

The Daily Examiner AUGUST 21, 1885.

Small Pox.

WHEN a man moving in the position of Sir Francis Hincks dies of small-pox, it is pretty evident that the disease has made heavy inroads into Montreal; and whether or not vessels or steamers from Montreal should be quarantined, becomes a question of immediate vital importance.

At the present time we are totally unprepared for the attack of an epidemic disease of any kind. Our quarantine officer is, we regret to say it, very ill, and not likely to be able to resume his duties. No one has been appointed, temporarily, to take his place in case of need. Governor's Pond is a mass of stagnant, putrid, liquid, filth. Dead animals lie rotting promiscuously about our doors. Many sections of the town are in a filthy state. Some of our backyards and tenement houses are reeking with filth. Bad smells abound. Malignant typhoid fever is carrying off its victims. And, worse than all, we are, apparently, quite unconcerned!

Surely it is time to wake up when we see the most prominent citizens of a sister city snatched away because of the neglect of precautionary measures. Can we longer remain listless, careless, and unclean? Surely no more time will be lost before providing means to apply the quarantine regulations, at any moment their application may be deemed necessary, and cleansing the Governor's Pond and the filthy backyards.

Mount Stewart Political Meeting.

THE Conservatives of Mount Stewart have taken the manly course of calling a public political meeting, to which they have invited the strongest representative men of the Opposition. This is in striking contrast to the course pursued by the Grits at Marshfield, Belle Creek, Mount Stewart and Clifton. It is to be hoped that the people who attended the Grit Picnic will also be present at the public meeting on Saturday. They will then see whether Mr. L. H. Davies will be able to sustain, in the face of his opponents, the statement made by him at the meeting at Clifton, on Wednesday evening last, that Sir John, assisted by Dr. Jenkins, had disfranchised the young men of this Island, and given the wild Indians the right to vote. The meeting takes place at one o'clock to-morrow afternoon.

Pictou is struggling with a "new Railway scheme." What the merits of the scheme are, we are not told. But New Glasgow fears that, if adopted, it will tend to her injury. The Eastern Chronicle says:

"The new railway scheme if we understand it proposes to make Pictou the terminus for the P. E. Island boats, to operate the Eastern extension from Stellarton instead of New Glasgow, as at present. To take away the ferry across the harbor, to remove the workshops and offices to Stellarton and to convert New Glasgow into a way station on the Eastern road. All the above is not openly asserted, but is, no doubt, aimed at. Is it any wonder then that the citizens of New Glasgow are alarmed. The success of such a scheme would very materially effect the future prosperity of our town and is not to be tamely submitted to. New Glasgow is now the chief market of a large surrounding country whose interests are identical with those of the town. The recent rapid growth of this town and the establishment of so many important factories in this vicinity has largely aided in increasing the wealth and prosperity of the farming population both east and west, and any scheme which will retard its progress will injure the surrounding country. The country districts of east Pictou are beginning to see that by aiding to build up New Glasgow they are directly benefiting themselves and that any blow struck at this town must result in injury to them."

It is worthy of remark that the Eastern Chronicle, which is very strongly Grit, thinks the scheme will injure New Glasgow and also the farmers near it, because the important factories established under the National Policy will, if it be carried out, be placed at a disadvantage.

Few people have any idea of the enormous annual loss to the country through the destruction of property by fire, a loss that is absolute, representing wealth completely blotted out of existence. The New York Commercial Bulletin, in an estimate of the damage by fire in Canada and the United States during July last, places it at \$9,000,000, an increase of one-third over the usual record for that month in other years. One hundred and seventy-three cases are mentioned where the loss was over \$10,000; there were eighteen large fires where \$3,700,000 worth was destroyed. During the seven months of the present year, the Bulletin thinks the fire loss has been \$60,000,000.

According to statistics just published the stream of emigration from Germany has been steadily decreasing within the last few years, though it still remains stronger and deeper than in the period between 1873 and 1880. For example, in the first six months of the current year the total number of emigrants was 65,345, as compared with 90,301, with 94,145, with 117,801, and with 126,139 in the same sections of 1884, 1883, 1882, and 1881 respectively.

Sewerage.

MR. GAMBLE'S OPINIONS.

"WHETHER a complete system of sewerage in connection with a system of Water Works is necessary?" is a question asked by our correspondent "Citizen." This question was put to Mr. Gamble while here. Mr. Gamble said sewerage was not absolutely necessary, but eventually it must follow the introduction of water works. With water works, water closets would come into general use, and in a city of over 1100 of a population, each family using one hundred gallons a day (which is above the average), a proper system of sewerage would be necessary. However, at the present time, our soil being porous, would absorb any ordinary quantity of surplus water.

The cost of supplying Charlottetown with an efficient system of sewerage, Mr. Gamble states, would be small. Wages here are low, the streets are easily dug, and sewer pipes are cheap. A good system of sewerage could be laid in this city for about \$30,000, and Mr. Gamble would be anxious to get the contract for that figure.

