Mr. Montgomery complained that the New Brunswick Potato Marketing Board did not call on all growers for potatoes. He mentioned a case where one grower had signed up, is still left with 50 percent of his 1953 crop. He felt potatoes should be marketed by the boards on a quota basis comparable to the quota marketing of wheat in Western Canada. The New Brunswick member did not believe that potato growers of Ontario had suffered losses through competition with potatoes from the Maritime Provinces.  
Mr. McCubbin said that Ontario did not have a Potato Marketing Board of its own, and that he had complaints that potatoes from the Maritime Provinces had been coming in and depressing the Ontario market. He felt it would be a good thing for Ontario to set up such a board.  
Mr. McCubbin told of visiting North Carolina lately and noted that 85 percent of seed potatoes used there come from Prince Edward Island. This, he said, speaks well for the growers of that province.

### Stresses Role of Amateur Radio In Civil Defence

That amateur radio broadcasting can play an important part in the Civil Defence of this province was discussed at the regular monthly meeting of the Keith Rogers Memorial Radio Club, held in their headquarters, 3 Grafton Street, last evening. The members of the club were very enthusiastic concerning the possible introduction of this province of Civil Defence Communications through the medium of ham radio operators.  
Speaker for the evening, Lt.-Col. P. S. Fielding, Civil Defence Coordinator for this province who was received and introduced by Mr. Walter Hyndman, outlined generally the organization of such communications, now established in many centers throughout Canada and the United States. He also stated that the greatest part of the unit could play in time of emergency, would be communications concerning evacuation of casualties and refugees from outside centers.  
In a discussion period which followed, it was pointed out that in previous wars, the geographical position of the Island had lured the enemy to a state of laxity.  
"The next war will be more devastating," said the Colonel. "The discussion also brought out the fact that there are in the neighborhood of 25 amateur stations scattered throughout the province, all of which could be of invaluable assistance in case of emergency.  
As an actual demonstration of amateur radio work, messages were sent out to the different stations such as Coaticumack and Kensington. The highlight of the evening was when Col. Fielding was taken for a drive in a radio equipped car and allowed to carry on conversation with the station at the Club headquarters.  
The committee in charge of Civil Defence at the station is comprised of Messrs. Ed. Garhum, V.E.T.E. and Fulton Proud, BEKKZ.  
Father Joseph Paquet, formerly from Souris and now from the United States, was guest at the meeting.

### Nationalist China Warship Seizes Russian Tanker

TAIPEH, Formosa, (AP) — Nationalist China announced today that one of its warships seized the Russian tanker Tsuape Wednesday off Formosa, and indicated the vessel and its cargo might be confiscated.  
The 8,840-ton Danish-built tanker was being held at the South Formosa port of Kaohsiung, the announcement said.  
Word that the Tsuape was in nationalist hands came hours after the Soviet Union, in a staff note made public in Moscow earlier today, accused the United States of seizing the tanker.  
**TAKE MEASURES**  
The Soviet note said the Tsuape was seized in waters between Formosa and the Philippines "by a warship of the destroyer type" which threatened to open fire.  
The note threatened "appropriate measures for safeguarding the security of Soviet merchant ships sailing in that area."  
In announcing that the tanker was in custody, the Nationalist said tersely that the matter was being disposed of, "indicating the Tsuape might be confiscated, as was two ships to which Poland claims title."  
The Nationalist said the Tsuape was carrying oil to the "Communist bandit" port of Shanghai on the Red-held mainland in violation of a United Nations embargo on such shipments.  
The announcement said only that the Tsuape was seized while violating Nationalist China's port-closure policy or blockade of the China coast.

### Investors Unshaken By Investment Talk

OTTAWA, (CP)—Talk of recession has left investors unshaken. A mid-year survey, made public Friday, shows they're determined to pour a record \$5,826,000,000 into expansion of the Canadian economy this year.  
This is just \$12,000,000 less than the \$5,838,000,000 forecast by the trade department at the beginning of the year, and \$147,000,000 higher than the previous record of \$5,686,000,000 in 1953.  
Federal experts had some fears of whether the original forecast would be fulfilled in view of a dip in the Canadian economy earlier this year and the recession in the United States.

### Activities At Experimental Farm

The first week of summer was a busy one for workers at the Experimental Farm, who stored 90 tons of grass silage, filling both silos at the Farm and partially filling another at the Upton Station.  
The seeding season, which was somewhat delayed because of a prevailing risk of frost last week, is nearing an end with the setting out of tomato and flower plants.  
As usual, destructive beetles, plants and diseases have made an appearance. D.D.T. dusting has started to protect crops which are attacked by the flea beetle, a particularly prevalent insect this year. Spraying with 2,4.D. to prevent the mustard plant from seeding in grain and potato fields has also commenced.  
Field husbandry representative W. N. Black states that a severe drought existed in the Magdalen Islands when he visited there recently. It is quite probable that the recent rainfall has relieved this condition somewhat.  
Farm Supervisor R. C. Parant is accompanied by Messrs. G. W. Boswell, J. W. G. Nicholson and B. F. Tinney are attending the Agricultural Institute of Canada annual meeting which is being held at McDonald College, St. Anne de Bellevue, P.Q.
