BUDGET PROVIDES FOR LARGE EXPENDITURE INCREASES

Estimates Boosted For All Major Departments Of Gov't

A \$150 per year increase for all school teachers, increases in training loans and scholarship grants, in school-book subventions and grants for rural school improvements, were indicated in the budget speech delivered in the Legislature last evening by Hon. W. E. Darby.

Agriculture will receive an increase of nearly \$32,000 for extension of field supervision services, grants to exhibitors, bonus on limestone and veterinary assistance, the Minister indicated.

Other increases will provide for further expenditures on farm improvement services and fisheries promotion in the Department of Industry and Natural Resources; for paving the Borden and Wood Islands ends of the Trans-Canada Highway and other capital expenditures totalling \$1,992,000 in the Highways Department; for increased grants to Charlottetown and the municipalities; for erection of a new treatment centre and nurses' home at Falconwood; for increased grants to hospitals, and other services in health and welfare.

Death Yesterday of Mr. J. P. Crockett

The Late Mr. Crockett

Mr. J. P. Crockett, president of the firm of Crockett and Storey, Limited, suddenly passed away yesterday in his home at North River Road after a lingering illness. Mr. Crockett, one of the city's most prominent business men was in his 72nd year.

A native of Cape Traverse, he was the son of the late Mr. and Mrs. James Crockett, who was formerly Miss Elizabeth Platts. In his early youth he was employed at Turner's Store in O'Leary, and two years later left for Summerside where he had been offered a position with R. T. Holman Ltd. Later he was promoted to the position of manager of the Summerside branch of the firm.

Mr. Crockett was transferred to the Charlottetown branch of Holman's Store in 1923 where he later became manager. In 1936 Mr. Crockett started in business for himself at 175 Queen Street, and ten years later formed the firm of Crockett and Storey Limited with L.L. Col. J. Frank Storey.

Twice married, Mr. Crockett is survived by his last wife, the former Mrs. Jeanette MacLean. His first wife the former Jean Bell, predeceased him by approximately seven years. There is no family of either union.

A past president of the Charlottetown branch of the P.E.I. Potato Marketing Board which had been chartered by private industry in the province.

The court said that the board had no power to carry on inter-provincial and export trade under the federal act since it was a provincial body and under the constitution was not under the power of parliament or the federal government.

The finding threatened the existence of other provincial marketing boards across the country. The board along with the C.F.A. decided to appeal the finding. The bill was passed by parliament in 1949.

To Test Marketing Act In Court On April 28

OTTAWA, March 31 — (CP) — The strength of the Federal Government's Agricultural Products Marketing Act will be tested before the Supreme Court of Canada April 28 next, the Canadian Federation of Agriculture announced today.

The legislation, under which certain provincial producer marketing boards are empowered to deal in interprovincial and export trade, has been ruled invalid by the Prince Edward Island Supreme Court.

The provincial court found against the P.E.I. Potato Marketing Board which had been chartered by private industry in the province.

The court said that the board had no power to carry on inter-provincial and export trade under the federal act since it was a provincial body and under the constitution was not under the power of parliament or the federal government.

The finding threatened the existence of other provincial marketing boards across the country. The board along with the C.F.A. decided to appeal the finding. The bill was passed by parliament in 1949.

Improvement Forecast In Building Supplies

OTTAWA, March 31 — (CP) — The Federal Government predicted today that an improvement in Canada's building-material supplies this year will permit completion of "practically all" planned construction.

The prediction was made in a report signed by M.W. Sharp, associate deputy minister of trade and commerce, and tabled in the commons by Trade Minister Howe.

The report said supply of most building materials will increase during the year and there should be sufficient material to permit the realization of the two to three per cent volume increase in the construction program indicated by a survey of investment intentions.

But, the report said, the survey of investment probably does not represent the full potential demand and availability of certain materials will continue to act as a limiting factor.

A companion report on planned public and private investment in 1952 predicted a construction program totalling \$2,900,000,000. This was eight per cent more than 1951, but the report said that allowing for increased prices, the volume increase was actually about three per cent more than 1951.

