

Says Rotary Has No Chance In Iraq

ST. ANDREWS, N. B. (CP)—Rotarians from the four Atlantic provinces and eastern Maine were told Tuesday it is unlikely any of the Arab nations would embrace Communism voluntarily.

June Term

Continued from page 1. The June term of the Supreme Court, presently sitting at the following report: "We inspected the Jail, and found the building in comparatively good state of repair, with minor maintenance required, such as fixing the kitchen ceiling with painting overall recommended. Covers should definitely be placed over open sewer traps, and steel tables should be removed from steel cells. It was reported that vegetables were not being received for the inmates and yet, according to information at Falconwood, they were available if requisitioned."

Impressive Re-Union Held By Men Of 105th Battalion

Comrade James S. Walker was elected President of the 105th Battalion Association which was established last evening following the first get-together of the Battalion since they boarded the Car Ferry at Charlottetown 37 years ago this morning en-route overseas.

In keeping with the occasion upwards of three hundred veterans of the Battalion made their first gesture of recognition to fallen comrades, by parading to the Soldiers' monument in Queen Square where the wreath bearers, Willis Nicholson and Matt Lee, placed their token in the hands of Col. G. E. Full, who reverently deposited it at the base of the monument.

The parade stepped off again down Grafton Street headed by the Recce Band under Bandmaster Tom MacFarlane, to Prince, to the old familiar tune to which their marching lines were set, "Who Are We Boys, We're the Hundred and Fifth; Marching, Marching to Fight Old Mother a Lie!"

Other officers elected to the Association were: Ira Brown, Vice-President; Queen's, Henry Bernard, Summerside; Prince, Ed. MacDonald, MacDonald; V. D. MacDonald, Treasurer; A. B. Cosh, Messrs. Dr. J. C. MacLellan and Roy Weatherlie were named as members of the Executive in the United States and Robert Dunn, Alberton for Prince County, Russell Nicholson, Hunter River, and Emmett Pierce, Souris, King's County.

A vote of thanks was extended to the Ladies' Auxiliary for the splendid dinner and accepted on behalf of Mrs. Ira Brown and Mrs. S. G. Peppin who con-vened the workers.

Admitted To Bar of Province

Mr. J. Elmer Blanchard (above) son of Dr. and Mrs. J.H. Blanchard, 114 Upper Queen Street was admitted to the Bar of this Province yesterday morning at the opening session of the Queen's County June term of the Supreme Court.

Mr. Justice Mark R. MacGuigan presided and congratulated the new member of the Bar as did Mr. Justice A. E. Arsenault, a retired member of the Supreme Court who returned to the Bench briefly.

Mr. Justice Arsenault noted the scholastic, athletic and military accomplishments of the young lawyer and expressed himself as being certain that the future would bring the proper rewards in Mr. Blanchard's life work.

Mr. Blanchard was born in Charlottetown on March 6, 1927 and received his primary education at the Model School and Queen Square General School. He won the Governor General's Medal at Q.S.S. and in the fall of 1942 entered Prince of Wales College.

He was class valedictorian when he graduated from P. W. C. in 1946 and in the fall of that year he entered Saint Dunstan's University from where he graduated in 1948 with a Bachelor of Arts Degree.

While in college he distinguished himself as a football and hockey player. He had no peer as a flying quarterback on the football field during his college days. In hockey he was a smart centreman and will be remembered as the pivotman on the Blanchard, Nicolle and Robertson line.

He was also interested in military affairs and while at St. Dunstan's took a C.O.T.C. training course. He trained at Valcartier, and Camp Borden and received his Commission in May, 1949. He had a short tour of duty with the Royal 22nd Regiment in 1949-50 and is now a Lieutenant with the P. E. I. Regiment.

He began his studies as a law student in 1948 and read law with Mr. H. P. MacPhee of the firm of MacPhee and Trainor. He will now practice law with that firm.

Strange But True

By F. H. MacArthur

The world's biggest diamond, the 3,106 carat Cullinan, was discovered when Fred Welles, Manager of the South African Premier mine gave a mighty yawn and struck the earth with his hand. Out popped the big gem.

Don't laugh when I tell you that fish become seasick just as humans do. Make this simple test and prove for yourself that truth is stranger than fiction. Create an artificial storm in the glass bowl containing your goldfish (this may be done by using an egg beater), and you'll have some really sick fish on your hands.

