
S'side Firemen Battle Blaze

Hampered by a scarcity of smoke masks, members of the Summerside Fire Department on Wednesday night successfully battled a stubborn fire (above) which threatened to destroy the large two-storey building housing Enmans West Drug Store, Eaton and Simpson mail order offices and the Medical Centre, which included the offices of four doctors. The fire originated around a refrigerator in Enmans Drug Store and spread to the offices of Dr. Simpson directly above, resulting in fire and water damage to both and smoke damage to all sections and offices located in the building.

Other Items On Agenda

S'side Board Of Trade Discusses Highway Route

Presiding at the first meeting of the Summerside Board of Trade since his election as president, Mr. John S. Wright said that the board was an organization which not only included the business men of Summerside but also members from the surrounding rural districts and he extended a welcome to those present from the various country areas.

The meeting was held at the office of Joseph Read and Co. Ltd., this being in line with the policy of the board to hold the regular meetings on the premises of Summerside firms in order to familiarize the members with the business of the other members.

The agenda included a discussion on the highway approach to Summerside from the Red Bridge. The concensus of opinion of the members present was that a resolution be prepared and passed to the Premier of the Province and the Minister of Highways and the local representative, Hon. E. P. Foley, requesting that the present highway, via Reads Corner, be retained and that it be graded and widened to Trans Canada Highway specifications.

The president said that a new boat had been put on service between Newfoundland and Prince Edward Island, the schedule to begin on the first of May. He said that Summerside would be a port of call for two out of every three trips provided that there is sufficient cargo to justify that number of calls. The minimum cargo required for a call would be thirty tons, he said.

The matter of plans to have business men in Prince County get together on this project of supplying sufficient cargo was left in the hands of the transportation committee. The board decided to invite Mr. Agnew, trade commissioner, Charlottetown to be present at the next regular meeting.

Regarding the matter of additional storage facilities at the Marine Wharf, the transportation committee was asked to draft a set of recommendations to be dealt with at the next meeting. Mr. Fred Bingham pointed out that in his report for the past year he had recommendated that, the wharf be paved, that office space be constructed for the use of the shippers, and that wharf fenders be installed for the protection of ships docking at the wharf.

Mr. Edgar Cannon said that he had been requested by the Prince County Fish and Game Association to ask the board to back up their request to the Provincial Government for a grant of $2,000.00 to assist the association in a plan to restock Prince County with pheasants.

It was pointed out by various speakers that the result of such a plan would be an added attraction for tourists coming into the province.

The board agreed to prepare a resolution to be forwarded to the Provincial Government backing up the request of the Fish and Game Association.

The report of the retail merchants recommended that Summerside stores remain open on Thursday night before Good Friday.

An invitation from Mr. T.J. Inman, president of the P.E.I. Mutual Fire Insurance Company to hold the next meeting at their office was gratefully accepted by the board as was the invitation from Mr. Amos Hubley, manager, of Perfection Dairy to meet at his office the following month.

Bible Society, Summerside Branch Holds Annual Meeting

Mr. A. H. Hubley was re-elected president of the Summerside branch of the British and Foreign Bible Society at their annual meeting Thursday evening held in the Baptist Church parlor. Rev. Keith Hobson, Minister of the Summerside Baptist Church conducted the devotional period which preceded the annual meeting.

In the president's report for 1955 Mr. Hubley said "It is indeed an honor and a privilege to make my eighth annual report for the local branch of the British and Foreign Bible Society.

The Bible Society was established in London, England on March 7, 1804. It is a publishing house of a peculiear kind, for it issues only different versions of one book and it operates deliberately at a loss. It does this because of a deep conviction that every man should have the word of God in his mother tongue. It has faith that Christian people in England, Candada and other nations of the Commonwealth will meet the deficit involved.

The society maintains 16 Bible Houses and depositories where a good stock of Scriptures in the languages used in Canada is maintained. It supports colporteurs who visit isolated districts. It encourages church members and friends fo the society to undertake voluntary colportage in cities, towns, villages. It strives to make available for every immigrant entering this country a gospel in his mother tongue.

