

man's hunger

Each year, according to the
United Nations Food and Agriculture
Organization:

295,000,000 cattle, buffalo and calves,
804,000,000 goats and sheep,
1,100,000,000 pigs,
and
42,000,000,000...
forty-two billion chickens,
are killed for food.

Who the fuck's eating all the buffalo?

Thomas Lloyd
