THE METHODIST CONFERENCE.

ST. JOHN, June 23.—The New Brunswick and Prince Edward Island conference this afternoon paid a fraternal visit to the Nova Scotia conference. In all nearly two hundred ministers were present. The president, Rev. Mr. Evans, accorded to the visiting brethren a most hearty welcome, which was warmly responded to by President Clarke, of the New Brunswick and P. E. Island conference. A motion of congratulation and greeting was extended to the visiting brethren by a rising vote, after which the united conferences united jointly by the appointment of Dr. Stewart to the chair, and Rev. D. W. Johnson to the secretaryship. Rev. F. S. Huestis, chief steward, presented a statement of affairs of the book room and Wesleyan. The total amount of sales in the book room for the past year were $18,678 gross, and the profits $3,807, from which, after deducting the expenditure, there remained a net profit of $412.35. The stock on hand was valued at $8,858. In the Wesleyan, the deficit on the year was $40, which is $150 less than last year. The balance sheet of both branches of 1890 showed a deficit of of $1,439, while the balance sheet for 1894 showed a surplus of $547 after having paid off the deficit. The book rooms like the educational institutions at Sackville, were not started to make money, but to do good and conserve the interest of the church.

THE LADIES.

Where Did You Get That Suit?

D. A. Bruce Made It

"Well, that's the best-fitting and best-made suit of clothes I have ever seen in this city! I have heard they did the best work, and if that's a sample of it, they certainly do. I will try them for my next suit." This conversation might have been heard on one of our streets yesterday. The suit referred to is no better than any we turn out. We aim to make each one better than the one preceding. Sometimes we can and sometimes we can't. We keep on trying to excel—hence our success.

may be put down, but not in the matter of shoes, as they are a necessity to a tolerable footing. Our Black and Tans are the acme of summeriness, and are seasonable, reasonable, durable, satisfactory, agreeable, and really fancy in appearance, without being fancy in price. You can imagine nothing better or handsomer than our Black and Tans that show you what an ideal warm weather shoe ought to be. Decide now to treat your feet superbly this season, by encasing them in a pair of our Black and Tans, that won't make you conspicuous as a member of the Outs To buy from us is to buy cheap.

THE NO. 4 YOST.

In presenting to the public our No. 4 Machine, we feel that we have combined all the latest and best improvements of the most successful inventors and experienced mechanics.

The Carriage of this Machine contains many practical improvements, the usefulness of which will at once be apparent. Among those specially worthy of mention are the following:—

The new and improved Release Key, whereby the carriage can be released as well when raised as when lowered, and can be positively stopped at a given point without the allowance of a single space for momentum. This instantaneous stopping will undoubtedly be much appreciated by rapid operators.

A new arrangement for making Single, Double and Triple spaces.

A new and improved Paper Feed, which is admirable both for its simplicity and the impossibility of getting out of adjustment. A line can be written clear to the bottom of the paper.

Still another feature is the new Space Key, which has a Perpendicular Drop, the same as the rest of the keys.

Besides the improvements, this Machine and ains all the good points of our No. cont No. 2 Machines.

The speed of the Yost can be limited only by the ability of the operator to find and properly strike the keys. This we guarantee.

In other words, its mechanism is contrived to respond instantly to the touch of the operator by the adoption of certain expedients, by the use of which—

1st. The touch is soft and even, and the depression slight.

2nd. The carriage feeds immediately after the type leaves the paper.

3rd. The escapement is so arranged as to be perfect and uniform.

4th. There is no ribbon movement to require attention or consume power.

5th. The arrangement of the keyboard conduces to great speed.

6th. Rapidity does not affect the alignment.

The Yost is by far the cheapest Writing Machine, because it is the most economical in respect to Inking, Supplies, Repairs, Durability, Ease of Learning, Ease of Action, Size, Weight, Beauty of Work, Speed, etc.