The Rifle.

In the list of prizes at the Provincial Meeting, published last week, several mistakes occur: In the Active Militia Match Major Dogherty scored 33 points instead of 28; and Pte. Darke scored 38 instead of 28. Pte. D. Stewart is a waiting man on the Ottawa team instead of Gunner D. Stewart. The following match was omitted:

Table with columns: Name, Points, Total. Includes Active Militia Match, No. 2, and various individual scores.

The first prize in the All-comers Match was given by Daily Patriot.

The first prize in Nursery Match was given by Dr. Jenkins.

The first prize in the Active Militia, No. 1, was given by the Brigade Major.

First and second prizes in Active Militia, No. 2, was given by the Bank of Nova Scotia and Merchants Bank P. E. I.

Active Militia Match, No. 3 (\$20), given by the Lieut. Governor, with \$50 added by Association; and first prize in Consolation Match by DAILY EXAMINER.

AGGREGATE GOVERNOR-GENERAL'S MEDALS. Laidowne Silver Medal—Sapper Davison, Eng., 143 points.

Laidowne Bronze Medal—Corporal Gillis, No. 5, G. A., 136 points.

GRAND AGGREGATE. P. R. A. Silver Medal—Sapper Davison, Eng., 170 points.

Barrel of Patent Flour, presented by Lieut. E. A. Smith, 71st Batt., N. B.—Corporal Gillis, No. 5, G. A., 160 points.

Temperance at Marshfield.

On the evening of the 20th inst., at the request of Rev. A. W. Mahon, Rev. J. Shenton gave one of his very popular temperance lectures to a large and intelligent audience that assembled in Mr. Mahon's Church, at St. Peter's Road. Men and women interested in the temperance work came from Little York, Suffolk Road, French Fort, etc., to hear Mr. Shenton.

J. A. Lawson was chosen Chairman. The meeting was opened by the choir singing "Rescue the Perishing," and Rev. J. S. Phinney engaging in prayer.

The Chairman then introduced Mr. Shenton who spoke for an hour and a half in his usual eloquent way, treating the subject in a practical manner, thereby interesting and instructing his hearers during the delivery of his lecture.

At the close, on motion of H. McLeod, Esq., seconded by Hon. R. Munn, a hearty vote of thanks was tendered to the Rev. Lecturer for his instructive lecture, to which he made a suitable reply.

After some practical remarks by the Chairman J. A. Lawson, Grand Worthy Chief, assisted by Hon. D. Ferguson, Rev. Mr. Shenton and Brehaut, then instituted a Lodge of Good Templars to be called Union Lodge, No. 24, with a charter membership of 57.

The Lodge starts under favorable circumstances, having a noble band of men and women who are determined, with God's help, to defend their homes against the rum traffic.

The following are the officers installed for the quarter ending 31st October:—

- W. C. Tr.—Ed. Lane.
W. V. Tr.—Mary McLeod.
Secretary—Isaac Jay.
Fin. Secretary—Hector Darrach.
Treasurer—George Tweedy.
Chaplain—Rev. Mr. Mahon.
Marshal—Frederick Mills.
I. G.—George A. Stewart.
O. G.—John Ferguson.
A. S.—Peter Robertson.
D. M.—Herbert McLeod.
R. S.—Miss Hannah Robertson.
L. D.—Mrs. J. Jay.
P. W. C.—Allan Stewart.
L. D.—Isaac Crosby.

OIL ON TROUBLED WATERS.—The steamer Polynesia, now in port at New York, was struck by a cyclone on the 19th instant, about 900 miles from Sandy Hook. Her captain says he never saw such terrific waves. The steamer's decks were swept, and one or two seamen injured. There was danger at one time that the vessel would go down with all on board. She carried 250 steerage passengers. The captain concluded to try the effects of oil. A tank of paint oil was placed on the starboard side and allowed to leak out. The effect was marvellous. The oil spread for a considerable space around the ship, and the waves quieted right down. The cyclone lasted eight hours.

Figs are worth 12 cents cash and 13 cents for goods at R. K. Bracco's. aug 21

Sir Francis Hincks.

