

## PROVINCIAL PARKS

"The trees are green, the grass has riz, Provincial Parks are where the peoples is".

It's not correct english, not even good poetry, but it gives you the idea, Parks are Open! The degree of openness varies from park to park but they are all open for day use - barbeques, etc. Mill River, Brudenell River and Strathgartney Parks are fully operational.

As an example, at Strathgartney why not try a round of frisbee golf, (the frisbees may be borrowed from the park office), walk through the nature trail and have a barbeque. While the hot dogs and hamburgers are cooking - the kids can have a game of giant checkers and play on the swings and monkey bars.

All of the other parks will open all facilities June 10. By late June the recreation and naturalist programs will be in place so you can make even more use of Brudenell River and Cabot Provincial Parks. If you wish to be kept in tune with Provincial Park activities, if you leave your name and address with Provincial Parks, 892-7431 you will be sent a copy of the park newsletter "Gamut".
