DAILY MARKET QUOTATIONS

SUMMARY

By THE CANADIAN PRESS

Toronto: Market mixed to lower in heavy trading.

New York: Stocks higher; industrials recover.

Montreal: Industrials irregularly mixed; base metals ahead.

CURRENCIES

MONTREAL (CP) — The U.S. dollar closed Friday at a discount of 3 29-32 per cent in terms of Canadian funds, up 1-32. Pound sterling $2.68, down 1-16.

TORONTO STOCKS

TORONTO (CP) — Speculative mines featured a mixed stock market Friday. Trading was the third-heaviest of the year and Rockwin Mines helped with the heaviest individual volume in months.

Rockwin climbed 16 cents to82 cents amid a turnover of 1,327,-000 shares. At one time in early-afternoon activity, it was up 24 cents to 90 cents.

Besides Rockwin, Iron Bay, Eastern Mining, Central Patricia and Consolidated Morrison gained 20-30 cents in loewr-priced mines. Uraniums were easier, Pronto easing 20 cents to $7.6p and Northspan having a similar loss at $8.45. Steep Rock gained a point at 21¾ among seniors.

Prairie Oil and General Pete paced western oils, each gaining 30 cents. Scurry was up 15 cents to $3.20 and Trans Canada 12 cents to $3. Del Rio lost 15 cents at $6.40 while Home Oil B had a minor fractional loss.

Index changes: Industrials off .21 to 466.50; golds up .17 to 78.82; base metals pu .86 to 213.65; western oils up .46 to 173.67.

MONTREAL STOCKS

MONTREAL (CP)—The Montreal and Canadian stock exchanges closed in an irregularly mixed pattern Friday following active industrial dealings. Price movements ranged to more than four points.

International Nickel was high in an improved base metals section, moving up 2½ to 106. Aluminium at 121¾ and Asbestos at 34 each showed a ½-increase while Hudson Bay at 85½ and Consolidated Smelters at 25⅜ each added ¼. Inter-Provincial Pipe Lines dipped ⅜ at 58 and Trans-Mountain fell a point to 126.

Pulp and Papers were lower with Abitibi at 33½ easing ½ while B.C. Forest at 12 and Price Brothers at 29¼ each dropped ¼. in miscellaneous trading, Webb and Knapp dropped 20 cents to 4.20 while Page Hersey was down 3 points to 116 and General Dynamics at 65 eased 1¾. Refining oils were better in a ½-point range while in utilities Shawinigan at 86 gained ½ and Gatineau pushed up ¾ to 29¾.

Mines and oils were lower.

The exchanges' closing averages show banks up 0.05 at 52.76, utilities up 0.7 at 146.8, industrials up 0.9 at 283.4, combined up 0.9 at 237.9, papers off 8. 1t3a492. 235 237.9, papers off 8.94 at 1332.25 and golds off 0.07 at 78.54.

NEW YORK STOCKS

NEW YORK (AP)—A recovery by industrials snapped the stock market out of early irregularity Friday and gave it another advance.

It was a moderate rise but on fairly good volume. It helped to give this week the biggest weekly advance on average of 1957.

The recovery began around mid-day following news that the Senate finance committee had voted an investigation of the financial condition of the United States, including interest rates.

Some but not all major steels moved ahead and the same applied to motors, chemicals, oils and aircrafts. The leading rails were spotty. Utilities, the safe, defensive issues which enjoyed a rise while the rest of the market this year was in the doldrums, did little.

Some selected issues made rather wide moves up or down in response to individual corporate developments.

The Associated Press average of 60 stocks rose 40 cents to $178.30.

Bethlehem Steel was the most active stock, off ⅜ at 44½ on 43,-000 shares. Second was General Dynamics, up ½ at 67⅞ on 34,100 shares. Third was General Motors, up ⅝ at 41/ on 32,000 shares.

