

Home Sweet Home

It is a fact, strange but true that gentlemen can now get as good style, fit, and comfort, in shoes bought at home, as was once only to be had in the larger cities. We refer to the Slater Shoes. They equal if not surpass, any shoe made in Canada or the United States. A fresh supply just in.

Local and Other Items.

SPORT AT TRURO.—The Truro Amateur Athletic Club is arranging for a big day of sports, to take place on Truro's Natal Day—September 13.

ST. PETER'S SCHOOLS.—St. Peter's schools reopen Tuesday, Sept. 6th. A few vacancies in both schools. Fees, boys \$24; girls \$15 a year. Apply to the Rev James Simpson.

PREACHING AT LOT 48.—Rev. D. McLean will preach (D. V.) at Lot 48 on Sabbath the 4th inst., at 10 o'clock, a. m.; North River, 2.30 p. m.; Wheatley River, at 6 p. m.; Hunter River, Monday night; Stanchel, Tuesday; Rose Valley, Wednesday; Bradalbane, Thursday night.

CRICKET.—The Garrison defeated the Wanderers in the two days cricket match at Halifax. The Wanderers only made 84 in their second innings. The Garrison for the loss of seven wickets secured sufficient runs to win. Another large crowd witnessed the game, but it was not very interesting as the batting outside of a couple of the players was very poor. The bowling on both sides was fairly good and the fielding sharp. Some very difficult catches were made by players on both teams.

THE YUKON GOLD YIELD.—Major J. M. Walsh, ex-commissioner of the Yukon district, estimates this season's gold output at \$11,000,000, while the clean up will undoubtedly be \$10,000,000. He predicts that further developments in the Yukon will go beyond the expectations of everybody. Concerning the situation at Dawson, Major Walsh said "The district in the vicinity of Dawson is over-populated by about 10,000 people and they must either move out and prospect new territory, or leave the district."

DEAR DEER.—Some time ago the Game Society of Nova Scotia at much expense and trouble imported into this province a herd of red deer, with a view of propagating those beautiful animals in our forests. They are protected by the game laws, under heavy penalties to 1904. A few weeks ago word was received in Halifax that one of these animals had been killed at French Village by a couple of poachers who were made to pay \$60 and costs for indulging their taste for venison.

THE OTTAWA SHOOTING.—In his inaugural speech at the opening of the new D. R. A. range at Ottawa, Col. Hutton spoke upon the importance of marksmanship. He had been in the Boer war. He said the success of the Boers was due to the fact that they were sportsmen first and soldiers afterwards. That is what is now wanted: therefore he suggested that a committee should institute matches with disappearing objects that approached and that retired. The militia had in their hands a rifle of the very newest type, a long distance rifle. In order that they might have the fullest results of this weapon he suggested that a committee institute long distance matches. In conclusion he said: "I dedicate this range to the 'Canadians.'" On the first day the Macdougall Challenge Cup was won by Capt. S. W. Vermilyse, of Belleville.

Catarrh and Hay Fever

If it's Hay Fever that is the bug-bear of your life, you won't know the pleasure of freedom from it till you've tried Dr. Chase's Catarrh Cure.

ON DRIVING HORSES.

A driver should study and know the horse he is to drive. Being familiar with the spirit of the horse is one of the very important things. A driver should also know how the horse should be fed if he has no one on whom he can implicitly rely to do the feeding. Reviewing these general matters of both driving and feeding a writer on the horse says that some can drive 30 or even 40 miles at a good rate of speed and have the animal in better condition at the end than another after driving the same horse five miles. It is not by any means driving fast that injures a horse so much as improper driving. Often more strength and vitality are taken out of a horse in two miles of fretting through the mismanagement of the driver, than in going several times this distance with proper care. Some men cannot drive without a whip in their hand, whether it is needed or not, and, while there is no doubt that in some cases the whip is necessary, yet it is often the cause of more fretting on the part of a lively horse than any other thing. The driver who thinks that because his horse is fresh he can stand it to be driven fast at the start for several miles, and then given a chance to rest by going slow, or who drives fast for a while and then slow down to walk in order to rest up for another spurt, will not get the best speed out of a horse with the least waste of vitality, especially in going long distances. It is a steady gait that counts most and wears the horse, least. Give him a chance to get warmed up first, and then let the gait be a steady one. Another item is not to feed too heavily before driving. A light feed of oats will be far better than a heavier feed of a more bulky grain. Exercise or action too soon after eating retards digestion, and the animal that must travel at a good gait with a loaded stomach cannot but show the effects, and if driven rapidly for even a short distance after a hearty meal there is considerable risk of a colic. Watering properly is fully as important as feeding. When a horse is being driven on a road he should not at any time be allowed to overcharge his stomach with a large quantity of water. So far as is possible the rule should be to give water frequently, and, while he should have all he will drink, it should be given in small doses. A horse in good health can stand more work and more driving without injury than one that is in any way out of condition. The feed and care should be such as are best calculated to maintain health and condition, and then when on the road care must be taken to use his strength and vigor to the best advantage. B. P. B.

BUT WE ARE

BOUND TO LEAD

Our Mantle room is one of the best on the Island, and ladies of taste will find it to their advantage to buy their fall sacques from us.

We show nothing but the latest and best.

PROWSE BROTHERS

The Wonderful Cheap Men

An Effective Pill Box.

Here is a good story of the author of "The Deserted Village." Hearing of Dr. Goldsmith's great humanity, a poor woman, who believed him to be a physician, once wrote to him begging him to prescribe for her husband, who had lost his appetite and was altogether in a very sad state. The kind hearted poet immediately went to see her, and after some talk with the man found him almost overwhelmed with sickness and poverty.

"You shall hear from me in an hour," said the doctor on leaving, "and I shall send you some pills which I am sure will do you good."

Before the time was up Goldsmith's servant brought the poor woman a small box, which, on being opened, was found to contain 10 guineas, with the following directions: "To be used as necessities require. Be patient and of good heart."—Christian Work.

Teaching the Parrot.

Owners of these interesting birds must remember that if they wish them to talk well the best time to teach them is in the evening, with the cage covered over and placed in a dark room and the teacher enunciating the words slowly and distinctly and persistently. The natives of India consider that a slight operation upon the bird's tongue is necessary before it will speak easily.

Road Restrictions In Baden.

Not a single mechanical vehicle can run on the roads of the Grand Duchy of Baden until the driver makes a declaration to the central authorities, who will give to him, after a long investigation, authority to run upon a certain road decided upon in advance. After the authority is received the driver is bound by an almost endless number of restrictions.
