

LOCAL AND OTHER MATTERS.

THE PUBLIC TEMPERANCE Meeting by the Grand Division on Thursday evening next.

THE "MICHIGAN LINE" is about to place a steamer on the route between St. John and Portland, in connection with the Grand Trunk Railway.

CLASS OF NAMES.—The inhabitants of Sheep River and Higgins' Road, have decided that their locality shall hereafter be known by the name "Victoria West."

ELECTION CAMPAIGN.—It is reported that Sir John A. McDonald, Gibbs and Tupper are at Toronto making arrangements for the campaign of the general elections in Ontario—soon to take place.

FAHLEN.—The Ottawa Citizen reports that Robert McCreedy, one of the contractors on the Intercolonial, has failed for a large amount. His brother, Thomas McCreedy, of Quebec, will lose some \$50,000 by it.

PRESBYTERIAN.—Rev. W. J. Ancient, of Trinity Church, Halifax, was recently presented by the ladies of his congregation, with an elegant black silk gown. Mr. Ancient was the hero of the Atlantic disaster.

ROBERTSON.—It is reported that a pedlar named Charles Graham was on the night of the 29th, while on his way from Little Sand to Charlottetown, set on by two men, threatened, and robbed of \$125. Has the law no power in this island?

PERSONAL.—J. H. Fletcher, Esq., of the P. E. Island, is to be in town on the 12th December for the purpose of delivering a lecture in Fairville. A good lecture may be expected from the Editor of our wide-awake contemporary.—St. John News.

TRADE.—Trade has been active the past week. The results of the country were in excellent condition, and large quantities of produce have been drawn to market. The railway, too, has been utilized to a small extent—about fifteen thousand bushels having been brought in by it. Prices have ruled firm at quotations.

WE call the attention of our readers to the advertisement in another column of the Hope Manufacturing Co. of New York, they advertise what is the most wonderful invention of the age, a first class Sewing Machine, with Table and Treadle complete for Ten Dollars. Read their advertisement headed "Wonderful." 1y

REBELLION.—The Summerside Journal reports a case of burglary at the usually quiet village of Travellers Rest. It appears that on the evening of Sunday, the 15th inst., a gang of masked ruffians made their way into the public house there, laid hands on the frightened proprietress, and robbed her of about \$35. Has the law no terrors?

THE RAILWAY.—By advertisement in another column it will be seen that arrangements have been made by which our shippers will be enabled to avail themselves of the advantages of the railway, for the carrying of freight. The arrangement was made rather late in the day; nevertheless it will be a great accommodation should the shipping season be a protracted one.

ENTREPRENEUR.—The Summerside Journal is pleased to learn that a farmers' association has been organized for the purpose of transporting mussels mud by rail into the interior of the country. In addition to supplying themselves, they are prepared to sell in large quantities to their neighbors at reasonable rates. This is one of the benefits that we prophesied from the railroad, and hope, as we believe, that the enterprise will prove successful.

CORRUPTION IN ONTARIO.—A despatch to the St. John Telegraph reports—"The investigation into the charges brought against the Leader of the Opposition in the Ontario Assembly, by the Hon. A. McKeen, commenced to-day. The evidence taken showed that Lykert received \$150 for his influence, as a member of the Legislature, for promoting a street railway bill. Considerable excitement exists in reference to the matter, which is not lessened by the probability of the charges being proved."

THE STEAM DREDGE.—The Steam Dredge has been brought from Vernon River to Charlottetown. She will immediately be laid up for the winter. All her hands were discharged at noon on Saturday. They complain that, although hired by the month, they received no notice whatever of their discharge; that their pay was stopped for the two or three days which would have completed their month, and that they were not even allowed anything for a half day's service on Saturday. They bitterly complain of the shabby treatment of the Dominion Government, in whose employ they were. If their statement is correct, they were undoubtedly badly treated. We hope they may obtain redress.

CUSTOMS APPOINTMENTS.—The following list comprises the appointments recently made by the Dominion Government to the Customs Department of this Province:—

LOCAL AND OTHER MATTERS.

