

OUR NEWS BUDGET for OUR SATURDAY SUBSCRIBERS

MONDAY

In the last eight or ten years great advances have been made, especially in the country. In the matter of education, and the high school has got to come, but first in town, said Premier J. Walter Jones at the Prince Edward Theatre last night.

The Miners easily held the 10th victory in 11 games. They led 1-0 in the first, 3-1 in the second and split two goals in the finale. The Islanders led only 10 men because of injuries.

Announcement was made yesterday of the retirement as Acting Officer Commanding of Major J. E. Walker of the L.A. Regiment, and the appointment as his successor of Major D. J. McCormack.

A native of Souris, Major McCormack enlisted at the start of the war and rose rapidly through the ranks. But he took time out in southern Italy to win the championship of the services in the light heavyweight division as the troops were working their way towards Rome.

He is now a resident of this city and lives on McGill Avenue with his wife and family.

Provincial Intermediate "C" hockey playdowns were continued Saturday night at the Forum when Cavendish and South Rustico crossed sticks in their second game of a two game total goal series.

On Saturday Mr. Walter Hogan began his duties as policeman for the town of Alberton.

Mr. Hogan was born in the United States but came to Alberton as a very young child when his parents, Mr. and Mrs. Wallace Hogan, returned to the town. Some twenty years ago Mr. Hogan returned to the United States where he has since made his home, coming here from Irvington, N. J., a short time ago. It is his intention to again establish residence in Alberton, making here a home for his three children, Doris, Doris, and Walter. Five older children are married and living in the United States.

Mr. Hogan is experienced in police work, having been on the city police force in Far Rockaway, N.Y., and also with the Coast Guard on Guam as a civilian employee of the United States government.

"At the going down of the sun and in the morning we will remember them."

Though the clouds closed in and the snow drifted in, a pitiful handful of veterans of the South African war gathered yesterday at noon to pay another tribute to their comrades who have passed on during and since the Boer War. They were remembering the rifle battle of Paardeburg and the sacrifices made there fifty-three years ago. Just three of the veterans were on hand this year at the monument on Queen's Square which commemorates the giving of their lives in the battle. They were Roland Taylor and Alfred Riggs. The three present for the annual service were Lieut. Col. W.C. Cook, Ambrose Rodd and Harry Hyde.

The death of Mr. Herbert Edward (Bert) Cantwell, occurred in the Charlottetown Hospital on Saturday after a brief illness. Mr. Cantwell, who was 71 years of age, entered the hospital ten days ago suffering from a granular condition from which he failed to rally.

Mr. Cantwell was born at Souris P. E. I., in 1881, the son of Mr. and Mrs. W. D. Cantwell, and received his education at Queen Square School in Charlottetown, where his family moved. He was yet a child when he was married to Florence Genetta Giles in 1907, by whom he is survived. Also surviving are two sons, H. Giles and William Owen, and three daughters, Mrs. Cyril Arsenault (Florence), Mrs. Fred Shannon (Aileen), and Mrs. Harold Hennessy (Evelyn). Surviving sisters are: Mrs. John MacDonald (Emma), Saskatoon, Mrs. Jean Dolron, Wrentham, Mass., Mrs. Mary Woods, Kitchener, Ont., Mrs. Ben Stenford (Sadie), Charlottetown, and Mrs. John LaVie, Souris.

One daughter predeceased him, M. J. Colleen, and three brothers, Percy, Harry and William who died on February 25th in Vermont, just four days previous to his own passing.

TUESDAY

At a meeting held recently in Windsor, Ont., to form a Windsor branch of the Canadian College of Organists, Mr. Walter MacNutt was among those elected to the executive, as vice chairman.

Mr. MacNutt, organist and choir director of All Saints Anglican Church in Windsor, is a son of Major T. E. MacNutt and Mrs. MacNutt of Charlottetown.