Many years ago at North River, a porker roamed the woods and fields, and rooted into dead leaves for beachnuts with his snout like an elephant trunk.

The so-called New World isn't as new as most of us think. In fact it is believed to be older geologically than Europe or Asia.

African housewives put out a pie that simply waters one's mouth, according to white men who have tasted this delight of the native communities. In case you want to try this pie here's the recipe:

Take sufficient banana flour to make one pie. Into this mix sweet white ans and cook till well browned. Serve cold to get that nice honey flavor.

People once did a lot of things we don't do in our day. People in many European centers once ate "sins". For a fee and by symbolic consumption of food and wine, the village "sin-eater" took upon himself all the sins of a deceased person. He didn't eat the "sins" gratis. There was a fee attached to the act. There always is a fee tacked on for what reason your guess is as good as mine.

Little Peter of Petersburg, Africa, was short in stature but very long in wives and children. Less than 3ft. tall, Peter had 10 wives and 37 children. Strange but True!

If you lift a guinea pig by its tail its eyes will drop out.

How often we hear parents say of their small children needing surgery, "Oh, dear me, if only he or she were a little older we wouldn't worry over it so much." Listen to the facts:

Babies stand up better under surgery than adults. A baby is a brand new mechanism, with all parts in good working order. The heart is strong, the tolerance to anaesthetics is excellent, and babies' flesh heals like magic.

So baby going up for surgery, it's the middle-aged and elderly persons who are the poor risks. Of course there are always exceptions, and this scribe remembers a patient in the Amsterdam City Hospital, N.Y., who underwent a successful operation for a hernia, at the age of 98.

Napoleon's gift to Josephine was a heart-shaped watch. That watch is now in a vault of the National 5th Ave. Bank, New York City, along with the watch that Mary, Queen of Scots, gave to her friend before she placed her head on the block.

These and other famous watches form a collection worth millions. Certainly the most curious of the lot is the coach watch once owned by Lord Nelson (the size of an old-fashioned alarm clock) which he passed on to Lady Hamilton at his death.

Although illness plagued Isaac Watts all of his 74 years, he was the Father of English Hymnody. The only places in the world where you can see flying snakes is Java and Malaysia. This species of snake makes its home in trees and can flatten itself out like a ribbon and zoom from tree to tree. When it wishes to drop to the ground it does so in spiral fashion.

Skeet Shooting Plans Made

A dozen gunners gathered last evening at the Y.M.C.A. to get the Charlottetown Skeet Club functioning for another season of shooting. A choice will be made shortly between two fields offered, for setting up the trap houses and another meeting will be held June 30th. It is proposed to lessen the cost of shooting by reducing the number of shots from 25 to 16 for making the circuit. New members are being enrolled, including some from Kensington and shooting will commence at an early date. Present officers of the club are President O. S. Harper, treasurer A. G. Hogan and secretary S. E. Green.

Ch'town Kinettes Elect Officers

The Charlottetown Kinettes held their last meetings for the year at the home of Mrs. Dan Rankin on Wednesday, June 10, with 16 members present. The business of the meeting was conducted by the president, Mrs. Roland Taylor. It was decided to purchase immediately chair swings for both St. Vincent's and Mt. Herbert Orphanages.

Election of officers for coming year was held with the following elected: President, Mrs. Percy MacDonald; vice-president, Mrs. Stewart Ives; secretary, Mrs. Ian Rankin; treasurer, Mrs. Olive Stewart; social committee: Mrs. Alf Cordell, Mrs. Keith MacKinnon, Mrs. Owen Lookyer.

Plans for peanut day were discussed. After adjournment tea was served.

Will Conduct Heavyweight Boxing Tourney

Every island boy or man weighing 175 pounds or more and having an interest in boxing will have a chance to fight for the Island Heavyweight Championship in July in a boxing tournament being staged by Stan Biggar, an ex-heavyweight champion.

Biggar is arranging the tournament in the hope that he may be able to unearth some unknown boxing talent throughout the province. The tournament is restricted to boxers who have not previously held any title and it seems likely that most of the contestants will be amateur fighters.

Biggar himself was the Island heavyweight champion back in 1937. He held the title about a year before retiring from the game.

His boxing tournament will be held on July 17 at North River. Anyone interested in entering should get in contact with Mr. Biggar as soon as possible.

Senator Jones Elected Head Of Holstein Breeders Ass'n

Senator J. Walter Jones was elected president of the Holstein Breeder's Association at their annual meeting held in the Vocational School yesterday.

