

THE DAILY EXAMINER. NOVEMBER 14, 1889.

Notes and Clippings.

We sympathize deeply with Mr. George Wilson and Mrs. Wilson, who have lost their eldest son, a youth of excellent character, who was entering upon manhood. Young Wilson was employed at the Examiner office for nearly two years previous to the attack of the fall disease by which his young life was destroyed, and was ill for nearly eighteen months. He was a very diligent, attentive and promising lad.

It is reported that the British Government propose to buy out the landowners of Ireland and sell the estates to the Government after the manner of the Government of Prince Edward Island. This seems to be the best way to settle the matter. It will be a curious fact in history if the Government of Great Britain should, in the settlement of its land question, follow the example of our little Island.

The Rev. W. W. Carson, of Kingston, Ontario, a Methodist clergyman, belonging to the Orange order, has caused a sensation throughout Canada by the high tribute he recently paid to the Roman Catholic Church. He is reported to have said that:

"He believed in the communion of saints; he believed in the forgiveness of sins. There was much that all of them could learn in that great Roman Catholic Church. Their missionaries were world renowned, and included the great Seraphic Jesuits who were so much abused as present. In sickness where could one find such loving nurses, as in those sweet and gentle Sisters who gave their lives for their church. And if they wanted an example of obedience you can find no better than in the Roman Catholic Church. He reviewed her altars, many of his priests were his personal friends, and he loved the great Catholic Church from which they all sprang. There was no church among them all that had a broader theology than the Catholic Church. He was proud, indeed, that he had been chosen to represent that church. There was no man in Canada today, he believed, or Catholic, who stood upon a broader platform than he (Mr. Carson) did, and he thanked God that it was so. "Seraphic Jesuits" from the lips of a clergyman who belongs to the Orange order is decidedly good.

The Party managers for the Opposition in Charlottetown have paid the Liberal-Conservative Committee a remarkable compliment. The Conservative Committee added, last summer, from three to five hundred names—three or four times as many as the Opposition did to the Voters List of the City, and the Opposition have not entered a single objection to any one of them. This is what may be called a genuine compliment, a practical admission of the "hostility" of the Liberal-Conservatives. It is said that an elderly gentleman—one of the Liberal leaders of yore—when he heard about it, "Tempora mutantur et nos mutamur in illis," which, being interpreted for the benefit of a less cultured generation, reads: "The times are changed, and we have changed with them." Yes, and the change is very gratifying to the Conservatives. Our only regret is that the Conservatives could not, in honesty and justice, act in like manner in respect to the names added to the Voters List by the Opposition. It may be remarked, that the addition to the Voters List of so many undisputed names by the Conservatives is an eye opener as to the cause of the return of Messrs. Davies and Welsh at the last election.

Wedding Bells.

An interesting event occurred on Wednesday afternoon, at 3 o'clock. The happy occasion was the union in marriage of Miss Minnie Harvey, daughter of Mr. Charles Harvey, one of Charlottetown's most popular young ladies, to Mr. Wallace T. Anderson, a most estimable young man of Morell, P. E. I. The bride was attired in a seal brown traveling suit, trimmed with other fur, with hat to match, and held a bouquet of white roses. Miss Lucy Harvey acted as bridesmaid, and Mr. Eben Anderson as groomsman. The bride received many beautiful and useful presents. The ceremony was performed by the Rev. Mr. McLeod, of Morell. After partaking of an elegant repast, Mr. and Mrs. Anderson entered a carriage amid a shower of rice, and were driven to the railway station, where they took the 4.15 train for their future home. The happy couple received the congratulations of their numerous friends, who wish them much happiness and prosperity in their married life.

Horse Notes.

