

BBG Regrets Resignations

OTTAWA (CP)—The Board of Broadcast Governors said here it regrets the decision of Dr. Eugene Forsey of Ottawa and Prof. Guy Hudon of Quebec City to resign from the board.

The two announced Friday that they had quit the 13-member body because of the failure of the board, so far, to issue a television station license in Quebec City. They strongly supported a CBC bid for the license.

The BBG added that the board also regrets the fact that the resignations were announced three days in advance of Monday's BBG release of its latest decision on the Quebec City TV license—refusing a private applicant and reserving decision on the CBC application.

The brevity of Friday's resignation statement "has led to some quite erroneous interpretations of the position of the board." There had been "confusion in the minds of the public" over the Quebec City license.

The BBG said it has delayed decision on the license because of discussions on TV development policy which are continuing between CBC officials and board members.

Troops Sought For Freedomite District In B.C.

VICTORIA (CP)—Attorney-General Robert Bonner of British Columbia has wired a second request to Defence Minister Harkness asking that a company of infantry troops be stationed in the Sons of Freedom Doukhobor area of the Kootenays.

The attorney-general repeated in the telegram, however, that the province is not requesting troops under the Aid to Civil Power Act.

"Aid to civil power is not the immediate question," the wire read. "Presence of military as suggested will prevent the question arising."

Stationing of troops would be psychologically desirable in the Nelson - Trail area, said Mr. Bonner.

Mr. Bonner made a similar request to Ottawa earlier this year when Freedomite Doukhobors blasted a power pylon and disrupted industry for several weeks in the Kootenays.

The request was rejected then, although Ottawa said it would supply troops to assist the RCMP if this was sought.

Fleming Debate With Hamilton Is Suggested

SAINT JOHN, N.B. (CP)—Liberal leader Pearson has suggested that if Finance Minister Fleming is going to debate the Canadian dollar with anyone, it should be with his cabinet colleague, Agriculture Minister Hamilton.

He commented to reporters on developments during the weekend which saw Mr. Hamilton say in Vancouver some cabinet ministers, including himself, favored a devaluation of 80 cents in terms of U.S. funds, instead of 92.5 cents as announced May 3.

Mr. Fleming shortly afterwards issued a statement saying there were no plans to devalue the dollar beyond the announced rate.

The Liberal leader, campaigning through New Brunswick, commented that the idea of a debate between Mr. Fleming and Mitchell Sharp, Mr. Fleming's Liberal opponent in Toronto, was a good one, but it now seemed a far better idea to have Mr. Hamilton and Mr. Fleming discuss issues.

MAKES OFFER
Premier Smallwood of Newfoundland offered Saturday to finance a Fleming - Sharp debate on the dollar. He said the provincial Liberal party would rent a hall in either St. John's, Nfld., or Toronto.

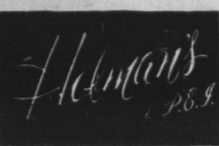

The offer was rejected by Mr. Fleming.
Last Thursday St. John's Rotary Club under pressure from Mr. Smallwood called off a speech on the dollar by Mr. Fleming. The premier contended that the service club was not the place for a political speech.

JFK Discusses Business Needs

WASHINGTON (AP)—President Kennedy talked for an hour here with a group of business leaders headed by Roger Through, chairman of U.S. Steel Corp.

The announced topic was the balance - of a payments problem and the outlook of U.S. steel.
But the aim was wider than this in a briefing after the White House session. Press Secretary Pierre Salinger said: "The president feels that this kind of co-operation is most important and is the kind of elevation that can be most helpful between business and government."

The business leaders who met with Kennedy comprise a special committee of the Business Council, formerly known as the Business Advisory Com-

CAMPING EQUIPMENT

Sale begins Thursday, June 14th.