A carton containing 160 packages of assorted cigarettes picked up by Detective Sgt. Tony Lund and night watchman Hugh MacKinnon in an alleyway on Sydney Street at 2 a.m. Sunday led to a search of the immediate vicinity for a break and entry job. Their progress was retarded when all the steel shutters in

the rear of the buildings appeared to be carefully locked and intact. On trying the shutters at Reddin Brothers drug store however, they were found to be carefully closed over a broken window from which several bars had also been removed. The men remained on guard over the loot for some time but finally returned it to the Police Station without having been able to identify anyone with the theft. Police are continuing the investigation.

The ice patrol scheduled to begin yesterday morning was deferred until this morning or even later if weather conditions continue to be unfavourable. Snow flurries which would destroy visibility for a survey of this kind, was the cause of the cancellation. Captain C. A. Shaw is the observer for the Department of Transport and Captain Godfrey will be in charge of the flight with Wm. Bruce as First Officer and Mr. Ted Shaw as Navigation Officer.

All across Canada people and governments have swung into action to aid the flood-stricken residents of England and the Low Countries. As a gesture the Government of Prince Edward Island yesterday made an interim gift of \$1,000, it was announced by Premier J. Walter Jones who is heading the campaign for funds in this Province.

At the present time gifts of clothing are not wanted as the need for it, though great, can be better supplied by officials who know the exact requirements. For this reason money only is being accepted. It has already been stated that the Canadian dollar will buy much more in many of the other countries.

In the presence of a large congregation, Rt. Rev. R. H. Waterman, D.D., bishop of the diocese of Nova Scotia, administered the rite of confirmation to a group of candidates in St. Mary's Church, Summerside, at the Sunday forenoon service. Prior to the confirmation, His Lordship spoke at some length delivering an impressive message.

At the evening service, which was also largely attended, His Lordship, in an impressive ceremony, assisted by the rector, Ven. Archdeacon G. R. Harrison, commissioned Mr. George T. Clarke as a parochial layreader, one of the minor orders of the church. His Lordship at this service delivered a splendid sermon explaining the various orders of the church.

The Bishop also preached at the annual meetings of the Diocesan Church Society and the Woman's Land, being held in the City today and tomorrow.

A clerical deanery meeting was held yesterday afternoon. It was attended by Bishop Waterman and the clergy of the deanery of P. E. I.—Ven. Archdeacon G. R. Harris of Summerside, the Rev. J. R. McMahon, Alberton, the Rev. Robert Coupland of Kensington, the Rev. G. R. F. Ebsary of Crapaud, the Rev. A. E. Piercey of Milton, the Rev. Canon J. T. Abbott, the Rev. W. G. Hogg of Charlottetown.

WEDNESDAY

SYDNEY, (CP)—Sydney Millionaires staked Charlottetown Islanders' bid for first place in the Maritime Major Hockey League Tuesday as they whipped Murphy Chamberlain's Islanders 6-0.

The Islanders went into the game only six points back of the front-running Halifax Atlantics but a goal by Sydney made the game that was going wide open in the first frame and whipped home four goals.

Goalie Nick Pidsodny, tested only three times in the first period, made up for it with 26 saves in the last two for his second shutout over the Islanders this season.

Teresa Catherine Praught, four-year-old daughter of Mr. and Mrs. Frank Praught, Souris, and Leonard Roland MacDonald, four-year-old son of Mr. and Mrs. Roland MacDonald, Souris, were drowned at Norris Pond about 11.00 a.m. yesterday morning.

The two children, accompanied by Brendon MacAulay, age five, and Donna MacAulay, age three, walked to the pond, about one quarter of a mile from their home. Arriving at the pond, the children went out on the ice to play. The accident occurred where men had been cutting ice a few days ago. There was a very thin coating of ice over the spot.

That some form of governmental intervention or assistance would be provided to insure proceeding with rural electrification was emphasized in the Speech from the Throne delivered by His Honor Lieutenant Governor T.W.L. Prowse as the second regular meeting of the 47th General Assembly was formally opened yesterday.

The Speech stated that the Legislature would be asked to provide a sufficient sum to promote expansion of rural electrification. It also foretold of stricter regulations regarding the obtaining of drivers licenses and a change in Grade 11 in high schools.

