NEW YORK

NEW YORK (CP) — Stock prices declined sharply Tuesday, under profit taking. A late recovery pared some of the worst losses.

The selloff swept most sections—chemicals, steels, motors, rubbers, rails, coppers, oils, tobaccos and electrical equipment. Some drugs and selected issues bucked the trend. The Associated Press average lost $1.90 to close at $228.

A factor in the decline, some brokers said, was a discussion at the White House on a proposed increase in the 4¼-per-cent interest rate ceiling on long-term government bonds. However, the bond market reacted to this news with only a moderate loss in prices.

Canadian losers included McIntyre Porcupine, Granby Mining Dome Mines and Canadian Pacific. Aluminium Ltd. erased a loss to close unchanged. Hudson Bay Mining added ¼.

Canadian shares on the American exchange were mostly unchanged or lower with Fargo Oil off 3-16 and Preston East Dome and Canadian Marconi each ¼ lower.

Keen Competition Seen By CPR Head

HALIFAX (CP) — CPR President N. R. Crump said here Monday that Canada faces a period of keen competition that will demand "ever - increasing efficiency in the production of goods and services at competitive prices."

Mr. Crump told the Rotary Club "We face a period of intensified competition in world trade arising from the increased productive output of the United Kingdom and Western Europe.

"No longer can we take it for granted that demand stemming from the era of postwar austerity across the Atlantic will continue to provide a dynamic stimulus to Canadian trade."

Mr. Crump said he is confident ". . .we shall not fail in reaching the high goals of achievement which we have set for ourselves." One of the foundations for confidence "is our belief as a people in the dynamic resiliency of the profit and loss system . . . .Another is found in our continuing faith in that system of political freedom which we call responsible government."

He added:

"Unless we establish firmly in our minds the relationship between the profit and loss system and progress itself, the drift towards state capitalism will tend to obliterate many of the economic freedoms we now take for granted. . . ."

He said Canada's transportation business is "highly competitive . .No.. longer can it be said that the railways have a monopoly of overland transport. Our country's transportation needs are now served . . . by rail, air, water, highways and pipeline."

Text of Mr. Crump's speech was released to the press prior to delivery.
