WEATHER

Sunny and very warm; southwesterly winds 20 with gusts to 45. Low-high 45 and 68.

"Covers Prince Edward Island Like The Dew"

Simpsons-Sears To Build New Store In City

A new Simpson-Sears Ltd. store will be constructed on the old Kent Street site, it was announced yesterday by Charlottetown manager William L. Hamby.

Tenders for the three-storey building will be called almost immediately and it is hoped to have work underway within three weeks.

No details as to cost or type of structure were revealed.

The old store was destroyed in a \$300,000 fire last April 1962.

The new store which will incorporate the latest in merchandising facilities will contain the same number of departments as the old.

Milk Donated To Storm Area

OTTAWA (CP)—The government will give 1,150,000 pounds of surplus milk to the Caribbean areas hit by hurricane Flora. Agriculture Minister Haslam announced Wednesday in the Commons.

The government previously announced a \$20,000 cash contribution.

Pearson Hopes For Agreement On Loan Fund

By JOSEPH MACSWENEY
OTTAWA (CP)—Prime Minister Pearson told the Commons Wednesday he hopes that all 10 provinces will sign a shortly announced agreement with the federal government on the administration of the Municipal Loan Fund.

He told Louis-Joseph Pigeon (PC—Joliette—l'Assomption-Montreal) that there has been an exchange of views between the two levels of government on a draft agreement.

Minister Gordon told Antonio Belanger (Crested-Charlevoix) that a similar agreement was applied to the Quebec government Oct. 18.

"I have every expectation that the province of Quebec will find it satisfactory and sign it shortly."

The \$400,000 fund was the subject of a dispute last summer between the federal and Quebec governments and also a federal-provincial conference.

Gov't Is Silent On Wire Tapping

OTTAWA (CP)—The government declined Wednesday to say whether any of its departments or the RCMP have equipment which is "used for the tapping of telephone wires."

Secretary of State J. W. Pickershill told David Ouellet (NDP—Winnipeg North) in a written Commons exchange that the government follows the practice of previous governments in declining to answer on grounds it would be contrary to the public interest.

Minister Denies Move To End Ship Subsidy

OTTAWA (CP)—Agriculture Minister Harold Wilson said Wednesday that there is no intention on the part of the federal government to cancel the subsidy on the P.E.I. fishery.

Mr. Wilson said the Maritime Commission and his department are currently reviewing the current estimates of the amount of \$280,000 for the subsidy for the 1963-64 fiscal year, the same amount that was paid in the 1962-63 fiscal year.

Mr. Wilson said the Maritime Commission and his department are currently reviewing the current estimates of the amount of \$280,000 for the subsidy for the 1963-64 fiscal year, the same amount that was paid in the 1962-63 fiscal year.

Strike Action Tolerated At Local Firm Today

By DON MACLEOD
ST. JOHN'S (CP)—The Maritime Union of Workers (M.U.W.) is scheduled to begin a 24-hour strike at the P.E.I. firm of MacLean's Limited plant on Monday morning at 6:30 a.m.

Members of the local employment at the plant will form a picket line and carry placards. The plant normally opens for work at 7 a.m. and the picket line is expected to form about 6:30 a.m.

Next, the union requested the department to supervise a strike vote among members of 118 members of the local—about 100 were involved.

A union spokesman said last night that other members of the union, not employed at P.E.I., will probably be on hand in the morning to offer support to the strikers.

The spokesman said that the strike may go on for some time, at least until the union sees it through.

Negotiations on a working agreement between the company and the union broke down Wednesday.

Peace Hopes Are Dimmed

ALGERS (Reuters)—Peace hopes for the Algerian-Moroccan conflict were dimmed Wednesday night by fresh reports of fighting.

It was the first time since Tuesday that President Ahmed Ben Bella had agreed to meet King Hassan II of Morocco for peace talks at a place and date to be agreed.

But a Moroccan news agency reported Wednesday night that Moroccan forces in Ain Tanazzar, in northeast Morocco along the disputed frontier, had resumed their offensive.

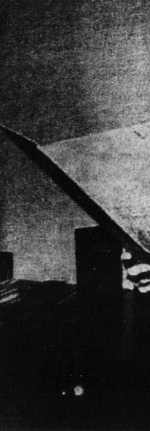

The agency did not say when the attack occurred or give any details of the fighting.

Meanwhile, Ethiopia's Emperor Haile Selassie left Addis Ababa for Tunis, Selassie has been attempting mediation along with the Arab nations.

"It is a very good thing to be," he said.

Federal Trustees' Powder Action In S.U.

