Phone Employees Vote In Favour Of Walkout Unless Demands Granted

Mr. Arthur Holland, president of local union 1811 of the International Brotherhood of Electrical Workers in an interview last night stated that a strike vote had been taken on October 3rd among the members of the union to determine the wishes of the employees of the Island Telephone Company in the wage and hour dispute between the company and the union. The result of the vote was that unless the demands of the union were met by the Telephone Company the employees will refrain from work on a date to be announced later. Mr. Holland said last night that he was not in a position to give further details regarding arrangements now being finalized nor was he able to state on what date the walkout will take place in the event of last minute negotiations failing. Permission to take a strike vote was granted the brotherhood at a special meeting of the Provincial Cabinet held on Monday, September 21st, the terms and time of the vote to be fixed by the Provincial Secretary. Ceremony Held On Hill Beside River Thames

By AROH MacKENZIE
Canadian Press Staff Writer
RUNNYMEDE, England, (CP)—The Queen stood with bowed head on a mist-shrouded hill beside the Thames Saturday and unveiled a shrine to 20,455 Commonwealth airmen and women who live in nameless graves. Some 27,000 relatives and friends of those whose names are etched on the white stone of the shrine stood with bowed heads in drizzling rain as the Queen spoke the words of dedication. She spoke of the "glorious company" of fallen airmen and said "they were part of a glorious and far larger company who laid down their lives for freedom." "It is fitting that those who rest in nameless graves should be remembered in this place for it was in these fields of Runnymede seven centuries ago that our forefathers first planted the seed of liberty which has spread across the earth the conviction that man should be free and not enslaved." It was at Runnymede 740 years ago that King John was forced to sign the Magna Carta, the first major declaration of British liberties. Canadians Attend The names on the stone inside the white-towered memorial include those of 3,072 Canadians and 26 Newfoundlanders. Among the 2,000 men and women who came from overseas for the unveiling were many Canadians. Huges Lapointe, minister for veterans affairs, placed Canada's wreath on the memorial after wreaths had been placed by the Queen and the Dukes of Edinburgh and Gloucester. Following the afternoon ceremony, thousands began filing through the memorial. Many hundreds were still there late Saturday night. Flowers were 10 feet deep around the memorial when its lights were turned off. Taking part with the Queen and her husband, was the Archbishop of Canterbury. Also present were the Queen Mother, Princess Alice and the Earl of Athlone, former Canadian governor-general. Other Canadian guests included G. G. Power, member of Parliament and wartime air minister, and his wife, The RCAF wreath-bearer was Air Vice-Marshal Hugh Campbell of Ottawa, officer commanding first air division in Europe.

Dairy Problems Reviewed By National Council President

"Dairying is contributing nearly three quarters of a billion dollars to our national economy and provides a necessary means of livelihood to approximately seventeen per cent, or one out of every six of our total population," said Mr. J. J. Creighton, President of the National Dairy Council of Canada, at an address to the members of the New Brunswick and Prince Edward Island Ice Cream Manufacturers Association at their fall convention held in the Charlottetown Hotel on Saturday. "This money is spent in Canada," the speaker continued, "and provides jobs for hundreds of thousands of our own people. In contrast, last year we produced in Canada only a fraction of the vegetable oils we consume—to be exact, a total of 35 million pounds, grown in a few counties of Ontario, compared with over two hundred million pounds imported from the United States and Asiatic countries. The processing of these oils by only a handful of gigantic corporations involves very little employment for Canadians." Continued on page 15, Col 1

Girl Victim Of Brutal Slaying Is Identified

CORNWALL, Ont., (CP)—A girl stabbed and dumped face down in a ditch at nearby Iroquois in one of Ontario's most brutal slayings was identified by police here Sunday as Marie Anne Carrier, 26, of Bienville, Que. Provincial police made the announcement, four days after the victim was found nude and stabbed with a long knife about 36 miles west of here. The girl's three brothers made the identification and told police that she disappeared Wednesday night. Police would give no details of their talks with the brothers. They were not identified and left Sunday for their homes in Bienville, a community in Lewis township near Quebec City. The identification still leaves officers with a baffling case. There were no apparent clues.