UK Closes Door On Canadian Cheese

Expect Gov't To Announce New Support Program

OTTAWA, March 31 — (CP) — The Federal Government, moving to avert a crack-up in the cheese market, is expected to announce shortly a new support program for Cheddar, it was learned tonight.

The federal support price, which will range about last year's 28 cents a pound, will be lower than current demands by producers for a boost of several cents a pound to prevent a plunge by the market.

This was disclosed in informed quarters after announcement in London by the British Food Minister, Gwilym Lloyd George, that a shortage of dollars will prevent Britain, for the first time in many years, from purchasing cheese from Canada.

The announcement was received with keen disappointment by Ottawa officials.

Ontario cheese producers last year completed a deal with Britain covering some 20,000,000 pounds at approximately 32 cents a pound, four cents above the federal support price.

This year the United Kingdom market is gone; the United States has restrictions on cheese imports and there are prospects of increased production in Canada because of the U. S. embargo on Canadian dairy cattle. The surplus, informants estimated, is likely to climb to more than 30,000,000 pounds.

There is no alternative market to the United Kingdom in sight, but there is hope in Ottawa that a drop in the price of cheese will lead to greater home consumption.

Meanwhile, steps are afoot to reach some kind of informal agreement with New Zealand to discourage shipments to Canada of low-priced New Zealand cheese into the Canadian market.

Mr. J. P. Crockett, president of the firm of Crockett and Storey, Limited, suddenly passed away yesterday in his home at North River Road after a lingering illness. Mr. Crockett, one of the city's most prominent business men was in his 72nd year.

A native of Cape Traverse, he was the son of the late Mr. and Mrs. James Crockett, who was formerly Miss Elizabeth Platts. In his early youth he was employed at Turner's Store in O'Leary, and two years later left for Summerside where he had been offered a position with R. T. Holman Ltd. Later he was promoted to the position of manager of the Summerside branch of the firm.

Mr. Crockett was transferred to the Charlottetown branch of Holman's Store in 1923 where he later became manager. In 1936 Mr. Crockett started in business for himself at 175 Queen Street, and ten years later formed the firm of Crockett and Storey Limited with L.L. Col. J. Frank Storey.

Twice married, Mr. Crockett is survived by his last wife, the former Mrs. Jeanette MacLean. His first wife the former Jean Bell, predeceased him by approximately seven years. There is no family of either union.

The court said that the board had no power to carry on inter-provincial and export trade under the federal act since it was a provincial body and under the constitution was not under the power of parliament or the federal government.

The finding threatened the existence of other provincial marketing boards across the country. The board along with the C.F.A. decided to appeal the finding. The bill was passed by parliament in 1949.

Body Of Island Man Found In Canal

MONTREAL, March 31 — (CP) — The body of Emerson Dunsford, 32, a native of Cornwall, P. E. I., was found in the Lachine Canal Sunday. Identification was made through papers found on his person. It was not known how the body came to be in the canal.

News In Brief

MUNSAN, Korea, April 1 — (Tuesday) — (AP) — The Allies will reply today to a Communist proposal for higher-level discussions on the hot issue of Russia as a member of a neutral Korean armistice inspection team.

HALIFAX, March 31 — (CP) — Transport Minister Chevrier arrived here by plane tonight to officiate at the opening of Halifax's new pier three tomorrow.

OTTAWA, March 31 — (CP) — Stanley Woodward, United States Ambassador to Canada, said today he is confident President Truman's program of foreign relations will be maintained by whoever succeeds him as President of the United States in the November elections.

CAIRO, March 31 — (AP) — A blast and blaze today ripped an Egyptian army desert ammunition depot. No one was reported killed. The Army and Navy Ministry said the explosion occurred in one of several caves used for storing ammunition at Wadi Hoff, about 30 miles south of Cairo.

