What Bothered Him.

"When I was a young man," says a well known civil engineer, "I was surveying the route of a proposed railway. An old farmer with whom I stopped for a time admitted one day, when he saw me figuring in the field, that mathematics always seemed a wonderful thing to him. Being young and enthusiastic, I began to enlarge its wonders, telling him how we could measure the distances to different planets, and even weigh them; how we could ascertain the height of mountains without scaling them and many other things which I meant should astonish him.

"You can imagine how he set me back when he replied to this brilliant array of facts by saying: 'Yes, yes, them things does seem kinder cur'us, but what allus bothered me was to understand why you have to carry one fur ev'ry ten, but if you don't the durned thing won't come out right.'"—New York Tribune.

"Billington's Sea."

There is tangible evidence that the pious passengers of the Mayflower were not entirely without a sense of humor. Back of Plymouth over the hill upon which they planted their cannon is a large fresh water pond, perhaps a mile in diameter, which, it appears from the records, was discovered by John Billington while he was prowling around one night, probably on a scouting expedition looking for Indians. In the morning he reported that he had found the sea in that direction and there was a lively dispute between him and the other pilgrims as to the accuracy of his information. He stuck to his theory with the same tenacity that he adhered to his religion, and to this day that pond is called "Billington's sea."—Chicago Record.

Attractive Women.

Why is one woman attractive and another not? The most admirable and attractive thing about an attractive woman is her womanliness. Everybody admires a womanly woman. She must have health, of course, without it she would lose the brightness of her eyes, the fullness of her cheeks and her vivacity. Real health must mean that a woman is really a woman. That she is strong and perfect in a sexual way, as well as in every other. That she is capable of performing perfectly the duties of maternity. Some are born with what is called "constitutional weakness." Those who do not enjoy perfect health, need only take the proper precautions and the proper remedy to become perfectly well and strong. Dr. Pierce's Favorite Prescription will cure any derangement of the distinctly feminine organism.

Province of Prince Edward Island

In the Surrogate Court

In re Estate James Laird, late of New Glasgow, in Queen's County, in the said Province, merchant, deceased intestate.

I the undersigned, Jane Laird, Administratrix of the estate and effects of the said James Laird, will on Thursday, the fourth day of May, next, A. D. 1899, at the hour of eleven o'clock forenoon, under and by virtue of a license granted me by the Surrogate of the said Island, sell by public auction, at the dwelling house, at New Glasgow, occupied by the said James Laird, at the time of his decease, the following pieces and parcels of land, that is to say:

(A) All that tract, piece or parcel of land, situate and being in Township number 23, in Queen's County, bounded as follows, that is to say, commencing at a stake fixed on the banks of the Clyde river, at a reserved line of road, at the northern boundary of Abraham Van Buskirk's, (now James Fullman) land; thence running south eighty six degrees, thirty minutes; west 21 chains; thence north east—return to the place of commencement thence along the shores of the Clyde to the north-west corner of the saw mill side of the creek to a post fixed nearly opposite to a spring issuing from the foot of the north eastern bank of the creek; thence by a line running north west, until it intersects the above mentioned north east line, containing one hundred acres, a little more or less, together with the dwelling house, shop and mill situate thereon.

(B) All that tract of land situate on the beach of Rustico, on Township number 21 commencing at a stake set in the west side of Water Terrace, and in the north east angle of Fishing Station number one, in possession of R. B. Morrison, and running thence by magnetic meridian of the year 1761 south 60 degrees west 200 feet to the shore of the Bay of Rustico, aforesaid thence north westerly a distance equal to 50 feet at right angles thence north 60 degrees east to said terrace and thence easterly along the same to the place of commencement together with the fishing station thereon.

The undersigned will also at the same time and place sell by public auction the saw mill side of the creek to a post fixed nearly opposite to a spring issuing from the foot of the north eastern bank of the creek, together with the dwelling house, shop and mill situate thereon.

The undersigned will also on Friday the fifth day of May next, at the hour of twelve o'clock noon, in front of the Court House in Charlottetown sell by public auction under and by virtue of the said license the following pieces of land.

All those plots or parcels of land, situate and being in the common of Charlottetown, and being parts of common Lot number twenty, of the common Lots of Charlottetown, bounded and described as follows, 1 lot No. 17—commencing on the west side of the Malpeque Road at the southern boundary of Lot No. 18, thence running south along said road 45 feet or until it meets a new road or street running at right angles from said Malpeque Road, westerly; thence along the north side of said new road or street 80 feet, to plot No. 16, thence at right angles northerly 45 feet, or to the south boundary of Plot No. 18, and thence along a south boundary easterly 80 feet to the place of commencement.

Plot No. 7—Commencing on the south side of said new road or street, and in the western boundary line of plot No. 8 sold by the Charlottetown Woolen Factory Company to Albert Warren thence running westwardly along the south side of said new street or road 42 feet or to the east boundary of plot No. 8, sold to John H. Bates, thence running southerly at right angles to said new street or road from the said two plots of a uniform width of 42 feet for the distance of 90 feet.

Dated this 30th day of March, A. D. 1899.

SEED WHEAT!

DEAR SIR,—

I am very glad to be able to inform you that after testing the WHITE FIFE WHEAT, imported by you from the North West last fall, I have no hesitation in recommending it to the farmers of P. E. Island

I sowed twenty grains without making any special selection, and out of the twenty, nineteen grew strong and healthy.

Farmers in this section of the country pronounce your seed wheat the best sample that they have seen imported to this Island.

Yours etc,
R. P. BAGNALL, Farmer,
Hazel Grove, P. E. I.

I still have a few bags of this specially selected wheat to dispose of.
