

Red Influence Described In Negro Movement

WASHINGTON (AP)—FBI Director J. Edgar Hoover says "Communist influence does exist in the Negro movement" and could play an important role in swaying masses without their realizing it.

In a closed session of a House of Representatives appropriations subcommittee, Hoover was also described what he said are efforts by the Communists to recruit American students to their views.

In Jan. 20 testimony made public Tuesday, Hoover said the Communist party tries to expand its influence among Negroes and, particularly, has "sought ways and means to exploit the militant forces of the Negro civil rights movement."

The party, Hoover said, tries to use "what are often legitimate Negro complaints and grievances for the advancement of Communist objectives."
