

**BED PUSHING:** A new course at Prince of Wales' No. 1. These students are merely parading to publicize their current Students' Council election campaign.

# PWC Election Fever Reaches Loud Pitch

Election fever rose to a honking pitch yesterday as Prince of Wales College students staged what was probably the longest parade in the history of the college, following a rally in the gymnasium.

The three parties competing for a majority in the 32-member Students' Council: Varsity (Centennial and Independent—travelled in hundreds of cars through the streets of Charlottetown. One party chose to travel in hospital beds.

Majorities, Miss Prince Edward Island, "Abraham Lincoln," ukulele players, sound systems, small bands, and several floats made this parade the most spectacular election parade by PWC students in recent years.

Speaking at the election rally were Lynn MacLacrae, Wayne Matheson and Barry MacGregor, for the Varsity party; Douglas MacArthur, Marilyn MacLean, and Kenny Rice for the Centennials; David MacKinnon, Marlene Clark and Harry Holman, for the Independents.

Keen rivalry was evident throughout, as insults were tossed all around among the auditors.

The Independent Party brought the house down when eight top-hatted "pall bearers" carried in two pine boxes labelled, naturally, Centennials and Varsity and the slogan "we will bury you."

The collegians vote for their favorite candidates today. Results will be announced at the Victory Dance this evening.

**Garage Levelled In Borden Fire**

**BORDEN**—While having breakfast before going to work at about 5 a.m. yesterday, Camille Arsenault, Borden, a catering employee, noticed a bright flash and discovered that his garage was ablaze. By the time the flames were brought under control the building was destroyed.

The Borden fire department responded to a fire which extinguished the fire, but the garage and its contents—stove, a bicycle, and other small articles—were almost completely wiped out.

Mr. Arsenault's car had been left outside and to escaped damage. Although a stiff breeze blew sparks towards the house, no damage was done to it.

The loss was partly covered by insurance.

**THE SPECIAL** lecturer last night at the first instructional meeting of the Prince Edward Island Art Society was Mrs. Malcolm Putnam, Charlottetown. She is shown here as she discusses the methods and techniques of 19th Century artists. Also speaking at the session were Mrs. Guy Fitch and Rev. Adrian Arsenault.

# 13th And 14th Century Art Trends Studied By Society

Members of the Prince Edward Island Art Society met last evening in the film room at Prince Edward Island Art Society was Mrs. Malcolm Putnam, Charlottetown. She is shown here as she discusses the methods and techniques of 19th Century artists. Also speaking at the session were Mrs. Guy Fitch and Rev. Adrian Arsenault.

# Tracadie Cross H. And S. Opens Season's Sessions

The first meeting of the season of the Tracadie Cross Home and School Association was held recently with Mrs. Wilfred Corbett presiding.

Early in the session the new teachers were introduced by the principal.

A lengthy discussion was held regarding the new Home and School magazine "Quest."

It was also announced that the membership fee was being increased starting with the current year.

A number of speakers were heard including Miss Mary Evans, who reported on her school program for Glenora, in which she stressed the importance of the parents role in aiding and encouraging their children in their school work.

Miss Constance Reeves, teacher at Ten Mile House, emphasized the value of reading. While Sister Mary Rosalie summarized the late Mr. and Mrs. James Purdie, and grandson of Hon. William B. Dugas, MP, a founding Father of Confederation in Canada.

Mr. Purdie received his early education in Charlottetown and later attended Wycliffe Theological College in Toronto. He held parishes in all of the Maritime Provinces, several of the Western Provinces, and in the City of Ottawa.

He is survived by his wife, Agnes of Ottawa, and two children, Lois, Mrs. J.R. Rideout, Ottawa, and Rev. David G. Purdie of Wood, Ont. Surviving also are two brothers, Victor Purdie of Charlottetown and Dr. J.E. Purdie of Winnipeg, and three grandchildren.

The funeral was held in Ottawa, where the service was conducted by Rev. Earle Hawkins of Tweed, and Rev. Gordon R. Upton of Ottawa. Interment took place in Ottawa.

**Woolworth Co. Official Leaves \$10 Million Estate**

LONDON (AP)—William L. Stephenson, chairman of F. W. Woolworth Co. from 1922 to 1948, left an estate of £3,490,209 (\$10,470,625) his will disclosed Tuesday. He was 63 when he died last May.

Estate taxes took more than two-thirds of the total. The will left £10,000 pounds (\$300,000) to the widow and the bulk of the remainder in trust for the children of Stephenson's son and two daughters.

Stephenson opened the first Woolworth store in England—at Liverpool—at the age of 29 in 1899.

**HAD GUESTS**

Mrs. L.G. Lewis, Summerside, had as her guests last weekend, her brother-in-law, J.C. Mills of Chatham, and a gift for his nephew and wife, Mr. and Mrs. Stuart Mills, Sussex, N.B.

