

# BIOLOGY CLUB

## BIORHYTHMS

-Despite the bad weather and the finishing up of the semester, the Biology Club is still alive and kicking. There is always something going on up in the lounge at Duffy. It might be a good idea to stop up to unwind for a few minutes or better yet, to take a look at some old exams; right now you might feel like you need to.

-For even more excitement our awesome? Volleyball team has been an inspiration on the court. We may not win every game but we provide quite a blend of comic relief with a few "useless but enthusiastic females", Homer Simpson, the Cookie monster, Ernie and Bert, and the guy in the hot, hot red knee pads.

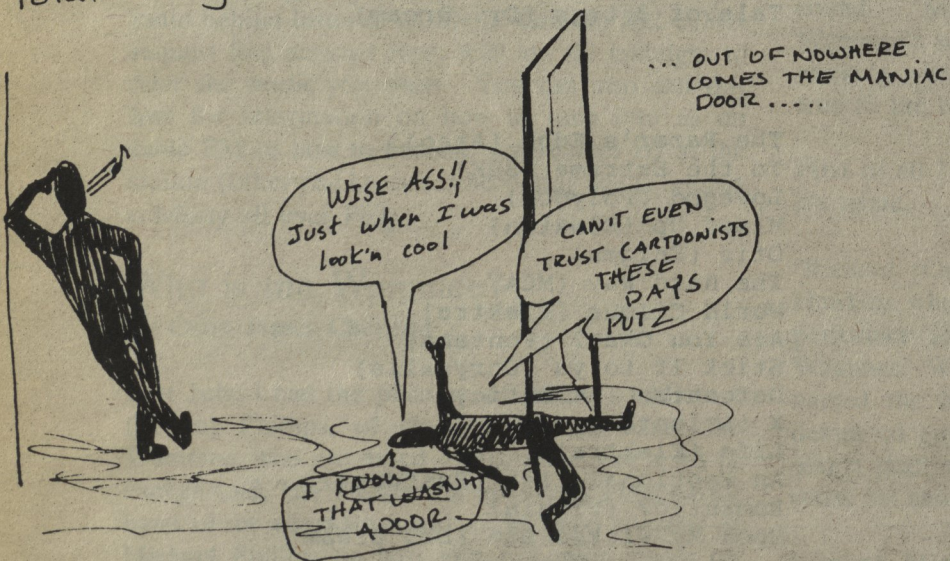

-Keep your eyes and ears open for news on the time and place of the Christmas party-it should be another good time-don't miss it!

-Finally be sure to get a copy of the X-press next week for a new Bio Profile.

### The Students Opinion:

- Question: What would you improve about the Duffy building?
- Answers:
- "What isn't there to improve" S. Curley
  - "Put some TNT in it and ignite it" C. Duffy
  - "We want a lounge like the Sociology" I. McDormand
  - "We need more heaters in the Biology club" S. Bettles
  - "Kick the rodents (Engineers) out of the basement" Anonymous
  - "Nicer classrooms...you know, like the classes in Main" H. Morrison
  - "Make Biological Journals available to the students" B. Brydon
  - "Get a microcomputer lab" C. Brydon
  - "Make Duffy environmental friendly" N. MacLeod

Total Larry; Look 'in cool