CANADA A HAVEN

Today Canada has become a haven for the homeless, a land of new opportunity for thousands of immigrants. As a nation we are reaching maturity and with parental concern take a place in the councils of the world. It presents a pocket New Testament to every young man or women entering the armed forces. It generously subsidizes Scriptures for the blind so that Braille volumes are available to blind individuals.

In Canada 137 people in every 100,000 are blind. The society prints Baille Scriptures in English and Welsh and 25 foreign languages. The whole bible is available in braille in English and Welsh and Arabic. A complete Braille Bible in English consists of 5,356 pages, 14 inches x 12 inches; fills 39 volumes, weighs over 160 lbs. and occupies a shelf 7 feet long. A volume of Braille costs about $2.50 to produce and is sold for 25 cents. A complete bible costs about $90.00 to produce and is sold for approximately $10.00.

TRANSLATION

The latest news that comes from the translation department in London reached me about a week ago and is as follows: "The translation department of the British and Foreigh Bible Society has been engaged on a heavy program for 1955, dealing with Scriptures in 234 languages. Of these 45 are complete Bibles which in due course will be published for the first time; 37 are New Testaments in a similar category; then there are 55 revisions; 42 additional books of Scripture (in languages in which one or more Scriptures have already been printed but which have not reached the stage of having a New Testament or a Bible; four more are special editions-such as the Nestle Greek New Testament and the Hebrew Old Testament; and finally there are 51 books of Scripture in entirely new tongues—pioneer work in which the language has sometimes to be reduced to writing before the scriptures can be translated.

"To this list a further eight new languages have recently been submitted to the society. They belong to all parts of the world and the translators are members of every denomination. Five of these eight are translations of the Gospel of St. Mark — three for Africa, one for Formosa, One for New Guinea.

There are now 10,000,000 boys and girls learning to read each year in the schools of the world. But there are 15,000,000 men and women learning to read every year through the literacy movement. At the present rate of advance, half of the world's population which is now illiterate will learn to read within 50 years.

READ IN A WEEK

A man can learn to read in a week in most languages so that he can read anything, provided the sentences are short and the words are within his vocabulary. Literacy charts have been made in over 268 languages, the ministeries of education of 68 countries and territories have invited these workers to teach sections of their population to read.

All this creates the greatest challenge the society has ever faced in supplying the Scriptures. The new reader must have book to read and these are scarce. He will accept anything offered and he believes whatever he reads. Communism is hastening to supply the need, and is putting out vast quantities of totalitarian and atheistic literature which is supplied very cheaply and is attractive.

THE NEED

The immediate need is to increase production by 10,000,000 copies of the Scriptures annually, as well as keep on doing all that we are now doing, which utilizes our present income. The Communist slogan is "Let the Christians teach them to read, we will give them the books." It is very important that this work rises to meet the challenge.

In conclusion I would like to take this opportunity of thanking the clergy the executive, the press, Flt Lt. Christmas of the R. C. A. F. and a special thanks to CJRW for their free support throughout the year in playing of special records, the collectors who have given freeof their time and last, but no means least, the contributors who have made this campaign a success.

Official Visit To Summerside Y's Men's Club

One hundred per cent attendance by the Summerside Y's Men's Club marked the occasion of the official visit of Y's Men international regional director, Charles Linkletter to his home club last evening at the Green Street Center.

Y's Charles was introduced to the club by the meeting chairman George Key, Jr. The speaker outlined the past year's progress by the Maritimes region and suggested improvements that could be made. He called for consistently better attendance, more extension work in forming new clubs, more and better publicity to keep the public informed of the good uses to which money collected by the Y's Men is put, also for more support of the Bishops Fund. He announced that the next regional convention will be held in Yarmouth on May 19, 20, 21. He strongly suggested that the club send a delegate to the international Y's Men convention this year being held in Colorado, U.S.A. Delegates to such international conventions return to their home club better Y's Men — better able to serve their community in the Y.M.C.A. programs carried out by the club. The guest speaker was thanked on behalf of the members by Bill Warwick.