**VISITING PARENTS**

Miss Peggy Millman and her fiancé, Jerry Gaudet, of Miscouche, are guests of her parents, Mr. and Mrs. Edward Millman, Alberton.

**TO NORTON, MASS.**

Mrs. Erskine Campbell, Alberton, left Monday to spend a few days in Norton, Mass. Returning she will be accompanied by her mother, Mrs. Hunter Weeks.

**HOUSE WARMING**

Mrs. Webster McBeth and Mrs. Catherine Woodman were pleasantly surprised at their new home in Mill River when members of St. Peter's Italian Guild arrived to tender them a house warming. Each member brought a gift for the home and a gift from the Guild was presented by Mrs. Edward Lewis, Rev. A. B. Neill addressed the two guests of honor. A pleasant social evening was enjoyed and refreshments were served by the ladies.

Members of various paintings of the period were shown and the artist were given the opportunity of viewing reproductions of earlier paintings which were hung on the walls.

# ALBERTON AND WEST PRINCE

2 The Guardian, Charlottetown, Wed. Oct. 2, 1963.

# Salvation Army Plans To Honor P.E.I. Veterans

Some 400 delegates from the three Maritime Provinces will attend a Salvation Army Convention in Charlottetown this weekend.

A highlight of the program will be a dramatized "Focus on the Past," which will feature the life of the late Colonel Leslie Desbrisay, an Island woman who rose to the highest Salvation Army position.

Four Salvation Army bands will be in the city in connection with the event, including the famous Corner Brook, Nfld. band of 52 pieces under a bandmaster Max Laurin. Other centres sending bands include Moncton, Fredericton and Woodstock, N.B.

# Underground Storage Seen Solution For Gas Company

is being filled with gas again for this winter. Mr. Allan says life expectancy of the salt caverns is estimated to be destroyed by a shift in the salt formation or by the loss of the salt, which at that depth is in a plastic form.

The Corporation is saving money by carving big storage caverns out of a broad salt layer that runs from west of St. John's, Nfld. to the southeast part of the province at a depth of more than 3,000 feet.

Fortunately the layer, made up of the type of salt used on the dinner table, runs close to Regina and Saskatoon, the biggest centres in the province.

The corporation is saving money, Mike Allan, chief gas design engineer for the cavern now nearing completion near Melville, 80 miles north-east of here, will be about \$900,000. Work has just started on another cavern near Regina and there are tentative plans for one near Saskatoon.

Mr. Allan says the alternative to storing large quantities of natural gas near Regina in the winter is to build an additional 12-line pipeline from the success field near Swift Current, 175 miles west, which supplies this city.

Twelve inch pipeline costs to \$40,000 a mile to bury. For 175 miles, the cost would be \$7,125,000.

Eventually the Melville cavern is to have a capacity of 300,000,000 cubic feet of gas. Tentative plans call for the Regina one to have a 600,000,000 cubic feet capacity.

Winter natural gas consumption in Regina runs up to 60,000,000 cubic feet a day.

The SPC says an industry-wide problem for years has been the movement of natural gas from producing fields to points of consumption in sufficient quantities to meet peak loads.

A relatively small pipeline is observed to carry lower summer loads but expensive larger bore lines are needed for winter loads unless gas can be stored near the consuming point.

The problem is especially acute in Saskatchewan, which has a relatively dense population in the eastern part of the province and almost all natural gas sources in the west.

The problem has been solved previously by storing gas in depleted oil and gas fields, but this is used by the SPC near Unity, Sask.

In recent years, too, underground caverns have been created in several areas in Canada and the United States to store liquefied petroleum gas but it is believed the SPC's projects are the first caverns designed to store natural gas.

The SPC started work on the Melville cavern in 1958. Water from a water-bearing formation just above the salt formation was pumped into the salt formation at a pressure of 500 pounds a square inch to dissolve the salt. The solution then was brought to the surface and pumped back into the sand formation. Production of salt for consumer use is not considered an economic proposition here at present. Sediments in the salt formation that would not dissolve were allowed to fall to the bottom of the cavern.

The cavern now has an estimated capacity of 120,000,000 cubic feet. It is roughly cylindrical in shape, 3,700 feet below the surface, about 200 feet tall and 100 feet in diameter.