Twenty-five of the 109 horses which have made records of 2.30 or better this season had no record as fast as 2.30, at the beginning of the year. The 2.30 year-old filly, Bon Mot, 2.29, by Baron Wilkes, 3185, out of Mary A. Whitney, 2.28, by Volunteer, is credited with showing a half over a slow track not long since in I. I. Among the sons of George Wilkes, who this season for the first time appeared in the 2.20 list through their produce, is St. Gothard, who comes to the front with a very good quarter. They are Queen Gothard, 3 years old, record 2.26, total 2.21; Rose Gothard, 2.28; Borthard, 2.29; and Howard Wilkes, 2.30. C. H. Nelson, of Waterville, Maine, has just purchased two very fast mares. One, Blanche T., was foaled in 1885 and sold by Kentucky Prince, first dam of Sweepstakes, 298, second dam by a son of Volunteer, 55. The other purchase was Lovette, a chestnut mare, foaled in 1881, also by Kentucky Prince, first dam Smith mare, by Strideaway, a son of Pechontas. Lovette is a full sister to Robert Bonner's Daisy Darling, who trotted a mile for him in 2.18. Mr. Darling told Mr. Nelson that he considered this one equally as fast. They were purchased to breed to Nelson.

Meeting of Presbytery.

The Presbytery of P. E. I. met in Summerville on the 13th inst. Mr. Stirling, interim Moderator of the session of Strathalbyn, applied for leave to moderate in a call for one to be their minister. Power was given him to moderate in a call at as early a date as possible.

Rev. A. M. Mahon presented the call from Zion Church. It was in favor of the Rev. D. Sutherland, of Grace Church, Richmond, N. S., was cordial, harmonious and enthusiastic, was signed by 231 communicants and 111 adherents, and guaranteed a salary of \$1250. Messrs. Huggan and Barratt were heard in support of the same, when it was agreed to sanction the call as a regular "Gospel Call," and ordered to be transmitted to the Halifax Presbytery. The Rev. Dr. Burns was appointed to represent the congregation, and Rev. John McMillan, B. D., the Presbytery, in the prosecution of the case before the Presbytery of Halifax.

In accordance with notice previously given, Mr. George McMillan moved for the appointment of a home mission committee. It was agreed to defer consideration of the matter to the next quarterly meeting. The call from Caledonia to Rev. J. Sutherland was then taken up. Mr. Sutherland submitted his papers from the Australian Church, which were read by the clerk, when it was found that, according to the laws of the Church, Mr. Sutherland must first be admitted by the General Assembly before he can be in a position to accept a call.

The presbytery expressed its sympathy with Mr. Sutherland and the people of Caledonia in their present circumstances, and appointed Rev. D. B. McLeod, of Orwell, in exchange with Mr. Sutherland on the 24th inst., to explain the action of the Presbytery, and to carry to them their sympathy. On motion, it was agreed to appoint Mr. Sutherland to supply the congregation of Caledonia until the meeting of the general assembly.

Mr. J. G. Cameron reported for the committee appointed to visit Dundas and the separation of the congregations of Cardigan and Dundas. The report set forth that the Dundas section were willing for the separation, and in all probability would raise for the support of ordinances among themselves \$600. It was agreed to grant the prayer of the petition, and that the Presbytery proceed to Cardigan on Tuesday, the 3rd December, and erect that section into a separate congregation. It was agreed to ask the Home Mission Board to pay the amount due students during the summer, and to appoint committees to visit the several congregations in arrears to students and probationers.

In the matter of augmentation, it was agreed that, as the amount to be raised by this Presbytery is the same as last year, that the allotments to the several congregations be the same. The Rev. Mr. Fullerton was appointed to supply Richmond Bay East on Sabbath, the 17th of this month, and Alberton on the 24th; Rev. Mr. Fowler to supply Tignish and Montrose on the 17th and 24th; and Rev. Mr. Barker to supply Alberton on the 17th and Tignish and Montrose on the 24th of this month. JAMES CARUTHERS, Clerk of Presbytery.

The Cronin Murder Trial.

CHICAGO, Nov. 12.—In the Cronin case this morning Henry Bucholz, a saloon keeper, testified that he knew John Kunze. Kunze was at his place from April 14 up to the time of his arrest. While at his place Kunze was known as John Kaiser. John P. Dunn, a plumber, testified that in the early part of April he saw Kunze and Goughlin in Cameron's saloon on Lincoln Avenue. Kunze called witness up and introduced Goughlin as a friend, of his, adding that Goughlin would do anything for him (Kunze) that he could.