HISTORICAL SOCIETY.—A Historical Society has been formed in St. John, N. B., under the patronage of the Chief Justice of New Brunswick.

MASON BLANKS of this city, sold and shipped this week, to Mr. Dean, of St. John, N. B., 740 sheep. This is something like business.—Advertiser.

"MAN TRUCKS."—How many more months are to elapse ere the order of the City Council to take up the posts at our street corners is carried into effect? Are the officials waiting until another man is killed?

While Mr. Ronald McDonald, Black Point, Lot 47, was in the act of hitching his horse to his plough, on Thursday week, they started off, knocking him down, and the plough entering his abdomen, ripped him in a fearful manner. After he was released, he sprang to his feet, exclaiming "Oh! dear, I am a done man," and died immediately. Mr. McDonald was 45 years of age and unmarried. He was a sober, industrious man, and was very highly respected in the community in which he lived.—Argus.

In a special to the St. John Telegraph, (Nov. 21) it is reported, "The directors of the Cansuaga ship canal company have resolved to construct the canal at their own expense, without Government interference. The company has fixed its capital at five million dollars. Many of the wealthy men of Montreal have taken shares to the amount \$100,000 each. They expect to be able to recover the whole expenditure in a few years after the completion of the canal out of its revenues, and afterwards to pocket large dividends."

STATE GRANTS TO DENOMINATIONAL COLLEGES.—In the matter of State Grants to Educational establishments, of a denominational character, the various sections of the Presbyterian body, in the Lower Provinces, with a view to a union of the whole, hereafter to be known as the Presbyterian Church of Canada, have unanimously agreed to the following resolution:—"In the united church, the fullest forbearance shall be allowed, as to any difference of opinion which may exist, respecting the question of state grants to educational establishments of a denominational character."

ACCIDENT AT PORT HAWKESBURY.—As the barque "Kate McDonald," of P. E. Island, from Liverpool, G. B., was getting underway, in fishing the anchor of the block stop of the fish tackle broke and the anchor, weighing about seventeen hundred pounds came down on the thigh of one of the seamen named Frank Patterson, a native of Gotteburg, breaking the bone in two places and crushing it considerably. Dr. E. Bisset, under whose care he is, had him immediately removed on shore, and although suffering very much, his chance of recovery is favorable.—H. Citizen.

TRADE AND NEWS AT MONTAQUE BIDGE.—Our own correspondent writes (Nov. 27).—The Drig Aurora sailed from Montaque yesterday morning with about 2200 bush. of oats, and is going to complete her load at Georgetown. The schrs. Star, Tropic Bird, and three others, sailed for Halifax last evening. There are still five or six schrs. loading with oats, potatoes, meal, &c. Oats are selling at 48 cents per bush, and the merchants are storing a great quantity at that price. Several small schooners are engaged carrying oats from Montaque to the large vessels at Georgetown. Potatoes realize 20 cents per bush, and turnips 20 to 22 cents. Pork, by the carcass, 7 to 8 cents per lb, beef, 4 1/2 to 5c per lb. We hear that Mr. Davies' vessel finished loading at Murray Harbor yesterday; and the price of oats fell to 4 cents in that locality. No political changes since the new Collector of Customs was appointed.

Seven thousand bushels of oats were taken to Georgetown on the cars yesterday, and ten thousand were expected to-day. Success to "Pope's Horse"!—we can hear his go-ahead and business-like snort from Montaque.

The body of a man came ashore at White Sands a few days ago—dressed in heavy clothing and a suit of oil-clothes; and from the appearance of the corpse it is supposed that he was not long in the water.

[This is probably the body of Peter Chaisson, of Margaree, lost overboard from the schooner Alce on the night of the 23d inst. See our shipping reports—Euron Examiner.]