President Ralph MacFarlane then presented Harold Milligan with a past president's pin. Jim Connell, reporting for the property committee stated that the door to the Boy Scout quarters had been repaired and a new lock provided. Harold Rodd called for all returns from the Boy Scout drive put on by the Y's Men in cooperation with the local Boy Scout Association.

Ralph Degrasse reported that slightly over two thousand dollars had been collected or pledged for the building extension fund — all but eighty-five dollars of this within the Y's Men and Y's menettes Clubs.

George Key, Jr., reporting on the coming radio acution, stated that the listings of goods were half completed, and that the display rooms would be open to the public by next Wednesday. A quartette of Y's Men has been formed to assist in entertainment during the acution. He then called for twelve volunteers, with cars, to drive Hi-Y Club members around the town Saturday, March 10th, to deliver radio auction lists to every home; also for six volunteers to work in the display rooms after the meeting. Milk bottle caps will again be used to publicize the acution.

The president announced that Malcolm Matheson had been appointed to the post of club promotion chairman for the regional convention in Yarmouth.

Three recommendations were brought in by the executive, and passed by the club as follows: 1. That the club donate sixty dollars to help support the paper wieght hockey team. 2. That a club delegate be sent to the international convention in Colorado this June. 3. That a twenty dollar scholarship be donated by the club to the P.E.I. Music Festival; also that five memberships in the Music Festival be taken out on behalf of the club.

On a suggestion by the money raising committee, the club decided to sponsor the Dusty Owens show in Summerside May 17th.

Songleader was Ben Champion, while Bob Hogg acted as finesmaster.

Guests present were Edgar Ramsay of S'side and Harold Milligan of the Charlottetown Centennial Club.

Pictures Increased Traffic; Advocates Concrete Roads

Mr. Morley M. Bell, (Liberal), Fifth Prince yesterday told the Legislature that he would favor a long term policy of building concrete highways in the Province. Mr. Bell resumed the debate on the Draft Address yesterday after noon.

The Summerside member said that black top roads (asphalt) were allright for a few years after they were laid but they soon broke up. He noted from the Minister's report that it was costing the Government about $1,600 a mile annually to keep this pavement in repair.

Mr. Bell said that the Government should also look to making the roads wider than the existing highways. He suggested a width of from 90-100 feet to take care of the increased traffic which he said was inevitable.

The speaker also emphasized the fact that the railroad had seen fit to reduce its services and felt that the time was not far away when rail service on the Island would be abandoned entirely.

He pointed out that this practice was becoming more and more prevalent in different parts of the United States where railroads were having a hard time to meet the competition of the bus lines, air lines and heavy trucks.

PERMANENT ROAD

"Nothing approaches the permanency of concrete" said Mr. Bell, years." He said that with the addition of more concrete mileage to the paving surface of the highways a great saving would result in annual repairs which in the long run would justify the original investment.

Mr. Bell said that if the Province gets a causeway, the traffic would in all probability be trebled. He was pleased to see that the Opposition Leader was in agreement with the Premier on the matter of a causeway. He said it will be only a short time when the Department of Transport will have to furnish a new boat at Borden and "I believe that they will see the causeway as a more economical project than the building and maintenance of more boats", he said.

"It is better that we now read the handwriting on the wall and begin our program of wider roads built of concrete than to wait until the traffic comes and we are not ready for it", he said.

TROUT FISHING

Mr. Bell said that one of the chief tourist attractions of the Province was being allowed to deteriorate. He was referring to the dams in the trout streams. He was pleased to note that bypasses has been constructed for the Fish and Game Association through the co-operation of the Department of Industry and Natural Resources.

Mr. Bell urged that this program of building bypasses be continued wherever possible so that tourist would be inclined to stay longer in the Province. "Too often we see them coming here on one boat and taking the next one back", he said.