The meeting, which was presided over by Mr. Parker Newson, King-ston, also named Mr. Max Thomp-son, Victoria, vice president, and Mr. C. J. Stewart of Hampshire secretary (re-elected). Appointed to the board of directors were Hud-son Lowther of Carleton, and Max Thompson, Victoria, for Prince County, Fred Aitken, Fortune and Charles MacDonald, Souris River, for King's, and Ira Lewis, York, C. J. Stewart, Senator Jones for Queens.

Mr. Lincoln Dewar spoke strongly in favor of lending assistance to the smaller class "B" fairs held throughout the Province. He said it would be a source of encourage-ment to the breeders of small herds or to those having herds of less superior quality to enter such competition. Souris Exhibition was granted \$50, Dundas Plovering Match \$50 and Alberton Exhibition \$100.

The \$50 bonus to first purchase bulls whose owners can show a prospective list of 50 services from at least five breeders for a period of two years, is to be continued, as well as the \$25 bonus to first female purchases. Females must be from R.O.P. dams or group plus \$6 and \$4 are to be the same, to winners in the senior and junior class at the Charlottetown exhibition. Calf club awards are to be \$5, \$4.

WERE going to concentrate on those "Very Important People"—the CHILDREN this morning, and if you have V.I.P.s in your home you'll be interested in all of these Store News items — School is practically over for the season and the costume for your girls will be SHORTS and "T" Shirts. The Youth Centre has a marvelous array of shorts and I have decided to "pick out" the good looking but tough and rough denims; they're in navy blue strongly doubletitched and with roomy pockets edged with smart, bright plaid—the turn-back cuffs on the legs are plaid too. These shorts in sizes 8 to 14, priced 1.98 a pair have a neat waistband and zipper back-closing. To mixmate the shorts—order of "T" Shirts are needed. I saw some of light, fluffy Terry Cloth in white and red or white and blue stripes. Closely ribbed waistband, neckband and sleeve bands assure neat fit. These "T" Shirts in sizes 8 to 14 are 1.79 each in the Youth Centre.

LET'S encourage our lagging summer by being all ready for days on the beach when the time does arrive! The Children really love big, bouncy BEACH BALLS and the 5 and 10 Department has a supply of these in different sizes priced 25, 65 and 95 cents each. They're inflatable and will stand lots of rough going! Bright multi-colors add to the fun. Then there are really super BEACH PAILS of heavy, solid rubber; they're made by Viceroy and are simply wonderful. A child falling on one won't get hurt, they're unbreakable and big enough to provide sand enough for a really fine "castle". These Pails are priced 89 cents and they're well worth it. You'll find them in the Toy Section of the 5 and 10 Department.

DON'T let the problem of SANDALS for the Children get you down. The Shoe Department has a large collection of elk Sandals in smart multicolors—pastels and dark shades. These have an ankle strap and foot vamp sections. The soles are of neoprene for long wear. Sizes range from a little 6 to a big 3 and the price is 2.95 a pair in the Shoe Department.

BRIGHT, gaily colored SUN HATS in the Western manner are to be found in the Boys' Shop. These are of peanut straw with cool ventilated crowns and ravel-proof binding on the brims. There's a silk cord chin strap and all the Western essentials that your young "Hopalong Cassidy" will demand. Buy him one today, the price is 79 cents in the Boys' Shop.

DON'T forget to pick up your copy of the Parents' Magazine sponsored "YOUR NEW BABY". It's available every month for FREE in the Youth Centre!

The law of the Middle Ages assumed that any man who walked the streets at night was bent on evil (which was probably true at that time because no street lights directed his course). Nowadays if one stays home, people are apt to say, "Suppose he's working on some secret project, or is a guy who stays home so much it's worth watching. I think."

This caddening about by the present generation has become such a habit that recently one little 4-year-old asked his mother, "Who is the man who comes here to sleep?"

The wisdom of dogs is borne out by this stranger than fiction story coming out of Mendon, Mass. Mrs. James Stimson said the jet be shepherd dog into the house because it was barking loudly. She said the animal made a beeline to a playpen and hauled Billie Jean to the yard.

Not until then did Mrs. Stimson learn that the back part of their home was on fire. She immediately went to their rooms and rescued her other two children. The home was badly gutted.

So, a German shepherd dog actually saved the lives of three children by being just smart.