Israel To Appeal To U. N. In Dispute With Jordan

JERUSALEM, (AP)—The Israeli cabinet decided Sunday to make its own appeal to the United Nations Security Council concerning the latest raids along the Israeli-Jordan border. An official announcement said the cabinet would direct the council's attention to "violations of the armistice agreements by the Arab states and particularly the series of outrages and murders committed by Jordanians along the armistice line." Britain, the United States and France asked the Security Council Saturday to take up the problem on an urgent basis and the council responded by ordering a meeting today. Arab-Israeli relations appeared at their lowest ebb since the armistice in 1949. Jordan claims 66 persons were killed by Israeli raids last Wednesday night in an assault on three Jordan villages. Israeli newspapers contend the raid was in retaliation for the murder of an Israeli woman and two children by Jordanians earlier in the week. The Communists indicated they were nearing the end of their patience by declaring in a Peiping radio broadcast that they had been. Body Recovered Yesterday Of Missing Grandview Man Near Fullerton's Marsh

The body of Mr. James Boyce Martin, missing Grandview man, was discovered at 3:00 o'clock yesterday afternoon on the east bank of Fullerton's Marsh, about 300 yards north of the bridge over the area. The discovery of the body was made by Mr. Everett MacDougall, Vernon, who with Mr. Martin's brother was searching in the area. The deceased was missing from his home since October 2nd. Royal Canadian Mounted Police, with the help of relatives and friends had been conducting an unsuccessful search during last week. Declares Palestine War May Break Out Anew

JERUSALEM, (AP)—Brig. John Bagot Glubb, longtime British commander of Jordan's tough Arab Legion, declared Sunday the Palestine war may burst forth anew unless the Big Three Western powers and the United Nations halt military action by Israel against the armistice line. Glubb's views were stated in one of his rare interviews in the Jordan-held old city of Jerusalem. Since 1930 he has been chief of staff of the Arab Legion, the only Arab military force undefeated in the 1948 Palestine war with Israel. Glubb described the intense bitterness which he said Jordanians have felt since they accused a battalion of Israeli troops of attacking three Jordan-held Arab villages 13 miles northwest of Jerusalem last Wednesday night. The Arabs said the Israelis, using heavy mortars and mines, killed 66 persons at one of the villages, Kibya, reducing it to rubble. Acknowledging that Israel has been provoked by infiltrations from the Jordan side, Glubb said the Israelis must deal with such infiltrations within their country and not by military incursions across the border in defiance of the 1949 armistice. Israeli sources have claimed that Wednesday night's attack was in reprisal for the killing of a Jewish woman and her two small children by Arabs Tuesday night.

Canadian Music Wins Praise From N.Y. Critics

NEW YORK, (CP)—Canadian music won almost unanimous applause from New York critics who heard the works of six Canadian composers performed at Carnegie Hall Friday night by Leopold Stokowski and his orchestra. Of five reviews in New York newspapers, only the Post offered more criticism than praise. Said critic Harriet Johnson: "The music was not particularly inspired" and while the concert was important in that it gave encouragement to contemporary music, "no major work of importance was disclosed." Other reviewers were more favorably impressed. Here are just two of their comments: Virgil Thomson Herald-Trib-

Reds Cancel Explanation Talks Today

PANMUNJOM, (AP)—Red persuasion squads suddenly cancelled violence - threatened explanation sessions to 1,000 anti-Communist Chinese prisoners today a few hours before the talks were scheduled to take place. A United Nations command spokesman said the Allies were informed by the Neutral Nations Repatriation Commission there would be no explanation sessions today. No reason was given immediately. On Saturday an Allied observer was kicked by a Red explainer. Communist representatives were cursed by Allied personnel and prisoners raised a howling, spitting, general clamor. Last Thursday when the explanations started the anti-Chinese prisoners refused to budge for more than seven hours and then screamed and cat-called at Red personnel attempting to woo them back home.