PEWEE READINGS.—Notwithstanding the frequent gusts of rain, and the exceedingly unpleasant state of the streets on Tuesday evening last, a tolerably fair audience was present at the Readings in St. Peter's Schoolroom. The programme was decidedly the best presented this season. The entertainment opened with a reading—"A night of terror"—in Mr. W. C. DesBrisay's usual forcible manner. Mr. Carman sang "Old England," in good style. The readings, "Prince Charles at Versailles," by Mr. Irving, and the "Tower of London," (being one of Mr. Ward's versatile letters to "Uncle") by Mr. Macgovern, were next in suite; a very pretty vocal duet, "Two Forest Nymphs," by Mrs. Strickland and Miss Stewart, received well merited applause. The Rev. Mr. Hodgson then read the "Rime of the ancient mariner," in a manner that brought home to the audience the miseries endured by that "albatross haunted" man. A song with chorus "Little Ethel," in which Miss G. DesBrisay, Miss E. Stewart Messrs. L. P. DesBrisay, and J. E. Hazard took part—Miss DesBrisay being the soloist—was very well rendered, and elicited a hearty round of applause. Mr. Ellis read an extract from "The Gilded Age," in his usual happy way and was followed by Mr. L. P. DesBrisay, who sang "The Golden Shore," the words and music of which are very happily adapted to each other. Prof. Earle then played, in superb style, the Andante movement from Haydn's "Symphony." The pleasure of listening to this performance was somewhat marred by the thoughtless behavior of some persons who, not caring for classical music themselves, and despite the complaints of the press at the late concert by the Band of the 8th Fusiliers, freely conversed throughout the piece, to the great annoyance of those who wished to hear and enjoy a really good performance.

These parties, however, received their due deserved rebuke from Mr. Earle, who regretted that he had interrupted their conversation. Mr. Shaw rendered Tenneyson's "Dora" in a style that would do credit to some professional readers, with many more pretensions. Mrs. Strickland sang a ballad song "Kathleen of Kildare," with sweetness and taste, every syllable being distinctly enunciated. Rev. Mr. Ellis followed with an extract from the first of "The two Puffblows," which was extremely ludicrous, and caused a hearty laugh. The evening's entertainment then closed with a song, "Alicia where art Thou?" by Mrs. Gregory, by particular request. It is needless to add this last was rendered in finished style.

LOCAL AND OTHER MATTERS.

THE ENGLISH MAIL will arrive this evening. DISCOVERY allowed at the Custom House on American invoices—ten per cent.

Remember the Tea in aid of St. James Church, in Market Hall, on Wednesday evening next. Tickets 50 cents.

PLANKWAYS.—The streets were very sloppy on Sunday, and the plankways recently laid down were fully appreciated. Further extension is, however, needed. The attention of our City Fathers is directed to the want of plankways and crossings on Grafton Street, east of Temperance Hall.

SEAMEN.—The schooner arrived at this port on Thursday morning last, and left again in the evening. The crew—detained by fog and rough weather—did not arrive till Thursday evening. She left on Saturday evening. The Flamborough and the Public arrived on Saturday and will leave to-day.

CUSTOMS RECEIPTS.—The Customs increase for five months since 30th June, as compared with corresponding period last year, will be at the end of this month, about \$82,000. For November, 1874, receipts will be over \$41,000 against \$17,219 for November, 1873.

RATES OF FREIGHT carried on the Nova Scotia Railway have been raised enormously. The British Colonist says:—"The new tariff is outrageous and unendurable. In the annual report of the honorable we protest against it. In the name of all the people of Nova Scotia we protest against it as a gross imposition, an act of deliberate Governmental tyranny."

Dr. Wheeler's Compound Elixir of Phosphates contains all the elements essential to cell-growth and the formation of the system. Dr. Dusart, a celebrated Physiologist, of Paris, says that "the Phosphates of Lime constitute an essential part of the functions of nutrition; in other words a nutritious—that it induces the albumenoid matter to assume the cellular shape, and that it controls the formation of tissues. When taken into the system more food is absorbed, and the weight of the body rapidly increases, owing to the transformation of albumenoid matter into muscular fibres." Sufferers from imperfect nutrition, as in scrofulous and tuberculous diseases, will derive immediate benefit from its use. For sale by all druggists