It already has been used to supply Regina with natural gas consumption of the bitter cold winter of 1962-63. It now

**Ever Hear of a "DIURETIC"??**

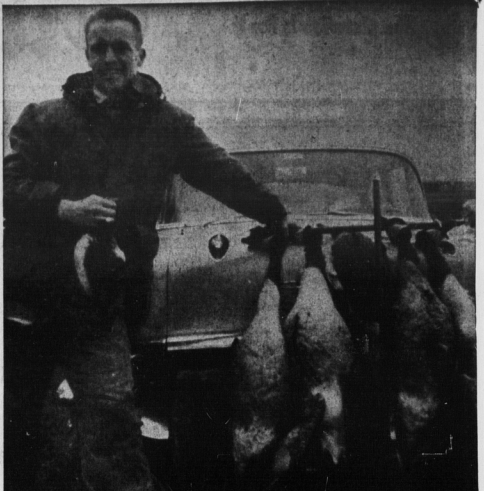

Maybe not. But you should know what a "diuretic" does. There may be times when you would like to help restore normal kidney action, and so relieve the systemic condition known as high blood pressure. When you are bothered by backache and tired feeling due to many and bladder distention, Dadd's Kidney Pills is easy to take. Dadd's Kidney Pills is easy to take. Dadd's Kidney Pills is easy to take.

# CHORALE TO PERFORM

The Charlottetown Chorale will perform Sunday afternoon at QCHS under the direction of Christopher Gichill, MA, Musician.

Guest speaker for the Congress will be Colonel George Higgins of St. John's, Nfld. It is expected delegates will begin to arrive Thursday night with registration taking place Friday morning.

# Retired Bank Mgr. On Visit

Cecil Kemp, retired manager of the Bank of Montreal, accompanied by Mrs. Kemp, has been visiting his former home the past few days.

The corporation is saving money, Mike Allan, chief gas design engineer for the cavern now nearing completion near Melville, 80 miles north-east of here, will be about \$900,000. Work has just started on another cavern near Regina and there are tentative plans for one near Saskatoon.

Mr. Allan says the alternative to storing large quantities of natural gas near Regina in the winter is to build an additional 12-line pipeline from the success field near Swift Current, 175 miles west, which supplies this city.

Twelve inch pipeline costs to \$40,000 a mile to bury. For 175 miles, the cost would be \$7,125,000.

# ANOTHER SUCCESSFUL HUNTER

An airman home on leave from the hunting to his liking on opening day. Shown above is LAC Douglas Young, who is stationed at North Bay, Ont., with the four goose and five ducks he bagged Monday and Tuesday morning. He is a son of Mr. Earncliffe.

warmer, southwesterly wind; 23 with occasional gusts to 40; low high at Kentville 34 and 68, New Glasgow 34 and 63, Sydney 34 and 65, Charlottetown 38 and 63. High tide today at Charlottetown at 9:38 a.m. and 10:27 p.m. At Rustico at 4:57 a.m. and 5:28 p.m. Summerside tide eighteen minutes later than Charlottetown. Sun rises today at 5:56 and sets at 5:43.

# Men! Are You Running A Poor Fourth?

It could be that you are running to page 7 for the interesting results of an unofficial survey and the nice solution to the matter.

# Lemon Juice Recipe Relieves Arthritic & Rheumatic Pain

If you suffer rheumatic arthritis or neuralgia, try this simple inexpensive recipe. Mix thousands serving. Get a can of F.I.S.S. Compound, a 2 wetas supply today. Mix it with a quart of water, add the juice of 6 lemons, 16 cups of hot water, 2 times a day. Often within 48 hours — sometimes overnight — relief is obtained.

If the pain does not quickly leave you, do not feel discouraged. Repeat the mixture 2 or 3 times a day. It is sold on a new heavy guarantee. Over 8 million cans used. At all drug counters. Adrem Ltd., 100 Barclay Street, Toronto 1.

After demobilization he returned to the bank, serving in Halifax and Yarmouth branches. He was appointed manager of the Canoe branch in 1932. Later he was manager in the Mahoneys Bay branch, and retired when manager of the branch at Hartland, N.B. in 1950.

During his short visit with his wife, Mrs. R. Parkes Moore, and R. E. (Reg) Kemp he received numerous friendships here.

Mr. and Mrs. Kemp left yesterday morning on return to Victoria where they reside. They plan to visit friends in Nova Scotia and U.S.A. enroute.

# WEATHER

TORONTO (CP) — Observed temperatures: Min. Max. Dawson 44 51, Vancouver 50 60, Victoria 53 64, Edmonton 44 65, Regina 53 63, Winnipeg 54 77, Toronto 46 73, Ottawa 57 67, Montreal 38 65, Quebec 33 60, Fredericton 32 66, Saint John 38 54, Moncton 31 54, Halifax 38 65, Charlottetown 37 52, Sydney 44 52, Yarmouth 41 52, St. John's, Nfld. 46 53.

**HALEPALEA (CP)** — The weather office says there is a risk of overnight frost in low lying areas under clear skies.

A strengthening southwesterly flow of dry air will maintain sunny skies throughout the Maritime today. With the prolonged southwesterly circulation today, the entire district will have warm weather.

**Regional forecasts:** Annapolis Valley, Northern Nova Scotia, Cape Breton, and Prince Edward Island; Clear and much warmer.
