The Only Alternative

## CIMN Radio

CIMN is PEI's only campus/community radio station and one of UPEI's largest student organizations. We operate from 9:00am to midnight, 7 days a week throughout the academic school year. Our alternative format ensures that we will always be a fresh and exciting option to local commercial radio. On CIMN you'll hear a mix great contemporary artists who receive a cold shoulder from the mass media as well as music from today's popular artists. All styles of music are encouraged, everything from hardcore thrash to jazz.

### HOW TO TUNE IN

Since CIMN is only available on CABLE FM (104.5), you require a special hook-up to tune in to the Only Alternative. All the items you need can be purchased for a couple of dollars at any electronics store and you can hook it up yourself in a couple of

minutes. All you have to do is simply connect your Island Cablevision wire to the back of your FM tuner. (see diagram), set the dial to 104.5 fm and enjoy a refreshing change to local radio. For students living in Bernardine and Marion Halls no hook-up is necessary as we're available at 700 on the AM dial. GET INVOLVED!!

For CIMN to broadcast, we need your support. Volunteering with the Only Alternative is fun and easy. You can choose a shift that's convenient for you. In addition to regular music program, you can also help out with current affairs, news, production, or work on our programming guide. Don't worry, no experience is necessary, you provide the energy and enthusiasm, we'll provide the training. Drop by to see our studios on the third floor of the Barn, or give us a call at 566-0417.
