How many people to the gallon?

Many thousands of Canadians have a part in making a gallon of Esso available for your car.

About 12,000 of them are employed by Imperial. Some search for new oil fields; some move oil from producing fields to refineries where others make it into Esso and hundreds of other useful products; still others see to it that these are on hand wherever you want them.

Then there are almost 10,000 independent business men who, as Imperial dealers, supply you with our products.

And there are the many thousands of people who derive part of their livelihood from making and transporting the things that Imperial uses in its operations. Last year we bought equipment and supplies from more than 3,000 Canadian firms.

But those are not all.

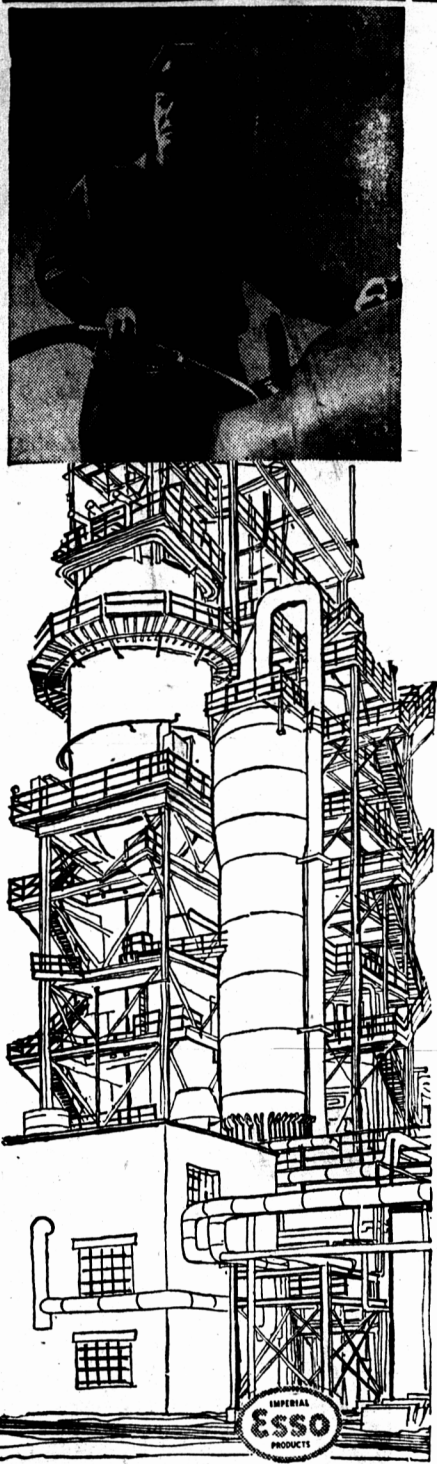

About 70,000 Canadian residents are shareholders in Imperial or owners of Imperial bonds.

And there are more thousands who have an investment in Imperial through their bank deposits or their insurance policies, because a number of Canada's banks and insurance companies have put some of their clients' money to work to help us do our job.

Finding oil and bringing it to you in the kind of products you need is a big job, a job that requires the skills and the savings of many thousands of Canadians.

Bringing you oil is a big job and a costly one

About Canada's Oil - On its 1949 manufacturing and marketing operations Imperial earned a profit equivalent to less than three-quarters of a cent a gallon for each gallon of product sold. Imperial's investment in plant and equipment is equivalent to more than \$19,000 for each employee. The wholesale price of gasoline has increased only a third as much as the average wholesale price of all commodities over the past 10 years.

Grain

WINNIPEG, April 24 - (CP) - Oats and barley, which opened slowly, took on added activity near the close of trading today on Winnipeg Grain Exchange. Both grains moved narrowly and registered an easier tone. Fair American shipper buying came into oats and U. S. houses also bought barley and rye. Class two wheat, for export to countries other than the United Kingdom, dropped one cent. There was no information on any export transactions. Blame Weather, Careless Handling

MONTREAL, April 23 - (CP) - Shipping officials here today blamed careless handling overseas and rough Atlantic weather for damage done to several Czechoslovakian cars imported to Canada recently. However, Randall Cotton, Montreal automobile importer, said he is still convinced the autos had been sabotaged either in Rotterdam where they were shipped on two freighters or on the high seas en route to Saint John, N. B. Officials of one of the shipping companies carrying the cars said they were "very doubtful" concerning the sabotage possibility. "The ships had very heavy going all the way out and one had to be drydocked for repairs before making the return trip," they said. They explained the cars were carefully checked in Europe before being placed on the ships.
