SPECIAL DESPATCHES TO THE EXAMINER.

PARLIAMENT OF CANADA.

Sir Wilfrid in a bad Tangle.

Guilty of Gross Breach of Faith.

HON. MR. BLAIR IN BAD HUMOR.

Tries to Escape Responsibility for the Yukon Deal.

Sifton Makes Complaint About His Conduct.

OTTAWA, Feb. 12.—In the House of Commons yesterday the Address was passed.

Mr. McNeill showed, in the course of the concluding discussion, by comparing the Premier's pledges to support preferential trade with his course in opposing it, that he had committed the gravest breach of public faith ever recorded in the history of this country.

Sir Wilfrid asked if Mr. McNeill would accept preferential trade on Mr. Chamberlain's terms.

Mr. McNeill said, "Yes, I would on Chamberlain's terms as explained in London, Ontario, by the Premier himself."

This apt reply was greeted with loud cheers.

Relations are strained among the members and supporters of the ministry. It is not known when the trouble began; but Hon. Mr. Blair exhibited a symptom when he explained the Yukon "deal." He then made the singular statement that he was not well posted in the contract, as it was made in his absence.

This was a striking attempt to escape responsibility, and Hon. Mr. Sifton, who with Sir Louis Davies, was the principal to the contract, did not take it well.

Hon. Mr. Blair stayed away from the Government caucus, and Mr. Sifton had a little scold at him. He explained that the members had not yet heard an adequate explanation of the contract, and he regretted that Hon. Mr. Blair was away, as he would like to refer to his speech on the subject of yesterday.

Mr. Blair is in bad temper. He was only in the House a short time on two occasions, and then he refused to talk with the members who approached him.

THE BRITISH PARLIAMENT.

Right Hon. Mr. Balfour's Opinion.

IRELAND AND GREAT BRITAIN WILL SOON BE CLOSELY UNITED.

A Subordinate Parliament is not Workable.

LONDON, Feb. 12.—In the British House of Commons yesterday, when Mr. Redmond's Irish amendment was being discussed, Mr. Balfour said: "I firmly believe that, sooner or later, the people of the two islands will be as closely united as those of any nation in the world." This remark called

forth Irish cries of "never," on which Mr. Balfour retorted: "The Irish members neither desire nor hope this; I both hope for and desire it." From the study of history I am convinced that a scheme of a subordinate parliament is not workable."

LATEST NEWS BY WIRE AND MAIL.

NORTH SYDNEY, C. B., Feb. 10.—Notwithstanding the strong efforts made by the local government, municipal councils and other corporations to prevent the closing down of the Victoria mine, the Dominion Coal Company have issued instructions to dismantle the mine. Yesterday the rails, steam pipes and other gear are being removed from the pit.

MONTREAL, Feb. 10.—The Star's special correspondent in London, cables that a big company, with the Earl of Warwick as chairman, is on the eve of coming before the public, with several M. P.'s on the board. It was organized by A. J. McMillan, late Manitoba government agent.

OTTAWA, Feb. 9.—The Winnipeg board of trade has sent a communication to Hon. Mr. Fisher protesting against the proposed prohibition of the importation of foreign fruits. The letter points out that as no pears, plums or peaches are grown in Manitoba and the Northwest, and every attempt to import fruit from Ontario or Columbia has resulted in loss, the enactment of such a law would be a very serious matter to Manitobans. The minister of agriculture has replied that he has intimated to the Ontario fruit growers' association that the prohibition of the importation of foreign fruits is practically impossible.

OTTAWA, Feb. 9.—Mr. Chamberlain's recent speech at Liverpool has put heart into the advocates of preferential trade, who, notwithstanding Laurier's defection from the cause when in England, do not despair of being able to accomplish something tangible with the mother country in the not very distant future. Mr. McNeill, member for North Bruce, will at an early date introduce a resolution in response to and in recognition of Mr. Chamberlain's recent overtures. The resolution reads: "That a customs arrangement between the United Kingdom and her colonies is advisable, by which trade within the Empire may be placed on a more favorable footing than it is carried on with foreign countries."

NEWS NOTES.

The restaurant kept by H. W. Brightman, the grocery store kept by James Currie and the Salvation Army barracks overhead, at Amherst were gutted by fire and their entire contents were completely ruined on the morning of the 9th inst.

Alfred E. Williams, formerly of Summerside, P. E. I., is on trial in the superior criminal court at Salem, Mass., on a charge of murdering John Gullo at Lynnfield in August last.

So far this winter Montreal has paid \$50,000 for removing snow from its streets. The Street Railway Company pay \$1,650 per mile for cleaning the snow from the streets where there are car tracks. There are thirty-two and a half miles of streets in Montreal where tracks are laid.

There are in Scotland 158 distilleries the output of which amounted to 28,500,000 gallons, an increase of thirty per cent. over the previous year, and 77,000,000 gallons are stored away maturing. In Ireland there was an increase of thirteen per cent. in the product, and in England an increase of ten per cent. During the fiscal year ending June 30th, 1892, Canada exported 155,902 gallons of whiskey, as compared with 134,755 during 1891, an increase of 21,147 gallons. Another interesting fact bearing on the subject of drinking is to the effect that the people of the United States drank last year less beer by 1,462,990 barrels than during the year previous.

The Southern countries of the western part of Ontario seem to be admirably adapted for tobacco growing. The Toronto World reports that a number of laboring men of Leamington are renting land from farmers in the vicinity of the town to grow tobacco. An acre of good ground will yield from 1,200 to 2,000 pounds of tobacco leaf, which sells at from 8 to 14 cents per pound, according to quality. This means on the average \$150 to \$170 per acre to the grower, which is vastly better than \$30 an acre for grain. The tobacco is principally shipped to Quebec, where it is used in the manufacture of cigars. During two weeks recently Louis Wigle shipped from the country of Essex alone 600,000 pounds, and there still remains in the country about 200,000 pounds. It is stated by the Amherstburg, Ont., Echo that one farmer cleared \$2,000 from the tobacco grown on twelve acres.

There is a pretty good story (under present conditions) going the rounds. It seems that an official of the G. T. R. was affected with some sort of trouble in the head. He consulted an eminent physician in Montreal, and the physician, after an examination, decided that an operation would have to be performed. The G. T. R. man decided that he would submit to the operation, and the specialist removed a portion of his brain and told him to take good care of himself, return in three days and he would have the brains cleaned and put them back. The patient did not return at the appointed time and the doctor was much disturbed. He chanced to meet his patient on the street shortly afterwards, and of course gave him fits for not coming back at the appointed time to get his brains. The patient laughed and said, "Never mind, doctor; it's all right; I have just been appointed to a position on the I. C. R. and I won't need the brains."

No Trouble to Show Goods!

A GREAT SALE OF DRESS - GOODS.

Don't wait any longer before buying your Winter Dresses at
