

# European Conception Seen Over Growing Economic Push

By ARCH MacKENZIE  
 WASHINGTON (CP) — There is growing recognition here that European apprehension about economic invasion is dividing the Atlantic community, perhaps as much as the political-military questions raised by President de Gaulle of France.

A conference convened in Geneva by the Atlantic Institute is another effort to see what can be done about this elephant-and-chicken relationship.

Representatives of blue-chip American corporations, including Du Pont of Canada, Alcan, International Nickel Company of Canada Ltd., Ford Motor Company and others, met in a conference which opened Sunday and continues till Wednesday.

You can draw trumps and cash the A-K-Q of hearts, and if the suit is divided favorably you can discard a diamond on the ace of hearts.

You know from past experience that the odds are against a favorable heart break—about three to two against. So you start looking for other ways of playing the hand which will

## Leukemia Case In Small Girl Appears In Arrested State

By FRANK CAREY  
 BETHESDA, Md. (AP) — You'd never guess that the bouncy blonde with sparkling blue eyes—who comes here once a month from Indiana on a rather special visit—isn't supposed to be alive.

Five-year-old Yvonne O'Bryan of Derby, Ind., is a victim of acute leukemia. But for some time now, she has shown no discernible symptoms.

She's been living on borrowed time for at least six months, thanks, apparently, to promising developments in chemical warfare against this dread incurable, blood-cancer.

When doctors in Indiana diagnosed her case 1 1/2 years ago, they gave her only a year to live.

Yvonne is a participant in a potentially revolutionary leukemia research program—featuring a method of using combinations of drugs—centered at the National Cancer Institute, arm of the public health service's National Institutes of Health.

It should be emphasized that institute doctors promised no cures; they say only that the technique holds promise.

She returns once a month to the hospital for treatments which will continue indefinitely. Use four pills.

The drugs that have sustained Yvonne's life are four powerful substances that are potentially toxic—and require administration and monitoring by trained specialists.

One is "vinorelbine"—derived from the periwinkle plant. Two others—methotrexate and y-mercaptopurine—are so-called "anti-metabolites" that "trick" a cancer into believing they are nutritional.

The fourth is the hormonal substance prednisone, which helps suppress the wild growth of white blood cells that characterizes leukemia.

Yvonne's case tends to illustrate a new, intensified thrust to conquer the disease which strikes people of all ages and is the leading fatal malady of childhood.

## CUBANS HAVE NEW TROUBLES

HAVANA (Reuters)—Smokers in Cuba, cradle of the smoking habit, are facing an agonizing problem—their cigarettes keep going out unless they inhale all the time.

"Damn that blasted cigarette, it has gone out again," is a common phrase in Havana today.

The cause of all the irritation is a bad consignment of cigarette paper imported at the end of last year.

"It does not contain the right ingredients," Gramma, official organ of the Cuban Communist party, told smokers in a recent article.

But it promised that the quality would soon improve and that special control methods would be taken to prevent a repetition of the error.

Cuba will import 1,010 metric tons of cigarette paper this year, 688 tons of it from Spain, 122 tons from France and the rest from Czechoslovakia.

## John Rodkin Gives Testimony At Commission

TORONTO (CP)—C. Powell Morgan, former president of Atlantic Acceptance Corp., was "very pleasant to deal with," advertising man John Rodkin Monday told the royal commission investigating the collapse of the corporation.

Mr. Rodkin of Toronto was called as a witness before the commission because he was one of many persons and corporations who borrowed money from Atlantic that was not repaid.

After he borrowed \$30,000 from Atlantic in April, 1963, Rodkin's advertising agency went into business and he went into personal bankruptcy.

He testified that he formed Ar-Jay Advertising Ltd. in 1960. He held the bulk of Ar-Jay's shares himself, but had paid for them by borrowing money from the Ar-Jay treasury.

His firm needed money to undertake some additional contracts, and a friend told him this type of loan was available from Atlantic and gave him Mr. Morgan's name.

He telephoned Mr. Morgan, and the loan was arranged.

Rate of interest on the \$30,000 four-year loan was 30 per cent per annum. Security for the loan consisted of common and preferred shares of Ar-Jay.

As additional security Rodkin handed over a newly bought \$50,000 face amount life insurance policy.

Rodkin paid back \$11,000 on the loan, but went into default about a year after getting the loan. The amount outstanding, including service charges, was \$42,665.

## SEIZE MARIJUANA

KARACHI (Reuters)—Customs officers seized 560 pounds of marijuana concealed in the hold of a Pakistani ship about to set sail for England, police disclosed Monday. The narcotic, grown in large quantities in northwest Pakistan, was reported worth \$150,000 on the illegal market. Police said one Pakistani was arrested.

## RIPLEY'S BELIEVE IT OR NOT

MRS. ALICE R. ARNOLD, Orlando, Fla., regularly ate a cucumber sandwich and drank a glass of beer before going to bed—and lived to be 105!

SEEDS OF CHORISIA SPIGOSA, a So. American plant, are covered with a skin that is eaten by natives into pillow cases believed to have the power to assure restful sleep to respiratory patients.

## DAILY CRYPTOQUOTE — Here's how to work it:

One letter simply stands for another. In this sample A is used for the three L's, X for the two O's, etc. Single letters, apostrophies, the length and formation of the words are all hints. Each day the code letters are different.
