Sept. 15 (CP)—The House of Commons today passed a bill extending compulsory military service in Britain from 18 months to two years. Second reading, agreement in principle, and third reading, final approval, were agreed to without a recorded vote. ST. JOHN'S, Nfld., Sept. 15 (CP)—Eight forest fires were sweeping across Newfoundland tonight as dry weather pushed the hazard up wards. Most serious outbreaks were at Blackhead Bay and Random Island, where fires were cutting deeply into stands of thick young timber.

May Be Aimed At Crushing Power Of North Korean Forces

SOMEWHERE IN KOREA, Sept. 16—(Saturday)—(AP)—British, United States and South Korean troops today hurled a powerful attack, led by tanks, at dug-in enemy troops north of Taegu. The infantrymen struck toward Seoul, Communist-held South Korean capital now menaced from the sea by a big Allied amphibious landing at the nearby port of Inchon. In their path, however, were the enemy's 3rd, 10th, 13th and 1st Divisions with an estimated 24,000 men. Units in the United Nations attack were identified officially as the U.S. 1st Cavalry Division, the 6th South Korean Division, and the British 27th Brigade. Other unidentified elements were in support of the attack.

U. S. Marines Land Behind Communist Lines

TOKYO, Sept. 16 (Saturday)—(AP)—United States Marines and infantry landed 165 miles behind the Communist lines at Inchon Friday and roared inland in a powerful amphibious assault aimed at smashing the invading North Koreans in a deadly vice. Gen. Douglas MacArthur personally directed the daring gamble which had as its first objective the Communist-held South Korean capital of Seoul. Three Canadian ships took part—the destroyers Albatross, Cayuga and Sioux. Simultaneously with the Inchon assault, South Korean republican troops made secondary landings on the Korean east coast behind the Communist lines. Twenty-two miles inland from

Prepare For Possible U. K. Election

LONDON, Sept. 15 (Reuters)—Britain's main political parties tonight were preparing to swing straight into a general election campaign if the Government is beaten Tuesday in Parliament's confidence vote on steel nationalization. Parliamentary quarters, while admitting the odds were on Government survival, considered the vote might prove the closest in the Government's precarious seven-month existence. The Government has accepted that if Parliament refuses to endorse its proposal to take over the steel industry by Jan. 1, 1951, its only course is resignation—and an election. But Labor leaders have not got down to discussing actual election dates, because Ministers are confident the Government will beat the censure motion proposed by Winston Churchill's Conservatives and approved by Liberals. This confidence is not fully shared by all its supporters. Some have been "counting heads" for the critical vote. They calculate the Government's effective majority of seven may be cut by some members being prevented from attending.

Heavy Fog Stalls Search For Vessel

HALIFAX, Sept. 15 (CP)—Heavy fog off Southwestern Nova Scotia stalled the search today for a small swordfishing boat and her six crew members, missing since being caught in Tuesday's roaring Atlantic hurricane.
