DAILY MARKET QUOTATIONS

SUMMARY

By THE CANADIAN PRESS

Toronto: Market higher; extremely heavy trading.

New York: Market mixed to higher; irregular rise.

Montreal: Market fractionally higher; active trading.

Toronto: Hog prices: Grade A 34.85 - 25.85 closing at 25.75; heavy sows 19.05.

NEW YORK

NEW YORK (AP)—The stock market advanced Monday for the fourth straight session. Averages again posted historic highs. Trading was heavy.

Coppers recovered from their scare selling of Friday. Profit taking continued among airlines. Electronics staged a late rally.

The list had a scrambled appearance during the entire session. Gains in the market averages were accounted for by selective strength among blue chips. Union Carbide rose 7¾, Woolworth 1⅝, Southern Pacific ¾, American Smelting ¾ and Texaco ½.

A drop of 1¼ by American Telephone featured a spotty utility section. A. T. and T.'s mammoth $1,250,000,000 stock offering came to an end and trading ceased in rights to subscribe to the stock.

Coppers responded in lively fashion to a published report quoting the Chilean ambassador as saying his government is strongly opposed to nationalization of coppermines or to increase taxes on the mines.

AVERAGE ADVANCES

The Dow Jones industrial average advanced 1.77 to a new high of 824.76.

The Associated Press average of 60 stocks rose .8 to a record of 304.1.

Fairchild Camera, spurred by news that it has developed a home television tape recorder, opened late under an accumulation of buy orders and was the most active stock up 1¾ at 39¼ on 93,100 shares. Anaconda, which has large holdings in Chile, rose 1 to 43¾ on 92,500 shares.

All big three motors dropped fractions. Jones and Laughlin, up 1¼, was a conspicuous gainer in the ragged steel group.

Among Canadian stocks, Hudson Bay Mining was up 2¾ at the close, and Canadian Pacific was ahead ⅞. Distillers Seagrams advanced a point and Dome Mines and Granby Mining were down ⅝.

An irregularly higher trend prevailed on the American Stock Exchange. Scurry Rainbow Oil was up ¼ and Jupiter Corp. ⅛. Brazilian Traction and Canadian Javelin lost ⅛.

TORONTO

TORONTO (CP) — The stock market moved through a day of extremely heavy trading and heady price increases.

Trading early in the session was hectic and forced the ticker to remain 10 minutes behind schedule for 45 minutes or so. Trading in speculative produced most of the volume, but selected industrials took a back seat to none.

Three of the Exchange's five hourly - produced indexes reached new highs at the close in the heaviest volume since Sept. 12, 1962.

Industrials were paced by banks, liquors, foods and utilities.

In banks, Imperial Bank of Commerce and Toronto-Dominion rose ⅝ and ¾ respectively to 62½ and 62¾. Royal rose ½ to 73¾, Nova Scotia ⅝ to 68¾ and Montreal ⅝ to 64.

Liquors also showed strength with Canadian Breweries and John Labatt both ahead ⅛ to 10 and 19⅛ respectively. Alberta Distillers was unchanged at $3.80 on the day, but traded 10,600 shares on news that the firm's president has recommended to shareholders that they accept the $4 a share offer for their stock by National Distillers and Chemical Corp.

In papers, Abitibi gained ⅛ to 14, and Price Brothers rose to a new high of 42 with a gain of ½.

Speculative action featured those stocks that have led the penny market in the last few sessions.

Zulapa was the day's most heavily traded issue with 708,895 shares turning over. The stock gained seven cents to 52 cents. Other active speculative issues were American Leduc, down eight cents to 37 cents on 399,250 shares, Calvert, down two cents to 64 cents on 87,000 shares, and Consolidated Marbenor, ahead 28 cents to $2.60 on 79,630 shares.

The senior base metals list was strong. Falconbridge rose ⅞ to a new high of 69⅜, while Noranda gained 1⅛ to 46⅝. Hudson Bay Mining advanced ⅝ to 69½.

In golds, Hollinger and Giant Yellowknife gained ¼ and ½ to 31½ and 11¼ respectively. Dome, however, dropped ⅝ to 28.

The 77-stock industrial index reached a record high of 148.71 with a gain of .77, while the 113-stock Exchange index duplicated its feat with a rise of .73 to 139.35. Previous highs were set in 1964 high by gaining 1.26 to 89.67. Golds rose .17 to 133.28 and base metals .16 to 68.06.