Regret that the Speech from the Throne made no reference to the assistance Charlottetown feels it has a right to expect from the Provincial Government was voiced in the Legislature yesterday by Mr. C. Earle MacDonald, (Liberal) Fifth Queen's, when he took part in the Draft Address debate.

The speaker was referring to the city's construction of highways leading to shipping points. He stated that shippers from all over the Province use them but the city of Charlottetown builds and maintains them. "This principle, I believe is wrong, if a highway affords equal convenience to all, I think the cost should be borne by all." He also suggested that the Government should start giving consideration to the incorporated towns.

Leading Seaman, Naval Storeman John Clifford MacLeod, R.C. N.(R), son of Mr. and Mrs. Ernest MacLeod, Orwell Cove, P.E.I., has been selected to represent H.M.C.S. "Queen Charlotte" on the Coronation Contingent, it was announced by Lieutenant K. A. MacKenzie, Commanding Officer of the local Naval Establishment here last night.

Leading Seaman MacLeod joined the Reserves of H. M. C. "Queen Charlotte" as an Ordinary Seaman, Naval Storeman, in March, 1950. In the spring of the following year he went to H. M. C. S. "Naden" on the West Coast for a three months Naval Storeman course.

The present low price of potatoes meant a loss of millions of dollars to Island growers, Mr. R. R. Bell, C.C., said in the Legislature as he expressed the opinion that greater information might be supplied the shippers and farmers by various Government agencies.

As Leader of the Opposition, Mr. Bell was the first speaker for his party in the Draft Address debate.

He regretted the low price as over a long period of years potatoes had brought a great deal of money into the Province and now farmers were only receiving a dollar a bag instead of the three or four dollars they had expected.

FRIDAY

"In one of the best games of the season played in Georgetown last night, the Eagles defeated Morell 7-6 and won the King's County Intermediate B hockey title by 14-11 on the round. The game was exceptionally fast and featured good stick handling, passing and goal-tending. MacNeill, sank three for the winners and F. Landry picked up three points. H. MacLean, stary Eagles' centre received a cut in the head in the second period requiring three stitches but he came back in the third to score a goal and get two assists.

One of the chief Dutch engineers will arrive here within two weeks time to make a reconnaissance survey of the causeway problems on the Hillsborough River, Premier Jones announced in the Legislature yesterday afternoon.

This engineer, an expert on such construction, is on his way to British Columbia and will visit here to pass an opinion on local problems. The Premier left the impression the visit is the result of the recent study of conditions in Holland made by Mr. Gordon White, Provincial Engineer.

THURSDAY

A very enthusiastic meeting was held in Crapaud Hall on Tuesday evening to discuss the erection of a rink at Crapaud.

There were representatives from all the surrounding districts including Albany Augustine Cove, Tryon, Lady Fane, County Line, Westmoreland, Hampton, Desable Inkerman, Victoria, Kelly's Cross, and Crapaud.

Mr. Jack Nicholson occupied the chair and explained that the purpose of the meeting was to ascertain if the people representing the above named districts were in favor of the building of a rink at Crapaud, and if they wanted it built by a few individuals or by the united effort of all the communities in the area.

The officers in the rink company which was incorporated in 1948 under the name of the Crapaud Rink Company were: President, Spurgeon Clark (since deceased); vice-president, Jack Nicholson; secretary-treasurer, Robert N. Dawson; directors: Lloyd Robertson, William Waddell, John Simmons and Jack Leard.

Mr. Nicholson is now the acting president, and is expected to have full support of the directors.—S

Objection to the placing of signs at the site of highway fatalities was expressed yesterday by Mr. Thomas R. Cullen, Second Kings, when he rose in debate in the Legislature yesterday afternoon.

The speaker stated that while such signs might serve some purpose he seriously objected to them when they were placed near the home of the victim. He said in some cases the family who were left were faced with this grim reminder of their sorrow almost in sight of their doors.

