

QUEEN SQUARE SCHOOL PROJECTS

Pupils of Grades 6, 7, and 8, Queen Square School exhibited Friday a variety of projects which they had completed during the scholastic year in the manual training class. Approximately 87 pupils visited the basement rooms under the new school where the display was located. During the school year each student is required to construct one project built from plans drawn by himself.

In all 270 pupils were enrolled in the manual training class taught by Mr. John Danton. The basement classroom is designed to handle 12 students at each session, and is fitted with a wide variety of the most modern equipment available.

Several samples of individual projects completed by the Q.S.S. class in the 1956-57 academic year are shown in each of the above photos. Class representatives include, TOP, left of right, Paul Connolly, Paul Carragher, Gerald Mitchell, Leo Murphy, Louis Gauthier, Richard Campbell; BOTTOM George Berrigan, Gary Gallant, Kenny Smith and Clifton Pound.

cent from 1.5 million to 1.6 million.

Numbers of hens and chickens increased 4.7 per cent from 64.6 million to 67.5 million. The count of turkeys almost doubled, rising from 2.5 million to 4.8 million, the number of ducks on farms declined about four per cent from 438 thousand to 421 thousand and the number of geese declined 7.5 per cent from 352 thousand to 326 thousand.

HOGS

During the first four months of 1957 hog gradings in inspected or approved plants amounted to 1.9 million head, the fewest for that period since 1954. The lower level of production has been common to all provinces.

Hog prices in March and April fell back slightly from the level reached in February. At Toronto Grade 'A' dressed hogs have held at \$29.50 for several weeks, compared with the recent high of \$34.13 in the week ending February 13. Although lower than mid-winter prices, the April price at Toronto represents a gain of over 27 per cent from the previous April. This increase is larger than that recorded in the same period for comparable hogs in the United States, particularly when the increase in the value of the Canadian dollar is taken into account. Saying the same thing in another way, the price differential between Canadian hogs has been greater recently than a year ago.

This has been reflected in reduced exports of pork from Canada. During the first three months of this year total pork exports amounted to the equivalent of some 91 thousand hogs, or about six per cent of the commercial hog slaughter in Canada during the period. In the same three months in 1956 pork exports were equal to 144 thousand hogs, or about nine per cent of the domestic slaughter in the period.

On the basis of farmers' reports of hog numbers and farrowing expectations, as recorded in the Dominion Bureau of Statistics' reports on the December semi-annual livestock survey and the March quarterly hog survey, it is expected that the per cent decline in hog marketing from year to year will become smaller during the summer. During the fall and winter of 1957-58 more hogs are expected to be slaughtered than in the corresponding period of 1956-57. A more detailed report on marketing expectations during the coming 12 months, including provincial estimates, can be obtained from the Markets Information Section, Department of Agriculture, Ottawa.

Ontario. A recent survey on 600 Bruce farms, taken as part of a hog improvement campaign, revealed that 78 per cent used registered boars, 90 per cent fed balanced rations but less than 50 per cent used scales to ascertain proper marketing weights.

According to the agricultural census taken in June 1956 there were 452,487 farms in Canada reporting cattle (398,604 having milk cows), 287,357 farms with hogs, 58,362 with sheep and 317,806 still having some horses. Chickens were raised on 366,869 farms.

Canada's swine population at June 1, 1956 was apparently down to an unexpectedly low figure. The census total was 4,732,799 or 947,000 less than the 1956 June survey indicated. This largely explains the reduced hog marketing and stronger prices in recent months.

Cash income from sales of livestock, poultry eggs and wool in 1956 topped the billion dollar mark for the second time on record. The total of \$1,044 millions constituted 39.3 per cent of farm cash income and has been exceeded only by the all-time high of \$1,150 millions in 1951. Livestock and dairy product together made up 56 per cent of total farm sales last year.

CLUB NEWS
St. Phillip-St. Chrysostome 4-H Calf Club met in the St. Phillip School on May 22nd at 7:30 p.m. The meeting was under the direction of Mr. Cyrus Gallant, Club Leader. In his opening remarks, Mr. Gallant told the club of the responsibilities of each member and urged them to take part in all club functions throughout the year.

The business part of the meeting consisted of the election of officers for the current year and those elected were: Miss Iris Arsenault, President; Raymond Arsenault, Vice-President; and Miss Norma Gallant, Secretary-Treasurer. The annual directors for the year are Polycarpe Arsenault and Edmond Bernard.

