Hon. Thomas F. Bayard Dead.

[SPECIAL TO THE EXAMINER.]
DEBHAM, Mass., Sept. 27.—The Hon. Thomas F. Bayard died last evening. Interment will take place in his native State of Delaware.

[Mr Bayard was the Democratic Senator from Delaware from 1869 to 1885. He was President of the Senate, pro tem, in 1881, and a member of the electoral commission in 1877. He was unsuccessful in obtaining the nomination as Democratic candidate for the Presidency in 1880 and 1884; but he was Secretary of State in the Cleveland Administration from 1885 to 1889. In 1893 he was appointed United States Ambassador to Great Britain, and was the first to hold that diplomatic rank. He was born October 27, 1828.]

**BUSINESS MEN
NEED STATIONERY.**

The question is, what kind of stationery? It will pay, in almost every case, to have good stationery. Good stationery generally costs a little more than poor stationery. If it does it pays. But good stationery, at the following prices, is something of which every business man ought to take advantage. We use tint blocks in printing stationery, and this adds very materially to its appearance. Billhead, small size, \$1.50 per thousand, 500 for \$1; statements, \$1.50 per thousand; note-heads, \$1.75 per thousand; letterheads, \$2.50 per thousand; envelopes, \$1.75 per thousand and up; and shipping tags at 50c per thousand. These prices are good only during this week and next week.

**GOVERNMENT POSSESSES SOME
INTERESTING REPORTS.**

Account of the Interview Between Kitchener and Marchand.

[SPECIAL TO THE EXAMINER.]

LONDON, Sept. 29.—The newspapers of the county are clamorously demanding that the Government take the public into its confidence in regard to the Fashoda affair, having been informed that General Kitchener's report has reached the Foreign office and that it makes interesting disclosures. They appear to be deeply disappointed that the diplomats are to have the settlement of the question and express the fear that Salisbury will prove susceptible to French blandishments.

The Foreign Office has issued a formal refusal to make public any further details of the affair, some of which, however, are leaking out.

The Sidar, according to these, after Major Marchand refused to furl the French flag formally announced that he had come to raise the Egyptian flag, but before doing so desired to know whether Major Marchand wished to enter a protest.

The Frenchman replied in the negative; and the Sidar then planted the Egyptian flag alone, not the Egyptian and British flags as at first reported, 500 metres from the French flagstaff.

Negotiations relative to the matter were begun at Paris yesterday by the British ambassador, the Right Hon. Sir Edmund J. Monson, calling upon M. Del Casse, the French foreign minister.

LIBERAL CORRUPTION.

Strong and Definite Charges.

TORONTO, Sept. 28.—Wholesale corruption on the part of the respondent and his agents is alleged in the particulars filed yesterday to unseat Aylesworth, gnat member for Lennox. The charges number 188. The most sensational feature in the document is a clause charging that members of the Ontario Government, together with Hon. Geo. A. Cox, G. B. Bertram, M. P., Wm. Christie, Hon. Wm. Christie, Hon. Wm. Mulock, Wm. Charlton and other Toronto gits, raised by private subscription a central fund, to be spent in bribery in various ridings. A portion of this money was, it is alleged, transmitted to W. S. Harrington, acting county crown attorney of Lennox, and corruptly spent by him and others among the electors of Lennox. Personal bribery is also charged.

The testimonials in behalf of Hood's Sarsaparilla are written by honest people who want you to know what it has done for them.

SITUATION IN CRETE.

Russia's Candidate for the Governorship.

COPENHAGEN, Sept. 28.—The recent events in Crete have brought into prominence the necessity of a speedy settlement of the Cretan question.

In the present circumstances it is doubtful whether the settlement of the question of governorship would be a good thing for Crete. Political developments recently have made it difficult for the Czar to take up a strong position on behalf of the candidature of Prince George of Greece.

In the Danish-Russian family the question has long been considered settled. For four months Prince George has been at Bernstorff, waiting patiently the call to proceed to St. Petersburg, but the Czar is still silent. In Copenhagen harbor, the Russian battleship has been lying since the dowager Empress's arrival, in order to take the new governor with honor to Crete.

Has the Czar then given up his plan? By no means. The hand of the prudent and far-sighted Count Muraviev is guiding this matter.

The count knows how necessary it is that Russia should avoid all possible conflicts in the near future. The policy of Russia with regard to Crete, though slow, still proceeds, and is in no wise altered. The suitable moment only is being awaited for the fulfilment of the promise given by the Czar to his mother—a promise that nothing except the most urgent necessity would cause him to back out of.

The Halifax Garrison.

HALIFAX, N. S., Sept. 28.—The Halifax authorities here have received notification that a troop with a large draft of men for the regiment and companies in this garrison will leave England early next month. About 300 men will be sent out to strengthen the Leinsters. Half of these will be sent to the West Indies to the second battalion, while 150 men will be added to the Royal Canadians in this garrison. The men coming in the transports are said to be mostly army reserve men, formerly in the Leinsters.

THE EMPEROR WILLIAM.

Lord and King of the Land, he Desires to Rule the Waves

The Emperor William visited Stettin a few days ago to open the new harbor. During the course of a speech which he delivered in reply to the address of welcome of the burgomaster, His Majesty said: 'Our future lies in the water, and I, as lord and king of the land, express gratitude to you for having brought Stettin to this degree of prosperity. I hope, expect, and might also say I demand, further development at the same rate of progress.' Work has been commenced on the new mammoth dock at the imperial shipyards of Kiel. It will be 550 feet long and 65 feet deep. It is intended to dock large ironclads of the 'Kaiser Friedrich' type.

THE GERMAN-BRITISH ENTENTE

Depressing Effect in the Transvaal.

A correspondent writes: The effect of the publication of the entente between Germany and England caused little short of consternation in the Transvaal. The danger of Lorenzo Marques falling into the hands of England eventually has, of course long been seen, but it was believed that Portugal regarded Lorenzo Marques—and they themselves always so declared it—as part of the flag.

Negotiations had been initiated between the Transvaal government and Portugal to buy up the Lorenzo Marques railway and help that colony tide over its financial difficulties, but the Transvaal government itself was reluctant to undertake a decisive step. Besides, the Boers had always been confident of the friendship of Germany.

The most clear-sighted for the authorities, however, now fear that the Transvaal is virtually strangled, being surrounded on all sides with territories under English control.