Tito Annoyed By Trieste Deal

BELGRADE, March 31 — (Reuters) — Tito today whipped up his legislature and people over the "Western injustice" of attempting to settle the Trieste crisis without Yugoslav participation.

As 200,000 citizens swarmed in the city centre, Tito told parliament and radio audiences that Britain, the United States and France "are giving in to Italian Fascist elements."

He said the attitude of Britain and the U. S., who have called a London conference for Thursday to give Italians more say in the administration of the Allied zone of the Free Territory, has lost them Yugoslav sympathy.

Polio Outbreak At Tatamagouche

OTTAWA, March 31 — (CP) — Two Federal Health Department doctors have been dispatched by air to Tatamagouche, N.S., to help provincial authorities fight an outbreak of infantile paralysis in that village.

Health Minister Martin said 12 cases so far have been diagnosed as polio.

He said the two Health Department doctors would make investigations in conjunction with provincial authorities. The Schools of Science at the Universities of Toronto and Montreal have been asked to stand by to make tests.

Test Operation Of New High Power Line Today

The Maritime Electric Company's new high tension power line from Charlottetown to the R.C.A.F. station at Summerside has now been completed and power will be turned on in an initial test operation at two o'clock this afternoon, it was announced by Company officials yesterday.

Commenced about two years ago, the new line and substation has cost in excess of \$200,000 and between twenty-five and forty men have been employed more or less continuously in its construction.

Forty miles in length, it represents a new venture in this Province as the Company had to cross over some 200 farms. "We had extraordinarily good cooperation from all the farmers along the way," Mr. V. A. Ainsworth, Company manager, reports.

In addition to the line itself, and in order to make it a working entity, a large substation had to be constructed here on Grafton Street, which contains transformers capable of stepping up power to 34,500 volts, equal to about 6,000 electrical horsepower. It also houses transformers from all the rural lines leaving Charlottetown.

At the far end of the R.C.A.F. station at Summerside there is a step-down transformer substation to bring the voltage down to the required 12,000 volts. Initially the station will take about 900 electrical horsepower.

The new line provides enough power, not only to serve the Air Force station but to provide for an extensive rural setup. While no definite plans have been made in this connection, Mr. Ainsworth states there will be ample supply should extensions be made into West Prince County.

He added that consideration is also being given to extend another line east towards Montague and Souris.

Stresses Gravity Of Mounting Debt Charges

The grave danger of this Province from a rapidly mounting debt when sources of taxation are now so limited was emphasized by Mr. R. R. Bell, Leader of the Opposition, when he rose in the Legislature last night to speak in the budget debate.

Mr. Bell stated that at present most of the taxes collected locally came from gasoline, liquor and cigarettes and they are already so heavily taxed he thought the limit had been reached.

In offering his congratulations on the speech to Hon. W. E. Darby, Provincial Treasurer, Mr. Bell stated that everyone knew it was not an easy thing to prepare and present a budget. "It takes a great deal of work and thought and ingenuity to make those figures look even a little better."

"The Minister warns us not to be alarmed," the Opposition Leader added; "but I think he is alarmed himself." He recalled Mr. Darby's remarks about the heavy debt charges which Mr. Bell said were at an all time high in spite of the surplus on ordinary accounts the Province is still going behind, he said, and he could see no hope for the future.

He reiterated his remarks during the debate on the Draft Address that the only possible chance

W. A. Stewart To Head C.P.'s Montreal Bureau

MONTREAL, March 31 — (CP) — Appointment of William A. Stewart, 38, as chief of Montreal bureau and supervisor of service in Quebec Province is announced today by the Canadian Press.

Stewart will take over April 13 from Alvin Randal, Montreal bureau chief for the last five years. Randal moves to the news staff of a CP member, the Montreal Gazette.

At the same time, George Kitchen, a native Montrealeur and a senior member of CP's Ottawa parliamentary staff, is appointed to Montreal staff as assistant chief of bureau.

