THE BICYCLE COMPETITION.

Sir,—The Pioneer man while indulging in unbounded jubilation over Mr. Cannon's victory in the recent bicycle race, goes out of his way to insinuate that the Charlottetown wheelmen will be slow to do their part. He says: Mr. Cannon, before the race, tendered his money, and it is hoped the other participants will pay over. The management we understand, will do their part any time.

The facts of the case are as follows: A committee of the Charlottetown wheelmen waited on the Secretary of the association, and arranged for a bicycle race, the conditions being that there should be six entries, that the wheelmen should contribute \$15, and the association an equal sum; and that the entries should be in on Saturday, 22nd. The committee then solicited and easily obtained the \$15 from the wheelmen, also \$5 from citizens not wheelmen, and then arranged with the Secretary of the association that there should be three prizes: 1st, \$20 cup, 2nd, \$10; 3rd, \$5 silver spoon. No entrance fee was ever hinted at or thought of by Charlottetown wheelmen till seen in the Pioneer. Mr. Cannon's entry was not made till Monday, but was accepted on the same. Mr. Cannon, after the race, (not before) tendered his money to the Secretary of the association, only to find that matter had been all arranged for.

In view of these facts, then, it is unfair, that a Summerside paper should insinuate that the Charlottetown wheelmen had been, or would be, anyway small in their connection with the recent race. Personally, I was very much pleased with the result. I believe it will lend an impetus to wheeling on the Island, that nothing else would have done. As far, too, as I can learn, I think the Charlottetown wheelmen generally are very well satisfied and pleased, at least as far as they can be so consistently with their love of seeing their own town meet successful. They simply met a better man and bore the fate that all others have to when such things happen. Nor do they begrudge, in the slightest degree, Mr. Cannon having "something to show for his hand fought battle." I was pleased to see a Canadian made machine—a Brantford—take the race; also another Canadian, Comet, take second place.

CRAPAUD HARBOR.

Sir,—A long felt want has been granted to the mariners of this port by the erection this year of a complete set of range lights. Arsenas Lord, Esq., of the Marine and Fisheries Department, has the arranging of the lights at this port, and he is giving entire satisfaction to seafaring men and deserves more than a passing notice. Mr. Lord is the right man in the right place. Also his assistant, Mr. Walsh, our friend and esteemed friend, who manufactured and erected the lights, has won laurels. Mr. Walsh is a man who is master of his business. This fact shows for itself in the entire satisfaction that the lights of this Island have given to mariners. We now expect that the dredging of this harbor, which has been so repeatedly asked for, will soon be begun. When this is done, Crapaud will be one of the best harbors of the Province. This will largely increase the shipping trade as Crapaud is backed up by a fine country.

A COMPLAINT.

Sir,—The people of the country are curious to know why our local government have restricted the appointment of liquor vendors to Charlottetown. Why discriminate in favor of the capital of this Island? If our Government, as temperance men, consider that the appointment of liquor vendors for Charlottetown confers a boon upon its inhabitants, why not extend the appointments of vendors to the country? Will some of our local representatives kindly inform us why this privilege of a vendorship in certain suitable localities is denied the country people, while the people of Charlottetown can have three to dispense locally when necessary.