The speaker felt that greater efforts should be put forth to advertise the Island as a tourist resort. He felt that a good opportunity was missed last year when the Boy Scout Jamboree was held at Niagara on the Lake when 10,000 visitors from all parts of the World were in attendance.

Mr. Bell said that the Island delegates before leaving went to the Travel Bureau to get some literature which they wanted to pass out at the Jamboree but were able to secure only a small amount. "This is one instance where we slipped up badly", he said.

RURAL ELECTRIFICATION

Mr. Bell felt that the rural electrification program has been a wonderful boon to the rural citizens of the Province. He said that cheap power was one of the greatest assets in industry and hoped that new industries would spring up as a result of the program. He felt the rates were now high but thought that in the near future rural residence would be receiving their power at less than they are now paying.

R.R. Bell: "We were to have a $10,000,000 processing plant here last summer. What happened to that?"

Morley Bell: "I don't know any thing about that".

The Fifth Prince member felt that potato growing in the Province involved too much risk to the grower and suggested that the Dominion Government put a quota on potatoes as they have put a quota on wheat. He realized that this would require a great deal of consideration but felt it was worth giving some thought to. "It is a foolish policy to continue to produce a commodity for which there is no ready market", he said.

GEOLOGICAL SURVEY

Mr. Bell expressed optimism with the geological survey which will be conducted throughout the Province this summer. He pointed out that oil has been found in Albert County New Brunswick "and who knows what may be found here" he said.

He went on to recall the boring for oil which took place at Governor's Island. He said that one of the oilmen had told him that some good shale had been encountered on that boring and indications were that the strata of rock had tipped allowing the oil to run off.

In further conversation with a Toronto oilman, Mr. Bell was told "that this doesn't mean a thing. They might drill another hole no more than three yards away and strike a gusher." Mr. Bell also noted that in the survey other minerals than petroleum might be found.

Schurmans Eagles Stop Crapaud To Cop "C" Round

The Schurman Eagles of Summerside won the semi-finals round for the Intermediate "C" championship of P. E. I. at Civic Stadium last night, defeating Crapaud Heartbreakers by the score of 10-3, and taking the round in two straight games. Alf Groom was leading sniper for the Eagles scoring four and assisting in two. Bob Bowness had two goals and two assists, J. Phillips two goals and one assist, S. Phillips three assists. Ralph Champion and Reg Phillips got the other two goals. For Crapaud, S. Ferguson shot two goals and H. Ferguson one.

Referees: Jim Razavet and Jim Grady.

Anniversary

Above are Mr. and Mrs. Hedley Paynter of Kensington, who celebrated their 45th wedding anniversary on Feb. 15, 1956.

DAILY CRYPTOQUOTE — Here's how to work it:

A X Y D L B A A X R
is L O N G F E L L O W

One letter simply stands for another. In this example A is used for the three L's, X for the two O's, etc. Single letters, apostrophies, the length and formation of the words are all hints. Each day the code letters are different.

"LAST COMMAND" OPENS TODAY CAPITOL, SUMMERSIDE

Obviously dedicated to realism, and with a faithfulness to history, this cinematic masterpiece brings to motion picture audiences the intensely dramatic preamble to the fall of the Alamo: the bitter plight of the Texans under the coldblooded yoke of Santa Anna: the personal tragedy of Jim Bowe, beloved wife and children wiped out in plague, torn beween his allegiance to Mexico — of which country he was a citizen — and a growing belief that the Texans were not being treated fairly by his friend, Santa Anna.

Romance play a beautiful counterpoint throughout the harsh cacophony of violent conflict in the form of the worshipful love of an aristocratic Spanish girl — done with great feeling by Anna Maria Alberghetti — for the harrassed Bowie. The charming Miss Alberghetti, brought to the United States a few years ago as a singing star, demonstrates her wonderful talent with one song, the haunting "Yo M'alegro de Haber Sido."