Volume was 8,543,000 shares compared with 8,068,000 shares traded Friday.

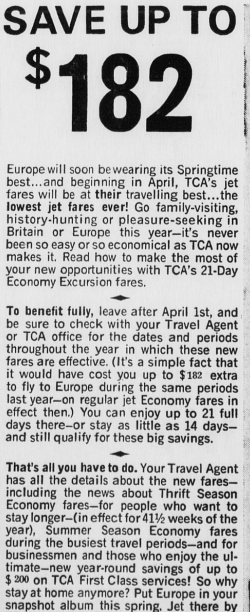
LET TCA FLY YOU TO 21 HAPPY DAYS IN BRITAIN OR EUROPE

SAVE UP TO $182

Europe will soon be wearing its Springtime best...and beginning in April, TCA's jet fares will be at their travelling best...the lowest jet fares ever! On family-visiting, history-hunting or pleasure-seeking in Britain or Europe this year—it's never been so easy or so economical as TCA now makes it. Read how to make the most of your new opportunities with TCA's 21-Day Economy Excursion fares.

To benefit fully, leave after April 1st, and be sure to check with your Travel Agent or TCA office for the dates and periods throughout the year in which these new fares are effective. (It's a simple fact that it would have cost you $182 extra to fly to Europe during the same periods last year—on regular jet Economy fares in effect then.) You can enjoy up to 21 full days there—or stay as little as 14 days—and still qualify for these big savings.

That's all you have to do. Your Travel Agent has all the details about the new fares—including the news about Thrift Season Economy fares—for people who want to stay longer—(in effect for 41½ weeks of the year). Summer Season Economy fares during the busiest travel periods—and for businessmen and those who enjoy the ultimate—new year-round savings of up to $200 on TCA First Class services! So why stay at home anymore? Put Europe in your snapshot album this spring. Jet there by TCA (or to Britain by TCA or BOAC) while the year is still young!



HERE IS THE PROOF! ALL FARES SHOWN ALLOW YOU A FULL 21-DAY JET ECONOMY EXCURSION

from Moncton (via Halifax)

LONDON	PARIS	VIENNA
$299.50	$346.90	$439.30

Ask about TCA's Fly Now-Pay Later Plan: just 10% down on your fare and your expenses, on an organized tour of Britain and Europe. Up to 24 months to pay the balance.

AN ULTRA-MODERN TIRE

available for the first time in the most popular price range

HAMILTON, ONTARIO — Excessive high speed driving, worn brakes, worn shock absorbers and other mechanical faults are responsible for most accidents, it was maintained here today. In fact almost all accidents are due to driver error, not mechanical failure, it was announced by the new Nylon seventy-mile-an-hour Safety Champion. Mr. C. M. Taylor, President, Dominion Rubber Company of Canada, Limited, stated the extent of human error in accidents when he said: "Driving is a human activity. Almost through in tire development. Never before, and I say this with all sincerity, have our engineers been able to offer the motorist such a wide variety of tires, each one designed to meet a particular driving need."

MILLION DOLLAR RESEARCH STUDY

Mr. Taylor said that 90% of fatal accidents are due to driver failures. Leading the list are faulty brakes, steering and suspension failures. Driving habits, such as shock absorbers and other mechanical faults also contribute. Most tire failures are caused by underinflation, running over curbs, hitting holes in the pavement, jackrabbit starts and stops, and avoidable wear on the tires themselves.

Explaining why dry rot and fabric breakdown can occur in relatively new tires, Mr. Taylor said that tires can reach 250 degrees Fahrenheit in temperatures of only 90 degrees. And, he added, your tires travel only 3 miles per hour faster than the speed limit, they could drive you 100 miles in an hour, or 2,400 miles in a day. Think about it: 2,400 miles in a day! Your tires would be subjected to 80 eighty miles an hour speeds for 30 minutes or more. Does you know how long it takes to take care of your tires? Do you know how to recognize and correct the most common driving habits that cause tire failure? Do you know how to detect and correct improper inflation? Do you know how to recognize and correct improper alignment? Do you know how to recognize and correct improper balance? Do you know how to recognize and correct improper tire rotation?