He did not think the driver was always to blame for accidents, in commenting on the Speech from the Throne about stricter driving tests. Pedestrians were frequently careless, he said, and favored a safety campaign based on both safe driving and safe walking. He agreed there were many drivers on the road whose ability had never been tested and was presented last night to team captain, Gerald Murphy by Mr. J. W. Lavers.

The game was fast and produced some very fine hockey. The winners now advance against Parkdale in the King's-Queen's playoffs.

He maintained it had operated here and should have been continued as the Experimental Farm had everything to work with. It was particularly valuable as he said it was admitted there were many undesirable bulls in the Province despite the fact that the bull bonus policy was working fairly well. Artificial insemination is popular in Nova Scotia where it is expected that 6,000 cows will be bred in this way this year.

"On the civil or community level, engineers are best known and appreciated in the areas where they have accepted responsibility on a voluntary basis in the things that are of public interest, and in which they can contribute to the betterment of all concerned," said Dr. John B. Stirling, president of the Engineers Institute of Canada, addressing the P. E. Island branch last evening.

The dinner meeting, which was presided over by Mr. V. A. Ainsworth, chairman of the Island branch, was held at the Queen Hotel, with ladies of the branch auxiliary also in attendance.

"Parkdale and Spring Park should be incorporated with Charlottetown in order to alleviate the pressing problem of sanitation," it was stated last night in the Legislature by Dr. W. J. P. MacMillan who began his speech on the Draft Address.

Dr. MacMillan will continue his speech when the House resumes on Monday afternoon.

"It is only through the goodness of Divine Providence that there has not been an outbreak of typhoid or dysentery as the result of the sanitary conditions in those two communities," said Dr. MacMillan.

"The Government has taken some steps to overcome this problem," he said, "but the major factors in the matter still exist."

At the present rate liquor sales in the Province will top the three million dollar mark this year with a resulting tax revenue to the Government of approximately \$1,200,000, Premier J. Walter Jones said in the Legislature yesterday when he rose to continue his part in the debate on the Draft Address.

Though this is high, and the members should discuss it, the Premier did not believe it was a great consumption as in other Provinces. Furthermore, a considerable part of the increase is due to more people buying legally from the vendors than from moonshiners. There was not so much trouble with shine as in past years, he stated.

The value of the service offered shippers to Newfoundland was stressed by Hon. Eugene Cullen, Minister of Industry and Natural Resources, when he stated livestock men, particularly patronized it, as heavily as they preferred it to the uncertainties when shipping by rail.

Hon. Mr. Cullen, Third Queens, spoke briefly yesterday in the Legislature during the Draft Address debate. He said the service via the Blue Prince had carried 3,904 swine, 1,085 cattle and 605 calves, 91 horses, 16,461 live poultry and 51,400 pounds of dressed poultry. Other large items shipped were potatoes, vegetables, cheese, eggs, butter, fruit, meats and miscellaneous commodities. He did not have exact figures as yet but thought the Government might have to pay approximately \$26,000 on its guarantee.

BIRTHS

PHALEN — At the Charlottetown Hospital, February 28th, 1953, to Mr. and Mrs. Irwin Phalen a daughter, Debra Anne.

CREAMER — At the Charlottetown Hospital on Monday, March 2nd, to Mr. and Mrs. John Creamer, Borden, a son.

TAYLOR — At the Prince Edward Island Hospital on March 2nd, 1953, to Mr. and Mrs. John Taylor, City, a son.

BARLOW — At the P. E. Island Hospital, March 2nd, 1953, to Mr. and Mrs. Donnie Barlow, Broadalbane, a daughter, 8 lbs. 11 oz.

DUNBAR — At the P. E. Island Hospital to Mr. and Mrs. M. D. Dunbar, on March 2nd, 1953, a son, (Dana Duane Dunbar).

ORFORD — At the Prince Edward Island Hospital, on February 28th, 1953, to Mr. and Mrs. C. A. Orford a daughter (Karen Sylvia).

SANDERSON — At the P. E. Island Hospital on February 26th, 1953, to Mr. and Mrs. Ira Sanderson, Midgell, a daughter, Kathleen Louise.