Rising Canadian stocks included International Nickel, up 2⅛ on sales of 6,100 shares, McIntyre ⅞, Aluminium Ltd., Granby Mining and Hudson Bay mining ⅝ each, and Walker-Gooderham ½. Down were Canadian Pacific, off ⅜ on 2,800 shares, Dome Mines ¼ and Distillers-Seagrams ⅛.

On the American exchange Richwell Petroleum rose 1-16 on sales of 300 shares and Preston East Dome dropped 1-18 on sales of 400 shares.

THIRD VOYAGE

Returning to Germany after a one-man kayak voyage across the Atlantic, Dr. Hans Linderman is shown with the collapsible craft as he sailed from New York aboard the Italian ship Italia. This was Dr. Linderman's third westbound kayak crossing as part of his survival at sea research. His destination in each voyage was the Virgin Island.

R.C.M.P. Dog Can Even Find Money

SASKATOON (CP) — Prince Winsom Warrior III, successor to the RCMP's famous police dog Dirk, is a "ball of fire" on call 24 hours a day.

Better know as Warrior, the four-year-old silver-grey German Shepherd dog and his master, Cpl. K. Barker, are members of the RCMP detachment in Saskatoon. Warrior is one of three RCMP dogs in Saskatchewan.

Warrior sleeps in the backyard of his master's home here. While on duty he travels with Cpl. Barker in a specially - fitted truck equipped with two-way radio and extra rations.

After initial training at the RCMP dog school Warrior was given practical experience in the field. But his training goes on daily.

In one of his first cases the dog was successful in recovering a missing wallet containing $1,900.

Almost every day Warrior is taken into the country where he goes through the routine of tracking, searching, obedience, guard work and night training.

He works hard at tracking. Warrior must be trained to track without leaving the faint trail of the suspect for a fresher spoor of some other person or rabbit.

A constant change in routine keeps a police dog on the alert. Cpl. Barker seldom gives Warrior his supper at the same hour.

"If he became accustomed to eating at the same time each day," explained the dogmaster, "it could interfere with his work on a case."

But not all of the time is taken in training. Warrior will travel 20,000 miles with his master each year. And sometimes he is called on to demonstrate his talents for school children.

REPAIR BOMB-DAMAGE

West Germany estimates she has repaired all but 7.2 per cent of the railway bridges destroyed during the Second World War.

Advises Nfld. Fishermen To Revert To Light Salted Fish

By GERRY FREEMAN
Canadian Press Staff Writer

ST. JOHN'S, Nfld. (CP)—Fisheries Minister Cheeseman had a word of advice for Newfoundland's fishermen Monday as he told the legislature that prospects for the 1957 fishery appeared fairly bright.

He said stocks of salt fish on hand, "slightly in excess" of stocks this time last year, would be sold and shipped before this year's salt fish hits the market.

This year's fishery should be "a reasonably good" one. Prices should be "at least as good as last year's."

He warned fishermen: "There i. every indication we may soon be producing more heavy salt fish than we can find markets for. Fishermen would be well advised to revert as far as possible to the curing of light salted fish."

No government loans will be available for further expansion of the fresh fish processing industry in the foreseeable future, he said.

MUST CONSOLIDATE

It was more important for the industry to consolidate itself. Some 62,000,000 pounds of fresh fish were processed last year and existing facilities could have turned out twice that much.

He said the unemployment insurance scheme for fishermen will result in more fishermen registering.

The act as it stands is a "gross discrimination against" the fishermen of the south coast, some of whom Mr. Cheeseman represents as Liberal member for Burin-Burgeo.

He said the act only benefitted those not fishing during the winter. On the south coast "the real harvest time is from December through to April." Fishermen there would try to accumulate enough credits between spring and fall to entitle them to benefits during the specified winter period. They would tend to let the winter fishery go to waste.

The federal government should take that into consideration, he said.