The moves involve three veteran newspaper men, all still under 40, who have amassed an aggregate of 57 years CP service. Stewart, a bilingual native of Riviere du Loup, comes to Montreal after more than four years as bureau chief in Quebec City. He joined CP as a junior editor at Halifax in 1934, served as staff correspondent at Sydney and Charlottetown, and in 1941 was assigned to London bureau, beginning six years of foreign service.

As a war correspondent he went to Sicily in midsummer of 1943 to cover the 1st Canadian Division. He crossed to Italy and moved up the Adriatic before being recalled to England in 1944 to help cover the cross-channel invasion and the northwest European campaign.

Canadian Dollar At New 17-Year High At New York

NEW YORK, March 31 — (AP) — The Canadian dollar was quoted here today at a premium slightly higher than 1-1/2 cents—its highest price in more than 17 years.

The exact premium at the close of trading was 1-17/32 cents. This means that the Canadian dollar, in the eyes of exchange traders, was worth \$1.01 17/32 in U. S. money.

Various reasons for today's rise were cited by New York traders. Considerable buying of Canadian currency by European and Dominion investors was the one most frequently given.

Jobless In U. S. Drop To Low Level

WASHINGTON, March 31 — (AP) — Jobless in the United States dropped this month to the lowest March level since the Second World War. The Census Bureau reported that only 1,804,000 persons were looking for work, or 2.9 per cent of the entire civilian labor force. The total of job holders was 59,714,000 down 38,000 from February. Unemployment declined by 282,000.

See Taft's Presidential Bid In Balance Today

(By Jack Bell)

MILWAUKEE, March 31 — (AP) — Senator Robert Taft's presidential bid hangs in the balance tomorrow when about 750,000 Republican-voting Wisconsin citizens step into polling booths.

With a 1,000,000-vote total forecast, Democrats scrambled feverishly today for their expected one-fourth share in a race where Senator Estes Kefauver of Tennessee is regarded as top runner.

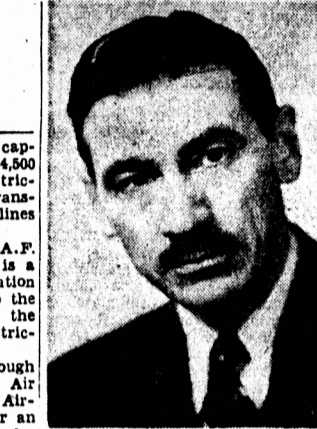

Damp weather predicted for the whole state tomorrow could cut somewhat the voter turnout in a contest to name 36 Democrats and 30 Republican delegates to party nominating conventions at Chicago in July. The Democratic delegates carry 28 votes.

Taft, buffeted by defeat at the hands of General Eisenhower in New Hampshire, and his own attempted withdrawal from the April 15 New Jersey primary, is staking his position in the Republican presidential race largely on the Wisconsin outcome.

Although Eisenhower, his chief opponent, is not on the ballot, former Governor Harold Stassen of Minnesota has offered to share with the General one-half of any delegate votes he wins here, and state running for Governor Earl Warren of California has said it will back Eisenhower if Warren can't make the nomination grade.

A fourth state, running under the name of Grant Ritter of Missouri, is supporting General MacArthur despite the latter's reiteration that he isn't a candidate. Perry J. Stearns, Milwaukee lawyer running for himself, heads a fifth group.

Taft said any win will be a victory but observers here think he will have to win big—getting near a majority of the Republican votes, cast—if he wants to retrieve prestige.

Hon. W. E. Darby

Angry Debate On Estimates In Commons

OTTAWA, March 31 — (CP) — Charges of "blackmail" were hurled at the government again today as an angry commons resumed study of last-minute government appropriations for the current fiscal year. A new year starts tomorrow.

J. M. Macdonnell (PC — Toronto Greenwood) financial critic for the Progressive Conservative Opposition, accused the cabinet of an "outrageous attempt" to prevent members of parliament from "doing their plain duty" in scrutinizing the \$246,000,000 the government is seeking.

