## Terry's platform

Fellow Students:

For those of you who don't know me, my name is Terry Palmer and I am the newly acclaimed President of the UPEI Student Union. Even though I have been acclaimed for this position and Bruce Hickey has been acclaimed as Treasurer, I am more than confident that we can do more than an adequate job.

My platform is relatively simple; that is, to clear up the operation in the Barn i.e. bar operations, campus police, install a filing system and follow through with the recommendations of the Restructuring Report.

I believe it is important for students who have problems to come see me or any of the executive so that we can help you - we are here to serve you.

I also believe that every student should get as involved as possible in every Student Union activity whether it be CIMN, Sun or whatever. We desperately need help in every area and every student will benefit from the experience.

Yours sincerely,  
Terry Palmer

## Sue's thanks

Dear Editor

I would like to take this opportunity to say thank-you to everyone who supported me in the recent Student Union Election, and also to send out a special thanks to those who helped me prepare for the election.

And, finally, I would like to congratulate my opponent Larry LeBlanc, who ran an excellent campaign. I hope his interest continues in the Student Union and he will be around next year to help make it a better place.

Thank you.

Sue Parlee

## Outspoken

Dear Editor:

In reference to your March 26 editorial, I would like to refresh you on a couple of people mentioned in the column, and then, if I may, voice my opinion.

You said that Neil MacKenzie can owe thanks to some people for getting CIMN into the library lounge? I don't think Neil should thank those people at all - instead of this, don't you think

Neil should be thanked? Take a look at what he has done this year... and all you can do is put him down? In order for anyone to gain any self respect he must know people have confidence in him. I think this applies to Neil's situation.

I am also on edge about the lovely fine lines dedicated to Sue Parlee. It states: "Sue Parlee seems to have quite adequately fulfilled the role of a socialite but unfortunately she was not elected for that job. It is a sad thought when one considers that the vice-president spends more time at Gentleman Jim's than she does in the Barn".

It must be hard and time consuming for you to follow Sue around everywhere she goes. It is obvious you don't know how much time Sue really spends at the Barn. People who read your editorail probably have the impression Sue Parlee is an alcoholic. How do you think she feels?

In re-reading your column, you give me the belief of yourself of being an anti-mainlander. As you praised Phillip and John, you might as well come out and say, "Neill and Sue did a terrible job, maybe it is because they are mainlanders (New Brunswickers) and not Islanders." If you are using Neil and Sue to express your opinion toward New Brunswickers, please inform your readers in the future! We would like to know! Thank-you and have a pleasant summer!

Signed,

Editor's note: I'm a mainlander too.

## Posters defaced

Dear Editor:

Posters are one of the only methods for dispensing information around campus. Over the past number of weeks I have noticed that many posters put up have been defaced and in some instances ripped down (particularly during the recent SU election). This action I feel is uncalled for and immature.

It is only the students that are losing out on this. We cannot let this continue.

Dear Editor:

This letter is in reference to an article in last week's issue of the SUN written by Nancy (Barbara Frum) MacDonald. This article was entitled "Grad Dance News".

MacDonald's opening paragraph completely turned me off from reading any more.

In her first sentence she says, "Junior class is already preparing for that final leap that will take us to the top of the totem pole where we will assume our rightful position as head honchos on campus".

Being a Senior or any class member does not give the privelege of becoming a "head honcho". If Nancy MacDonald strongly believes in her philosophy, then it looks as though class of '82 will be a clique, with only a select few.

If this is the way Seniors are supposed to think, then I'll stay a Junior, thank you very much.

Let Nancy MacDonald and her "Head Honchos" try and run the university.

Good luck Nancy!

Anti "Head Honchos" Jr.
