## Text Of Sukarno Address Reprinted In Que. Papers

QUEBEC (CP)—The full text of an address President Sukarno made in Cairo Oct. 6 was reprinted Dec. 30 in the Quebec City dailies L'Evenement and Le Soleil in an advertisement paid for by the Indonesian embassy in Ottawa.

A spokesman for the dailies said the cost to Indonesia was about \$1700 for the 3,200 agate-line ad, which covered more than one full page in the papers.

It included a photo of Mr. Sukarno, another of Indonesia's eagle-like emblem, and a fact box on the Far East republic.

The address was made at the second conference of non-Communist countries in Cairo.

Largely an attack on imperialism, colonialism and neo-colonialism, the address at one point suggested that military bases and even economic institutions in neighboring Malaysia were established by interests wishing to preserve colonial power.

Indonesia Thursday announced its withdrawal from the United Nations, another move in its dispute with Malaysia.

An Indonesian embassy spokesman in Ottawa was reported to have said the advertisement was placed in the Quebec City newspapers to explain the country's position to French-speaking Canadians.

The spokesman was quoted as saying the country's position is explained in English-speaking (Canadian) by a news letter published by the embassy.

The embassy was reported to have said it decided to place the advertisements only in the Quebec City French-language newspapers because of the cost involved.

## Banner Year For Railways Is Reported

WINNIPEG (CP)—Canada's railways had a banner year in 1964, and even outstripped the growth in the over-all economy, Ian Sinclair, vice-president of the CPR, said Wednesday.

In the last year Canada's railways produced the largest volume of rail transportation in their history, establishing new records of gross freight revenues and revenue freight ton-miles.

Mr. Sinclair said in an address to the Manitoba branch of the Canadian Industrial Traffic League.

His remarks were released to the press prior to delivery of the award.

Mr. Sinclair said these factors have improved the competitive position of the railways.

Recent development of a number of big new Canadian industries largely dependent upon the railways.

Equipment innovations by the railways which combine low transport costs with superior handling methods.

Diversification of straight rail services into piggyback, containerization and allied fields.

The railway's plunge into new marketing concepts.

## Jail Terms End Saga Of Yacht

LONDON (Reuters)—The saga of the mystery yacht Christine, which disappeared in the English Channel a year ago, ended here when two men were jailed for their part in a conspiracy to defraud an insurance company of \$420,000.

Edward Anderson, 32-year-old car salesman, was sentenced to two years in prison and a fellow conspirator, Ronald Verrier, 34, to seven years.

Both men were convicted last Wednesday of conspiring with a third man, Denis Bassett, to defraud the insurance company through a policy on Anderson's life.

The Christine saga started 12 months ago when the yacht with Bassett aboard vanished off the English south coast.

A few days later Bassett's body was washed up on the Belgian coast near Ostend and Anderson disappeared.

A hunt for the yacht was carried out amid a blaze of publicity including reports that part of the \$7,000,000 loot of the August, 1963, "great train robbery" had been taken out of the country aboard the Christine.

Anderson was finally located in Ireland.

## THIS FUNERAL IS CHEERFUL

PLYMOUTH, England (Reuters)—A cheerful funeral was held here for a 101-year-old clergyman who requested it.

When Rev. John Henry Maddock, Britain's oldest Methodist minister, died last week, he left a sealed envelope addressed to "the man who will conduct my funeral."

The note requested a funeral as cheerful as possible because "there will be so many who have profited from my humble ministry here to greet me on the other side."

Rev. Russell Hope, who delivered the funeral address, said: "It would be foolish to mourn such a man."

## ALL BEST OF IT NOW

However, at present, Canada is getting all the best of it.

In 1963, the council reported, professionals represented approximately 40 per cent of all workers entering Canada from the U.S. but only about 23 per cent of the much larger number of workers moving from Canada to the U.S.

There had been a "remarkable" shift in the composition of immigration from the U.S. to Canada, with workers in professional categories rising fairly steadily as a share of the total.

On the other hand, the proportion of professionals in the increasing annual flow southward had not changed appreciably in the post-war period.

Despite this, and the significant number of professional immigrants from overseas, some Canadian industries were reporting shortages of specialized

## DAILY CRYPTOQUOTE — Here's how to work it:

AXYDLBAAXE IS LONGFELLOW

One letter simply stands for another. In this sample A is used for the three L's, X for the two O's, etc. Single letters, apostrophes, the length and formation of the words are all hints. Each day the code letters are different.

## CONTRACT BRIDGE

By B. JAY BECKER

### TEST YOUR PLAY

1. You are declarer with the West hand at Six Spades. North leads the queen of diamonds. How would you play the hand?

♠ KQ73    ♠ A862  
♥ J        ♥ Q73  
♦ K983    ♦ A5  
♣ A84     ♣ KJ102

2. You are declarer with the West hand at Three Notrump. North leads the five of spades. South covers the eight with the ten and you take it with the queen. How would you play the hand?

♠ A94     ♠ J98  
♥ Q93     ♥ 10  
♦ KQJ108   ♣ A53  
♣ A       ♣ QJ10984

1. The contract is obviously in danger, since the outcome depends in part on how the adverse cards are divided, but there is a best way of playing the hand. With the diamond with the king and lead the jack of hearts.

It is far better to try to ruff two hearts in your own hand than it is to try to ruff two diamonds in dummy. Both methods, if successful, would lead to twelve tricks, assuming a normal trump break, but the chance of ruffing two diamonds in dummy without establishing a trump trick for the defense is rather poor.

Assume that the defender who wins the jack of hearts returns a diamond. In that case, ruff a heart, cash the K-Q of spades, enter dummy with a club and ruff the last heart with your jack trump. Now cross to dummy by playing a club or by ruffing a diamond, sealed either on which method you judge is safer, and cash the ace of spades. If the adverse cards are distributed normally, the contract is now made.

2. Here you start with eight tricks and the problem is to find a way of assuring the ninth. Oddly enough, this can be done only by making a most unusual play.

Suppose you attempted to establish the ninth trick by leading a heart to the ten. You would then be defeated if South took the ten with an honor and returned a spade, provided North had five spades to the king and the other heart honor.

To prevent anything like this from happening, you cash the ace of clubs at trick two, then take three rounds of diamonds ending in dummy, and next play the queen of clubs, discarding the ace of spades!

Once you do this, the defense must either allow you to set to dummy to cash nine tricks, or to set to your own hand to cash nine tricks. You throw a trick away by discarding the ace of spades, but later you get back two in return.