It was decided by the meeting to hold the next judging class at Rany Arsenault's followed by the business meeting, Norma Gallant, Secretary-Treasurer.

Keenington Holstein-Guernsey Calf Club met in Margate School May 9 with the president in the chair. The meeting opened by reading the club pledge and the motto. Eleven members answered the roll-call and fifteen visitors were present.

The program committee for the next meeting is Roland, Gail and Edwin. The next meeting is to be judging held at the farm of Ivan Pickering, May 23 at 7 p.m. A letter was then read from Keith

DOUGLAS ELLIOTT

Will Conduct Music Exams

Mr. Douglas Elliott will be conducting current examinations for the Royal Conservatory of Music of Toronto in Charlottetown on June 18th, 1957.

Douglas Elliott, graduate in music from the University of Toronto, Associate of the Royal Conservatory of Music, Associate of the Canadian College of Organists, has appeared as organ and piano

Clay. Lessons were asked and the program committee took charge. It was moved by Roland and seconded by Andrea that the meeting be adjourned. Douglas Johnson, Secretary.

recitalist in many parts of Canada and the United States.

Mr. Elliott's studies in Canada include composition with Dr. Healey Willan, organ with Dr. Charles Peaker, and piano with Lubka Kolesa. Several years ago, a two years' scholarship took him to the Organ Institute, Andover, Mass., where he studied with Carl Weirich (Columbia University, E. Power Biggs and Arthur Poister (Syracuse University), and Ernest White. Mr. Elliott has also taken master classes in vocal music from Alfred Spouse of the Eastman School, Rochester.

Teacher of piano, organ and theory at the Conservatory, Mr. Elliott also serves as organist and choirmaster at St. Andrew's Presbyterian Church, Toronto. He manages to find time for numerous concert appearances, including broadcasts with CBC orchestra as solo organist.

LONDON (Reuters) — Britain has made financial provisions for British tourists to visit the United States and Canada for the first time since before the Second World War. Peter Thorneycroft, chancellor of the exchequer, announced each tourist will be granted a travel allowance of £100 a year.

JUNIOR FARMERS

The St. Georges Junior Farmers played host to visiting Junior Farmers from the East Prince Club, Provincial President, Eddie Clark introduced their members also the special guests, Mike Gillis of the C.B.C. Farm Broadcast and Alan Palmer, Agricultural Representative for Prince County.

Informal discussions were held and each Club exchanged ideas on their various projects. It was generally felt by both groups that more exchange visits should be made. The main part of the meeting was recorded on tape by Mr. Gillis.

Last Saturdays' complete broadcast was done from Summerside.

CENSUS OF AGRICULTURE

The Dominion Bureau of Statistics reports that the 1956 national census of Agriculture revealed increases, since 1951, in the farm population of cattle, sheep, hens and chickens, but decreases in the farm population of horses, pigs, ducks and geese.

Total cattle numbers rose 32 per cent from 8.4 million in 1951 to 11 million in 1956. Milk cows increased 8.8 per cent from 2.9 million to 3.2 million. Horse numbers dropped 40 per cent to a record low total of 784 thousand from 1.3 million in 1951. Only 55.3 per cent of the farms reported horses in 1956 compared with 72.5 per cent in 1951.

The number of pigs on farms declined 3.7 per cent from 4.9 million in 1951 to 4.7 million in 1956. Sheep numbers increased 10.8 per

FACTS

World cattle numbers during 1956, according to estimates of the U.S. Foreign Agricultural Service, reached a new record high of 928 million head. A further increase of about one per cent is anticipated in 1957, although in North America there may be a slight decrease.

Canadian cattle population, according to the June 1956 census, reached a record of 11,091,403 head, 32 per cent higher than in June 1951.

World hog numbers are estimated by the U.S.D.A. to have reached 380 1/2 millions last year and may increase to 385 million in 1957. This is 31 per cent greater than previous, although North America in numbers have only increased by about half this percentage.

Last year Bruce County marketed the highest proportion of "A" grade carcasses (40.3 per cent) in

COMING EVENTS

- Raffle, dance, Kelly's Cross Hall Friday, June 14th.
- Movie "Going My Way" Lot 65 Hall, Tuesday, June 18th, 8.30.