Sir Francis Hincks was the youngest son of the late Rev. Dr. Hincks, Professor of Oriental Languages in the Royal Belfast Institution, and brother of the late Rev. Edward Hincks, D. D., Rector of Killyleagh, who was well known by his writings on subjects connected with Egyptian, Persian and Assyrian archeology. He was born in the city of Cork, 14th December, 1807, was educated at the Royal Belfast Institution, and was twice married—his first wife being an Irish lady, who died in 1874, and his second Emily Louisa, relict of Hon. Justice Sullivan, of Toronto. He founded in 1839 the Toronto Examiner, a Reform journal, which he edited for several years; and in 1844 the Montreal Pilot, also devoted to the interests of the Reform party, of which he was for many years chief political writer. He was a member of the Executive Council and Inspector General of Canada from June, 1842, to November, 1843, when he retired from the Government with his political chiefs, Messrs. Lafontaine and Baldwin, but held the same office again, first, from March, 1848, to October, 1851, in the cabinet of Messrs. Lafontaine and Baldwin, and, secondly, from the latter date to September, 1854, in the Hincks-Morin administration, of which he was leader. Sir Francis visited Washington on several occasions to confer with the British minister on trade relations between Canada and the United States, and was selected by the Earl of Elgin to accompany him as representative of Canada when he negotiated the Reciprocity Treaty of 1854; was a delegate to the Maritime Provinces in 1852 on the subject of the Intercolonial Railway, and in the same year was a delegate to the Imperial Government to urge the repeal of the Clergy Reserves Act, and the grant of a guarantee for the Intercolonial Railway, during which visit he made the preliminary arrangements with Messrs. Peto, Brassey, Betts & Jackson which resulted in the construction of the Grand Trunk Railway by English capitalists. He was Governor-in-Chief of Barbados and the Windward Islands from 1855 to 1862, and Governor of British Guiana from the latter date till 1869. He was created a Companion of the Order of the Bath in 1862, and a Knight Commander of the Order of St. Michael and St. George in 1869. Sir Francis was first returned to the old Canadian Assembly for Oxford in 1841, representing that constituency for some three years, when he was defeated. In 1851 he was again elected, and in 1855 was returned for South Oxford, and for Renfrew, but he chose to accept the latter seat, which he filled until he temporarily retired from Canadian public life by accepting an appointment from the Imperial Government. On again accepting office in Canada, he was returned for North Renfrew in the Commons, October, 1869, which he represented till the close of Parliament, when he was returned for Vancouver, for which he sat until his final retirement at the general election of 1874. Sir Francis was Finance Minister of Canada from October, 1869, until February, 1873, when he resigned, to be succeeded by Sir Leonard Tilley. He served in the Ontario Boundary Commission with Chief Justice Harrison and Sir Edward Thornton in 1878, and was prominently identified with Canadian matters on both sides of the Atlantic close up to the hour of his death.

Rt. Rev. Peter McIntyre.

(From the Montreal Herald.)

The twenty-fifth anniversary of the accession of the Right Rev. Peter McIntyre to the Bishopric of Charlottetown was celebrated in the capital of Prince Edward Island with great rejoicings, not by the Catholics of the Province alone, but by Protestants. Bishop McIntyre is deservedly one of the most popular men in the Province. While zealous and indefatigable in furthering the interests of his church, his urbanity and kindness of heart have won for him hosts of friends amongst Protestants of all denominations. The venerable Bishop is a native of the island. He has in the last twenty five years done as much as any one man could possibly do to improve the religious and the social condition of the people under his care. As an administrator he has but few equals. The number of institutions, educational and maintained is, considering the means at his disposal, really wonderful.

One Against Three.

AN IRATE FARMER WHIPS THREE TRAMPS BEFORE A DELIGHTED AUDIENCE.

The residence of Nosh Lockable, on a farm near Brown's Valley, Ind., was entered by tramps on Sunday night, the 16th inst. Lockable was awakened by the noise, sprang from his bed and closed with the one in the room. The burglar was reinforced by two others. Mr. Lockable is a powerful man, and flung the captured burglar against the two others in such a manner as to bring the three to the floor. Then he went at them with a club. His wife brought the clothes line, and together they bound the tramps, sat down and waited for them to recover. When the tramps regained consciousness, Mr. Lockable asked them which they preferred, to be taken to Crawfordsville and placed in jail, where they stood a chance of several years in the penitentiary, or to be led out, one at a time, and receive such a whipping as he would administer. They chose the latter, and the farmer took them out severally, tied them to the gatepost and administered 100 lashes to each tramp with a large new rawhide wagon whip. Each stroke of the whip raised a huge welt on the back of the tramp, and when the operation was completed a pool of blood could be seen where they had stood. Their piteous cries for mercy called in the neighbors until quite a little audience had assembled to witness the castigation of tramp No. 3. As all sympathized with the irate farmer, the performance went on until he had completed the 100 lashes.

The reason why "Myrtle Navy" tobacco has taken so strong a hold upon the smoking community is because it is the genuine article. No man has a desire to smoke anything else than tobacco. Even opium is not smoked for the pleasure of smoking it but for its soporific effects. The desire for tobacco is, of course, best satisfied by getting the pure article, and when to this is added the finest quality the satisfaction is complete. These two things are combined in the "Myrtle Navy."

CHARLOTTETOWN WOOLEN MILLS RUNNING NIGHT AND DAY! Immense Discounts! Great Reductions! Splendid Bargains!

AS WE ARE ABOUT CHANGING our Mill from Summer to Winter Tweeds, we will dispose of 10,000 yards of SUMMER TWEEDS, now on hand, at cost of stock and manufacturing same.
