REMODEL AND REPAIR NOW!

We commend the effort to alleviate seasonal unemployment.

There are many jobs which can be done as effectively now, in the winter season, as during the spring and summer months. Tradesmen are plentiful and the work carried out at this season is less subject to delay.

Any measures taken to reduce the number of seasonally unemployed people has our support.

Can You Provide A JOB?

Have That Work Done Now When Men Are Available

Why wait for Spring? In Winter with construction reduced, carpenters, plumbers, painters, electricians, plasterers and all those involved in building and finishing houses, apartments and business establishments, usually have fewer jobs on hand. In the Summer, when demands are heavy for these skilled workers, you may have to wait for your work to be done. You can help yourself and the community at the same time. If you don't wait for Spring, but DO IT NOW!
