Mr. G. O. ARCHIBALD'S CASE.

Didn't Walk for 5 Months.
Doctors said Locomotor Ataxia.

Milburn's Heart and Nerve Pills
Cure a Disease hitherto regarded as incurable.

The case of Mr. G. O. Archibald, of Hopewell Cape, N.B., (a cut of whom appears below), is one of the severest and most intractable that has ever been

reported from the eastern provinces, and his cure by Milburn's Heart and Nerve Pills the more remarkable from the fact that he was given up as incurable by worthy and respected physicians.

The disease, Locomotor Ataxia, with which Mr. Archibald was afflicted is considered the most obstinate and incurable disease of the nervous system known. When once it starts it gradually but surely progresses, paralyzing the lower extremities and rendering its victim helpless and hopeless, enduring the indescribable agony of seeing himself die by inches.

That Milburn's Heart and Nerve Pills can cure thoroughly and completely a disease of such severity ought to encourage those whose disorders are not so serious to try this remedy.

The following is Mr. Archibald's letter:

Messrs. T. MILBURN & Co.—"I can assure you that my case was a very severe one, and had it not been for the use of Milburn's Heart and Nerve Pills I do not believe I would be alive to-day. I do not know, exactly, what was the cause of the disease, but it gradually affected my legs, until I was unable to walk hardly any for five months.

"I was under the care of Dr. Morse, of Melrose, who said I had Locomotor Ataxia, and gave me up as incurable.

"Dr. Solomon, a well-known physician of Boston, told me that nothing could be done for me. Every one who came to visit me thought I never could get better.

"I saw Milburn's Heart and Nerve Pills advertised and thought I would try them anyway, as they gave more promise of helping me than anything I knew of. "If you had seen me when I started taking those wonderful pills—not able to get out of my room, and I saw me now, working hard every day, you wouldn't know me.

"I am agent for P. O. Vickey, of Augusta Maine, and have sold 300 subscribers in 80 days and won a fifty dollar prize.

"Nothing else in the world saved me but those pills, and I do not think they have an equal anywhere.

"The seven boxes I took have restored me the full use of my legs and given me strength and energy and better health than I have enjoyed in a long time."

G. O. ARCHIBALD.

Hopewell Cape, N. B.

In addition to the statement by Mr. Archibald, we have the endorsement of two well-known merchants of Hopewell Cape, N. B., viz.: Messrs. J. E. Dickson and P. J. Brewster, who certify to the genuineness and accuracy of the facts as given above.

Milburn's Heart and Nerve Pills are 50c. a box, or 3 for \$1.25, at all druggists, or sent by mail. T. Milburn & Co., Toronto, Ont.

Le Sunlight Savon ne durcit ni fait Rétrécir les Flanelles

Ce sont les ingrédients injurieux et les aduérations dans les savons communs qui détruisent votre linge. Ce sont les aduérations qui durcissent vos flanelles, et c'est l'excès d'alcali qui les détruit et les fait rétrécir. Le

Sunlight Savon

ne contient ni aduération ni excès d'alcali. Il est simplement un composé de graisses et d'huiles pures saponifiées. C'est pourquoi il lave si bien votre linge dans l'eau dure ou douce sans l'injurier.
Tous les marchands sont autorisés à vous rembourser votre prix d'achat si vous avez lieu de vous en plaindre.

FOR all Americans there is an unfolding interest in the scenes and places of that historic little country that gave us our laws, our language, our story, our customs that have made us what we are, and whose agency to us and in common with whom we claim the crown of Shakespeare, the laws of Alfred, and the dominant instinct of that Saxon lineage which wins and conquers and subdues by processes known to us two alone: the American and the British. And as the centuries have passed England has grown nearer to us. She is no longer a far-off land of which we have only heard. The first voyagers of those who made America, and made it English, completed their journey and perished weeks. It required two centuries to reduce that time to one-half. Now our green shores and the white cliffs of Abbeys lie less than one week apart, and for thirty years we have talked with England under the sun in a common language, about common interests. To go and to return is an incident of daily life. The Saxon, English and American, travels more than any other man, and with a stouter purpose to see, to know and to appreciate. England and America exchange visits every year in the person of thousands of individuals. The British finds with us brighter skies, and higher mountains, and larger rivers, and broader lakes, and taller trees, and more stupendous waterfalls than his islands know. And for the old, the stories, the historic, we go to him. What he has in a sense our own. It is a hand-made and a time-mellowed beauty: for us the beauty of history and association, ours as well as his. We give him stupendous nature dotted with new cities that seem old enough to us. He gives us the story of our common race written in piled stones and chiseling fry, representing the toil and hope of centuries; a toil and hope which we inherited, and whose memorials are also ours.
