Crowds Enjoy Themselves At Dundas Plowing Match

Dundas Plowing Match and Exhibition this year celebrates a milestone in its 19 years of existence. This steady growing and popular outdoor event will be held this year for the first time as a Class B exhibition. Many people have tried to put their finger on the factor which has caused this rural event in the far eastern end of the province to become so well attended and arouse such wide spread interest. It was started in 1940 as one of the "Canada Carries On" projects. At first it was purely a provincial plowing match but year after year it became known as one of the Islands top notch agricultural fairs. ARE WELCOME Perhaps the one factor that has contributed most to the success of the fair is the genuine home-spun hospitality of the people in that area. Visitors get a feeling that they are really welcome at the fair and soon become, as it were, a part of it. From the plowmen who competed at Dundas have come some of Canada's best and several have acquitted themselves well in the world competition. Both Stanley Willis and his son Carl of Cornwall, have taken provincial titles and have gone on to world competition. The same is true of Glen Morrissey of Cherry Valley. LIVESTOCK This year will see one of the largest livestock entries since the fair started. Horses which will always stole the spot-light will be shown in large classes. Some of the best horses on the Island come from the Dundas area. The eastern end of Kings County has always been famous for its high-quality potatoes and it is expected that there will be close competition in this exhibit as well as other classes of garden vegetables. Much of the success of the Dundas fair can be credited to the energetic president Leslie Hunter, Albert Acorn and a hard working board of directors. It is they who have seen that the best in facilities and entertainment has been provided. Each year sees highland dancing, singing and other forms of amusement for people of all ages. All roads lead to Dundas tomorrow and Thursday. Here is an excellent opportunity to take the whole family on a day's outing.

Island Chinchilla Breeders Intend To Compete In Show

The keenest competition yet seems indicated for the seventh annual live animal show held under the auspices of the Maritime Branch, National Chinchilla Breeders of Canada. Lloyd H. MacMullin of Fredericton, chairman of the show committee expressed this opinion stating that, as a result of recent extended use polygamously of top quality males there are many more potential trophy winners on all Maritime chinchilla ranches. The certainty of many close decisions to be made has necessitated obtaining the judging team most in demand in Canada and one which has earned international respect. The federal department of agriculture has again made the services of William F. Newey of Toronto available for the Maritime show and Eugene O. Richard who directs the Universal Chinchilla Grading System will be officiating with him. Both these men are acknowledged experts on chinchilla both in Canada and the United States and Mr. Richard has only recently returned from England where he conducted a survey of chinchilla breeding in that country on the request of the British breeders' association. Branch president, John H. Jarvis of Fredericton remarks that the general high quality of all Maritime chinchilla ranches is indicated by the fact that only one breeder, Mrs. P.C. McGrath of Saint John has succeeded in showing the champion chinchillas of two shows. Previous winners of the show champion award who have indicated their intention to compete at the event scheduled for Fredericton on January 30th are Mrs. McGrath, Mr. Jarvis, Mr. MacMullin, Miss Audrey Goodine and Mary Harrington of Fredericton as well as other breeders of high performing animals. Mrs. Kenneth Marshall of Moncton, Heber Hubley and Clarence McFadden of Miscouche, P.E.I., Russell Fulton, Newcastle Creek and John Mills of Chipman, N.B.