Five Union Leaders Summoned To Ottawa

LABOR MINISTER McEACHEN REVIEWS DOCUMENTS AS HE PREPARES THE GOVERNMENT'S NEXT MOVE IN THE DISPUTE WITH THE SEAFARERS' INTERNATIONAL UNION

Back To Work Hint Is Heard

TORONTO (CP)—The Toronto port agent of the Seafarers' International Union (I.U.) said Wednesday the union will comply with trusteeship legislation proclaimed earlier in Ottawa.

"I guess we will have to obey it," William Glasgow said in an interview after being informed the legislation had become law. "It's our intention to obey the legislation."

Shortly before, seamen in the Toronto area had voted to stay off their ships in protest against the government-imposed trusteeship over the maritime union.

Mr. Glasgow declined to say whether the statement indicated a return to work. He also declined to expand on the statement.

"Our decision was that if there were any new developments we would hold another meeting and we will have one as soon as possible," he said.

UN Observes 18th Birthday

UNITED NATIONS (CP)—The United Nations celebrated its 18th birthday today in what General Assembly President Carlos Sosa-Rodriguez and Secretary-General U Thant described as an atmosphere of diminished international tensions.

"Today, 18 years after that historic hour when the foundations of the United Nations were laid, a new spirit of optimism pervades the debates of this world parliament," Sosa-Rodriguez said in a message.

"The partial test, but treaty has opened the door to further progress. I hope—more meaningful steps in the direction of peace and disarmament."

Silent As Seamen Await New Directive

MONTREAL (CP)—Some 400 seamen milled around a meeting of the three federal maritime trustees Wednesday night, wondering what was going to happen next.

One seaman in the crowd at the meeting of the three federal maritime trustees Wednesday night was over.

The general walkout of SIU members through Eastern Canada, begun last weekend in protest against the trusteeship plan, continued. Latest reports indicated at least 91 inland cargo vessels and harbor craft were idle in St. Lawrence River and Great Lakes and Atlantic coast ports.

No SIU crews have left ships in west coast ports.

"One seaman in the crowd at the SIU hall said 'I guess there's nothing to do now but collect our pay and go home. That's what quite a few of the boys have done already.'"

The SIU claims a membership of 15,000 but there has been no reliable estimate of the number of men who have actually left their ships.

Union Leaders In U.S. Cautious In Comment

By HAROLD MORRISON
WASHINGTON (CP)—Paul Hall, president of the Seafarers' International Union of North America, told the news of Canada's trusteeship action against maritime union calmly but sadly Wednesday.

"We had hoped for the best but expected the worst," said Hall.

"I don't know what will happen now. There are a variety of courses open to us, but the labor department declared anti-Canadian and meeting in Canadian affairs. But you can see the Ottawa Canadian sailors are the greatest in the world."

HEADQUARTERS SILENT

But the headquarters of the AFL-CIO, to which the parent SIU is affiliated, and the U.S. labor department declined any specific comment on the Canadian government proclamation during an annual trusteeship over five Canadian maritime unions.

Albert Zack, AFL-CIO public relations director, said George Meany, AFL-CIO president, had made his views on the trusteeship clear and they apply now. Zack said.

On Oct. 16, Meany said any government control over trade unions "is absolutely intolerable."

Hurricane Drifts Towards Florida

MIAMI, Fla. (AP)—Hurricane Ginny hovered Monday 100 miles offshore most of Wednesday and then resumed a poky advance toward Florida's east coast, shorn of some of her fury.

An evening advisory from the U.S. weather bureau said Ginny, barely a hurricane with winds of 75 miles an hour in squalls, was centered 115 miles east of Cape Canaveral, heading southwestward at seven miles an hour and likely to continue so all night.

Forecasters from Cape Canaveral south to Fort Lauderdale were on hurricane watch.

Forecasters said that despite the storm's continued drift toward Florida, hurricane warnings were not being issued because of Ginny's lessened intensity and the uncertainty of her future movement. The storm was being watched closely for any development that would warrant a hurricane warning.

Ginny's gales extended 300 miles to the north and 100 miles to the south of her center.

Ginny's hurricane status was questioned by observers at Jacksonville. Navy hurricane hunters there said it was estimated from inspection of sea turbulence that Ginny dropped late Wednesday to 50 miles an hour peak strength and a Jacksonville meteorologist said that was probably right. But the

U.S. Opens Probe On York Pricing

NEW YORK (AP)—A federal grand jury Wednesday launched an antitrust investigation of the U.S. steel industry, with emphasis on pricing practices.

Executives in many fields eyed the investigation, hoping it would turn out to be routine and not of a nature that might prove harassing to business in general. The subpoenaing of 10 big steel producers apparently took the industry by surprise.

On Wall Street, steels appeared to be weathered Tuesday's price selling when news of the grand jury inquiry sent steel prices tumbling. But the selling in industry stocks rebounded Wednesday, although some gains later were trimmed.
