THE PORTER

Adjustable and Reversible Hay Carrier.

Four Reasons why it is the Best Reversible Carrier offered the Trade 1st. It is the only carrier that can be adjusted to fit any size track. No more fussing and planning the track to make it fit the Carrier, but you can adjust the Carrier in three minutes to fit any size track, from a 2x2 to a plump 4x4. A great advantage over all others.

2nd. It is a perfect reversible. Will work either way from the stop without changing Carrier on the track. In fact, you can take one forkful to the right and the next to the left if you wish, by using an endless draft rope.

3rd. It is made entirely of malleable iron, and is very simple in construction. It has no springs to get out of repair. Anybody can handle it.

4th. It runs on four large wheels, either plain or flanged, as ordered. Also—Porter's New Railroad Steel Track, Hay Forks, Pallets, Box, Carts, Horse Hoes, Turnip Sowers, &c. Send for Catalogues and prices. A. HORNE & CO., Corner Queen & Fitzroy Streets, Ch'town, June 16, '92.
