The Necessary Resources. By Anthony Hope

COPYRIGHT, 1899, BY A. H. HOPE.

(Continued.) "It doesn't make all that difference to you," he said roughly. "You wouldn't have gone with him." She turned her face to him for a moment. She did not look her best; how could she? But Mr. Byers did not notice that.

"I love him, and I wanted to do it." Byers had "wanted to do it," too, and their desires had clashed. But in his desire there had been no alloy of love; it was all true metal, true metal of self. He stood over her for a minute without speaking. A strange feeling seized him then; he had felt it once before with regard to this woman.

"If it had been for you, I'd have blurted out in an indistinct, impetuous utterance. Again she looked up. There was no surprise, no resentment, in her face, only a heartbreaking plaintiveness.

"Oh, why couldn't you be honest with me?" she moaned. But she stopped sobbing and sat straight on the sofa again. "You'll think me still more of a fool for doing this," she said.

Was the abuse never coming? Mr. Byers began to long for it. If he were abused enough, he thought that he might be able to find something to say for himself. "You think that because—because I live as I do I know the world, and—

and so on. I don't a bit. It doesn't follow really, you know. Fancy my thinking I could do anything for Julian! What do I know of business? Well, you've told me now!" "If it had been for you, I'd have risked it, and gone ahead," said Byers again.

"I don't know what you mean by that," she murmured vaguely. Byers did not try to describe to her the odd, strong impulse which had inspired his speech. "I must go and tell the prince about it," she said.

"What are you going to do?" he demanded. "Do? What is there to do? Nothing, I suppose. What can we do?" "I wish to God I'd—I'd met a woman like you! Shall you marry him now?"

She looked up. A faint smile appeared on her face. "Yes," she said. "It doesn't matter now, and he'll like it. Yes, I'll marry him now."

Two visions—one was of Mrs. Byers and the babies in Portland place—rose before Byers' thoughts. "He hasn't lost much, then," he said. "And you? You'll be just as happy?" "It was the whole world to me," said she, and for the last time she put her handkerchief to her eyes. Then she stowed it away in her pocket and looked expectantly at her visitor. Here was the permission to go.

It is altogether admirable when a man, by dint of sheer will, wrings a fortune from niggardly circumstances. The world is full of instances where men have done this, but never in history was this accomplished by a weak and unhealthy man. Ill-health not only weakens every physical function but every mental faculty and every moral quality. If a man will stop and reason for a moment, he does not have to be a physician to understand the causes of impure blood, or its far-reaching effects. When a man's digestion is disordered, his liver sluggish, his bowels inactive, the blood is deprived of the proper food elements, and the sluggish liver and bowels supply in their place, the foulest of poisons. The blood is the life-stream. When it is full of foul poisons, it carries and deposits them in every organ and tissue of the body. Bone, sinew, muscle, and flesh-tissue, the brain cells and the nerve fibres are all fed upon bad, poisonous food. Serious ill-health is bound to result. The man is weakened in every fiber of his body. He suffers physically, mentally and morally. He suffers from sick headache, distress in stomach after meals, giddiness and drowsiness, loss of appetite and sleep, bad taste in the mouth, shakiness in the morning, and dullness throughout the day, and lassitude and an indisposition to work. Sooner or later these conditions develop consumption, nervous prostration, malaria, rheumatism, or some blood or skin disease. Dr. Pierce's Golden Medical Discovery is the best of all known medicines for ambitious, hard-working men and women. It is the great blood-maker and flesh-builder. It makes the appetite keen and hearty, and the digestion and assimilation perfect, the liver active, the blood pure and rich, the nerves steady, the body vigorous and the brain alert. Where there is also constipation Dr. Pierce's Pleasant Pellets should be used. Both of these great medicines are for sale by all medicine dealers.

Side Lights on History. The mole connecting the mainland with the island on which that mighty city Tyre had stood invulnerable for centuries was at last complete, and Alexander the Great was overseeing in person the work of the great battering rams that had been placed in position and were thundering against the walls of the beleaguered city.

"Your majesty," said a flunky, respectfully touching his pasteboard helmet, "dinner is served in the royal tent."

"I shall eat no dinner," replied Alexander, with a look of noble resolve on his youthful but majestic face. "Till I have punctured the enemy's Tyre!"

Out of this incident grew the custom of alluding to Tyre as the Windy City, a title that has come down with the ages.—Chicago Tribune.

Resentment. "Clementine is awfully matter of fact."

"She is?" "Yes; she quit speaking to me because she dreamed I said a whole lot of mean things about her."—Chicago Record.