Gas Klare, a tinner, testified that on the Monday morning after the murder Burke came to the shop where he worked and had a galvanized iron box soldered, it being about 16x26 inches in size. The witness continued: "We got talking about this case here, as I read it in the papers on Sunday morning, and he said that Dr. Cronin was a British spy and ought to be killed."

Joseph O'Byrne, senior guardian of the camp of Clary's Gas, was recalled. He said that on the Tuesday following Cronin's disappearance he and Maurice Morris met John F. Beggs. I asked Beggs what we were going to do with reference to the disappearance of Cronin, and told him I thought it time he should call the council together to see if we could not do something. He said he thought the doctor would turn up all right; there was plenty of time to do the work. Morris made some reply that he thought Cronin dead. Beggs said to him he did not know what he was talking about—he did not belong to the inner circle, and we knew what we were talking about. Dennis Ward came up at the time and stated he thought the fellow would come out all right, and that he had run away with some woman.

Mrs. Conklin identified the clothes found in the sewer on Friday as those worn by Cronin the night he left their house for the last time. She also identified the other articles as having been taken by Cronin at that occasion.

La Minerve also denounces the statement as a falsehood and slander, and as sure to be commented on by the whole American press so as to stimulate those among our neighbors who dream of dropping Canadian nationality in the great Yankee sewer.

LONDON, Nov. 12.—Before the Parnell Commission, referring to the Parnellites disclaimer that they did not advocate the use of dynamite and rupture between the Irish in America and O'Donovan Rossa, Sir Henry James said these actions, did not mean the abandonment of the dynamite policy. Rossa was rejected because he was garrulous and indiscreet. The policy of Patrick Ford was still maintained, and that policy implied that revolutionary partisans could commit murder and incite people to any crime if such murder and crimes were directed against England.

To the Citizens of P. E. Island and Invalids Especially:—

We come to you not entirely as strangers, but for the first time, and beg leave, therefore, to inform, in as brief a manner as possible, those not acquainted with us or our Institute who we are, where we come from, and what we are doing. Dr. Kergan and the surgeons comprising his staff, better known in the United States and Canada as the International Medical Council, have for years been regarded as the most reliable and skillful and most successful specialists in the treatment of all chronic diseases, deformities and diseases peculiar to men and women in America. In 1878 our present institution was founded by Dr. Kergan in Detroit, and has from year to year grown in such rapid proportions that at present a staff of 18 medical and surgical experts is required to attend the home and foreign patients. This staff comprises men of age, education, extended experience and superior ability, all being graduates of leading English, Scotch, French, Irish, German, Canadian and American Universities; and admitted to become a member of Dr. Kergan's Medical Council only after they have devoted themselves to the study and treatment of chronic diseases or deformities, and obtained positive and superior knowledge and success in diagnosing and treating those diseases. Thousands of rare and obscure cases are yearly treated by them; therefore, by the experience received from treating so many cases, aided by all that medical science has to day affords, it can readily be seen why it is that they are so successful in the curing of all private and chronic diseases.

WHAT WE DO NOT PROPOSE TO DO.—We do not propose to raise the dead, nor can anyone else; we do not propose to furnish new lungs, the man who promises to do so is a fraud; we do not propose to furnish youth to the aged, it's impossible; we cannot cure every case of heart disease, and the doctor who agrees to do so is a humbug; we cannot cure every case of kidney disease, no man of reputation professes to do so; we cannot cure an incurable disease—facts alone promise the impossible. WHAT WE PROPOSE TO DO.—We propose to give correct and honest opinions; we propose to only make reasonable promises; we propose to give our best attention to every case; we propose to cure in the shortest possible time; we propose to cure for the smallest fee consistent with honest skill; we propose to care by the most pleasant possible method; we propose to refuse to treat any case that we think we cannot help; we propose to cure every curable case; we propose to cure many cases that have been considered incurable; we propose to continue to conduct a reputable Medical Institution in the future as we have the reputation of doing in the past; we propose to be able to produce the evidence that we have more members of the Royal College of Physicians and Surgeons of Great Britain on our staff than any single institution in America.