His complaint, made against a background of Liberal jeers, was a revival of a battle which developed Friday when George Drew, Progressive Conservative leader, clashed with government leaders over the late hour at which the estimates were introduced for consideration.

Later, after 5 1/2 hours of slow plodding debate, the estimates were carried, but two late for passage tonight by the senate. The upper chamber waited all evening, their rose at 10:30 P.M. It will consider the appropriations tomorrow.

Mr. Macdonnell suggested the estimates — the tag-end of government expenditures for the fiscal year — would have to be passed at "machine-gun" speed, with virtually no consideration, if cheques for federal civil servants were to go out on time.

The responsibility for the delay in mailing the cheques, he said, will rest with the government and not with parliament, as Finance Minister Abbott has suggested Friday night. The estimates include authorization covering the salaries of some government departments.

In the uproar, Trade Minister Howe suggested Mr. Macdonnell was "completely out of order" — the chamber was on an item dealing with civilian war pensions — and that the whole situation was "absolutely intolerable." It was the "greatest breach of rules" he had seen in his 17 years in the Commons.

Another Debt Increase Of \$1,296,276 Is Forecast With Ordinary Surplus Of \$367,399

A surplus on ordinary account of \$367,399 and a further debt increase of \$1,296,276 was estimated for the fiscal year 1952-53 by Hon. W. E. Darby, Provincial Treasurer, in his budget address in the Legislature last evening. The total net liabilities of the Province as at March 31, 1953, he forecast at \$1,817,487.

The budget provides for substantially increased amounts for agriculture, industrial development, highways and public works, education, hospital grants, mental health and other welfare services.

There will be no increase in taxation rates and no new taxes imposed, Mr. Darby promised. The sinking fund appropriation of \$563,273, he added, is high enough to adequately service the debt and in accordance with the best financial practices.

While conceding that the overall debt was a heavy load on less than one hundred thousand people, the Minister said that the revenues, if maintained over the next five years at the current level of \$7,300,000, can properly provide for a reasonably adequate continuance of public services and at the same time maintain a comfortable margin.

This was predicated on keeping further capital projects at a minimum, and of exercising strict economy in all branches of governmental activity.

"Granted that the debt is mounting, as I stated in my budget speech of last year," Mr. Darby said; "but financial institutions and the investing public must still have confidence that our financial position is sound. This is evidenced by the high rating this Province received on the United States financial market in our sale of a recent debenture issue, which was comparable to that of the wealthy Province of Ontario."

The comparative position of debt to revenue, he pointed out, is still

Floods Damage Medicine Hat

MEDICINE HAT, Alta., March 31 — (CP) — Flood waters still ravaged low-lying areas of this Southeastern Alberta city tonight. Civic authorities speculated the flood repair bill will be \$50,000 to \$100,000.

Officials said unless the weather turns colder "the worst is yet to come."

With little fall yet noted in the record flow of the rampaging Seven Persons Creek, another disastrous night was anticipated in this city of 16,000.

New Line Of Cancer Research Is Suggested

By Alton L. Blakestre

WASHINGTON, March 31 — (AP) — Acute leukemia in children may be caused by a mystery organ in the chest, the thymus, a government cancer scientist reported today.

He suggested also a startling new idea—that cancer can be caused by something which healthy cells do to their neighbors. The healthy cells stay unaffected after doing their dirty work, under his theory.

Dr. Lloyd W. Law of the National Cancer Institute described the findings today at nearby Bethesda, Md., to newspapermen.

He finds that the thymus may start acute leukemia, the blood cancer that most often hits children. The disease brings too many white blood cells, but the thymus itself stays healthy.

Dr. Law discovered this in mice. The mice rarely get leukemia if the thymus is removed early in life. But taking out the thymus after leukemia developed did no good.

"The discovery doesn't offer a cure or control for human leukemia right now. It wouldn't help to take out the thymus of leukemic children. And it would be too risky to take the thymus out of all babies."

In young humans, the thymus is about the size of a silver dollar, but fatter. Later in life, it shrinks. What it does, no one knows. But it