"DEPLORABLE" SITUATION

Mr. Cheeseman said it was "deplorable" that Newfoundland should have to supply bait to fishermen from other provinces and countries which had taken over former Newfoundland markets. "If we are going to keep on supplying bait we should at least get a share of the market."

There has been less government spending in his Burgeo-Lapoile district than in any other in Newfoundland, he said. The dstrict, perhaps the only one almost entirely dependent on the fishery, was experiencing a depression while the rest of the province prospered.

Mr. Cheeseman said he has been advocating a freight service separate from the mail, passenger and express services on the railway coastal boats on the south coast run for the last 40 years. He supposed he'd have to keep on advocating for the next 40.

Scientists Expect To Issue More Specific Hurricane News

Editor's note: The U. S. weather bureau has developed many new devices which it hopes will make hurricane forecasting more accurate. These techniques are described in this last of a series of man's battle against the weather.

By FRANK CAREY

WASHINGTON (AP)—The U.S. weather bureau already is lining up new weapons for the autumn hurricane wars—and some others which were not completely tested in last year's comparatively mild season for the killer storms.

Bureau scientists say they expect to issue more specific advisories than in previous years, including the last big hurricane year of 1955. That year more than $1,000,000,000 in damage and 1,500 deaths were caused by a near-record 10 howlers from out of the tropical doldrums. One of them hit eastern Canada, causing two deaths. In 1954 hurricane Hazel caused 82 Canadian deaths.

BETTER WARNING

Bureau men are expecting to narrow down their warning to an average of 300 miles of coastal length, compared with about 500 average two years ago.

Bureau scientists are even exploring the possibility of issuing a statement as much as a month in advance of the "general probability" of hurricanes affecting a particular coastal area.

The new weapons that will be available this year might seem like puny armament against these huge revolving storms that pack winds of up to 150 miles an hour and more, brew rainfalls of up to 20 inches in 24 hours, and send destructive tides surging over coastal areas. But weather bureau men say they could help save lives.

NEW RECORDERS

The new gear consists of:

1. Instruments for measuring wind speed and direction right at the water's edge for more accurate readings.

So a line of 90 new water-edge recorders will be installed this spring and summer all the way from Brownsville, Texas, to Portland, Me.

2. A new system of remote-control tidal gauges will be installed at various points along the gulf and Atlantic coasts. They will provide a continuous record of water-level heights to weather some distance from the ocean's edge.

The "hold-over," mostly untried weapons of last year, consists mainly of two giant long-range radars at San Juan, Puerto Rico, and Nantucket, Mass., plus some relatively recent research findings.

The San Juan radar's 300-mile range is credited with having helped greatly towards issuing a warning to the island more than 30 hours before hurricane Betsy struck last year.

MUSICAL COMEDY

BOSTON (AP) — Comedian Danny Kaye turned maestro Wednesday night and conducted the Boston symphony orchestra at an open rehearsal. Two music critics agreed in competing morning newspapers that Kaye, when it comes to conducting, is a wonderful comedian. The performance realized $9,995.50 for the Orchestra Musicians' pension fund.

Who knows hospital bill protection better than a nurse?

YOU might hear this in practically any Maritime Hospital:

FIRST NURSE: "Believe me, there's no substitute for the protection of Blue Cross Hospitalization. I see that every day! You know, the Cashier tells me most Blue Cross patients have to pay little or nothing on their hospital bills when they leave".

SECOND NURSE: "There's no substitute either for the protection of Blue Shield medical care. After all, if you have a hospital bill, chances are you'll have a doctor bill too. *You need both kinds of protection!*" These are the protection plans Maritime doctors want you to have.

Blue Cross can cover you and your enrolled family at participating hospitals for semi-private room and board—plus a wide range of hospital extras.

Blue Shield helps pay your doctor bills for the surgical, obstetrical and other services your doctor renders under the Plan.

MAIL THIS COUPON TODAY AND FIND OUT HOW YOU CAN APPLY FOR THIS PROTECTION
